

## Customize media display in Canvas (legacy)

Last Modified on 05/04/2026 3:53 pm IDT

 This article is designated for all users.

### About

You can customize the design of a media page in your LMS to control how it looks and what information it displays.

Change the player, hide elements, update the background color, or apply custom CSS for a specific media page.

This feature requires the [entrydesign module](#) to be enabled.

These instructions apply to the legacy **LMS Video** integration. If you're using LMS Video with Theming, please refer to the [LMS Rich Media Extensions category](#).

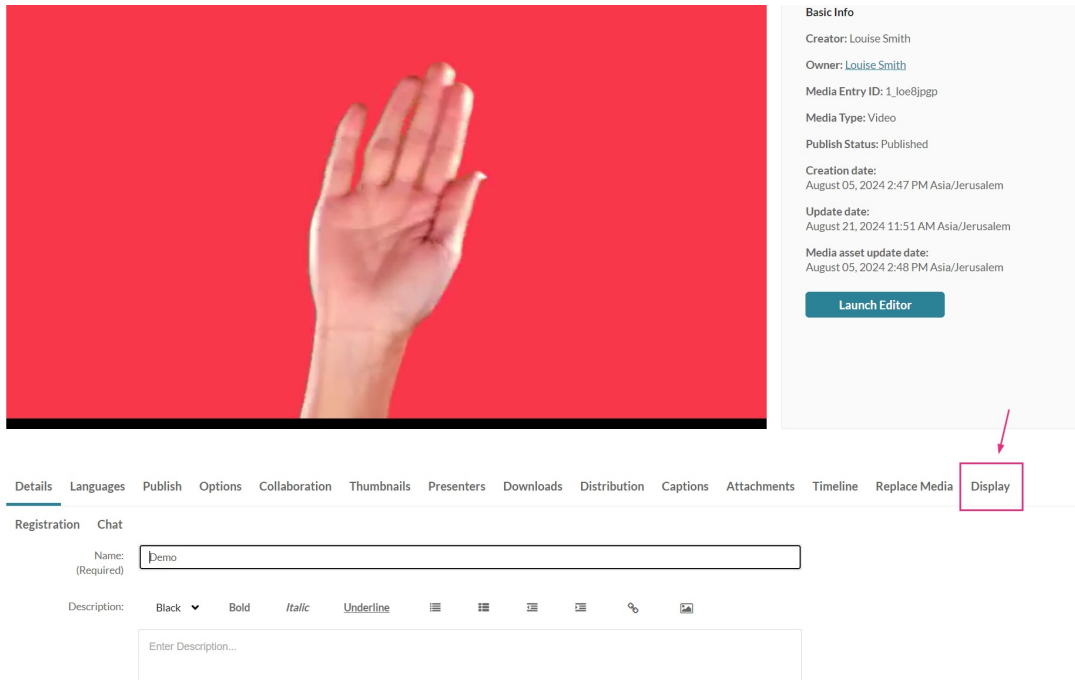

### Access the display settings

1. Go to your **My Media** page.
2. Click the **pencil icon** next to the desired media.

The edit media page displays.

3. Click on the **Display** tab.

## The **Display** settings display.

Use the Display tab to change or modify an entry's display.

Entry player:  ▼  
Choose a player for this entry

Show elements:

- Sidebar
- Entry properties
- Entry tabs
- Comments
- Header
- Header logo
- Footer

Choose what elements should show on the page with the video

Background color:  □  
Choose the color of the entry page background

CSS:  No file chosen  
Upload a CSS file to customize the entry's page.

Different logo:  No file chosen  
Add a logo image file to show for this entry only. Default logo size is 325px wide X 41px high. Note: The width of the logo image affects the amount of space available for the Header menu.

## Customize

1. Use the following options to adjust the media page layout and appearance.

Available options depend on your administrator's configuration.

- **Entry player** - Select a custom player for the page. The choices available are from a predefined set of players supplied by your administrator.
- **Show elements** - Uncheck the UI elements that you want to hide on the entry page.
  - **Sidebar** - The sidebar refers to the bar to the right of the player. Depending on your application's settings, you may or may not have a sidebar, related media, or a playlist chosen by the administrator.
  - **Entry properties** - The properties are right below the player, containing the entry's name, owner, and 3 counter icons for views, comments and likes.
  - **Entry tabs** - Below the properties tab, the entry tab includes the Details, Share, Attachments and the Actions drop down menu.
  - **Comments** - The comment section, if enabled in your video portal.
  - **Header** - The header includes the entire bar on the top of the video portal screen. If you decide to remove it, it will also remove the logo, and all other links.
  - **Header logo** - The main logo at the top left of video portal screen.
  - **Footer** - The video portal footer.
- **Background color** - Choose a background color for the entry page.
- **CSS** - Choose a CSS file to alter only this single page.  
Click on the "Upload CSS" button to apply the change. Note that clicking on this button without uploading a file first will have no effect.
- **Different logo** - Choose a new logo that will replace the existing one when viewing this page. Click on the **Upload logo** button to apply the change (clicking on this button without uploading a file first will have no effect).

2. Click **Save entry theme**.

## Example

The following shows a sample configuration where all boxes have been unchecked and the background color was changed.

Use the Display tab to change or modify an entry's display.

Entry player:

Choose a player for this entry

- Show elements:
- Header
  - Header logo
  - Sidebar
  - Entry properties
  - Entry tabs
  - Comments
  - Footer

Choose what elements should show on the page with the video

Background color:  

Choose the color for the background

CSS:

Upload a CSS file to the page.

The resulting media is displayed as follows:
