- ✓ To avoid issues, always check the availability of YouTube videos ingested into Kaltura. If a video is deleted or unpublished on YouTube, users will see a spinning wheel in the video portal.

Analytics

YouTube videos linked to Kaltura via the YouTube module have their own analytics, tracking engagement within Kaltura's Video Portal and KAF. These stats are separate from YouTube's playback analytics.

Captioning

If a YouTube video has captions, you might see overlapping captions with the Kaltura REACH captions. Check out [Overlapping YouTube Captions](#) to learn how to manage this.

⚠ The **V7 player** currently does not ingest captions from YouTube videos.

To order REACH captions, see [Order captions & translations](#).
