Analytics

YouTube videos linked to Kaltura via the YouTube module have their own analytics, tracking engagement within your LMS. These stats are separate from YouTube's playback analytics.

Captioning

If a YouTube video has captions, you might see overlapping captions with the Kaltura REACH captions. Check out [Overlapping YouTube Captions](#) to learn how to manage this.

The **V7 player** currently does not ingest captions from YouTube videos.

To order REACH captions, see [Order captions & translations](#).
