About

Would you like to combine multiple videos and images into one video? It's very easy with Kaltura's Media Stitching tool. This tool allows you to easily create new, original videos by stitching together existing content.

Only VOD videos and images can be stitched. The duration of an image is configured by your administrator. Media Stitching is currently unavailable for [multi-stream](#) videos.

The instructions below are for non-Theming users. If you have [Theming](#) enabled, please refer to our article 'Media Stitching - Theming'.

Prerequisite

Your administrator must first enable the [mediastitching module](#).

Let's stitch

1. Access My Media.
2. Click the **Add New** menu and choose **Stitch videos**.
