About

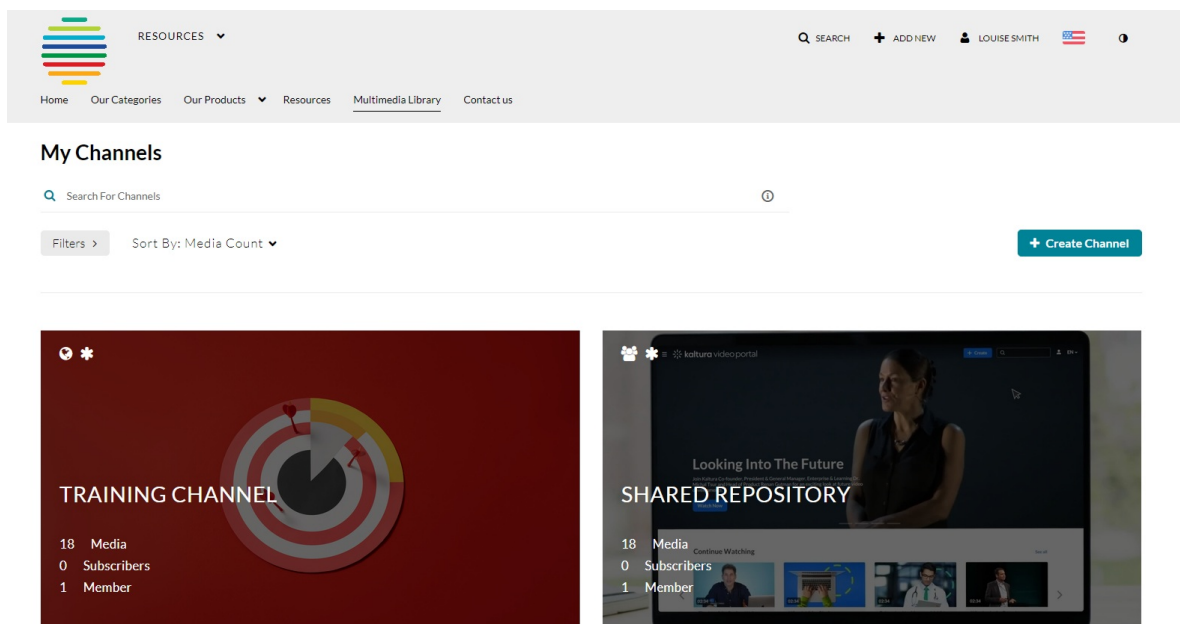

This guide will walk you through accessing and managing your channel playlists in Kaltura's Video Portal. Whether you want to rearrange playlists, update details, or share and embed them, we've got you covered. Just follow the steps below to make the most out of your playlist editing options.

Access the edit playlists page

1. From the user menu, select [My Channels](#)

The **My Channels** page displays.

2. Locate the desired channel and click the **pencil icon** at the bottom right (the icon displays when you hover)

The edit page displays.

Done

2. Configure the following settings:

- **Share Watch Link** - To share the watch link (i.e. the playback page) for the playlist, either copy the link or click **Email Link** to launch your email application.

- **Embed Settings:**

- **Choose Player** - Choose the player in which to embed the media
- **Max Embed Size** - Set the maximum size playlist to grab. This is set to responsive embed automatically.
- **Embed Type** - Choose the type of embed (iFrame, Dynamic, or Auto).
- **Auto Play** - Choose to start playing the first media in the playlist as soon as the page loads. This includes auto continuing to the next media once the first one is finished and so on.

- To copy the embed code, click **Copy Embed**.

3. When you are finished making your selections, click **Done**.
