About

This guide will walk you through accessing and managing your channel playlists in Kaltura's Legacy Video Portal.

These instructions apply to the **Legacy Video Portal**. If you're using the Theming-based Video Portal, please refer to the [Content Hubs category](#).

Access the edit playlists page

1. From the user menu, select [My Channels](#)

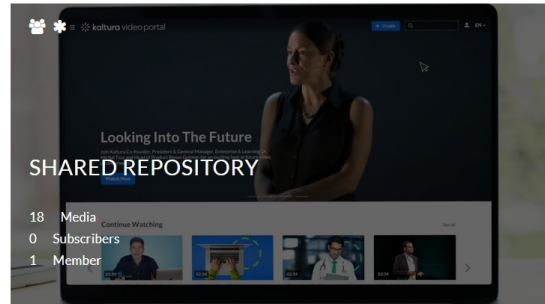

The **My Channels** page displays.

My Channels

Search For Channels

Filters > Sort By: Media Count ▾

[+ Create Channel](#)

2. Locate the desired channel and click the **pencil icon** at the bottom right (the icon displays when you hover)

The edit page displays.

Edit Training channel

- 2  **Digital learning**

2. Edit your playlist details as desired.

The following features are available on the edit playlist page:

- Media thumbnails (1)
- Playlist name (2) - Click in the field to edit the name.
- Creator, number of items in the playlist, and when it was last updated (3)
- Description (4) - Click in the description field to edit the text. Use the scroll bar on the right if there's a lot of text.
- Tags (5) - Click on the 'x' to the right of the tag name to delete it. Click in the tag field to type in new tags.
- 'Add items to your playlist' column (6) - Add media to your playlist. See [Create a playlist](#) for further information.
- 'My Playlist' column (7) - This section displays all items currently in the playlist. You can remove items or change their order as needed. For more details, see [Create a playlist](#).

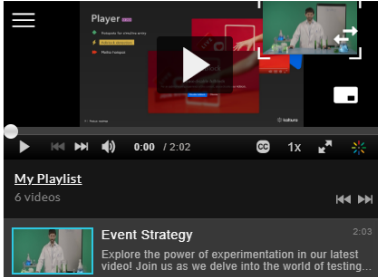

3. After you have finished editing the playlist, click **Save** at the top right.

Delete

1. Click the **trash icon** next to the relevant playlist to delete it.
A confirmation message displays: *Are you sure you want to delete the playlist [name]?*
2. Click **Delete**.

Share and embed

1. Click the **embed icon** next to the relevant playlist to share and embed it. The **Share &Embed** window displays.

2. Configure the following settings:

- **Share Watch Link** - To share the watch link (i.e. the playback page) for the playlist, either copy the link or click **Email Link** to launch your email application.
- **Embed Settings:**
 - **Choose Player** - Choose the player in which to embed the media
 - **Max Embed Size** - Set the maximum size playlist to grab. This is set to responsive embed automatically.
 - **Embed Type** - Choose the type of embed (iFrame, Dynamic, or Auto).
 - **Auto Play** - Choose to start playing the first media in the playlist as soon as the page loads. This includes auto continuing to the next media once the first one is finished and so on.
- To copy the embed code, click **Copy Embed**.

3. When you are finished making your selections, click **Done**.
