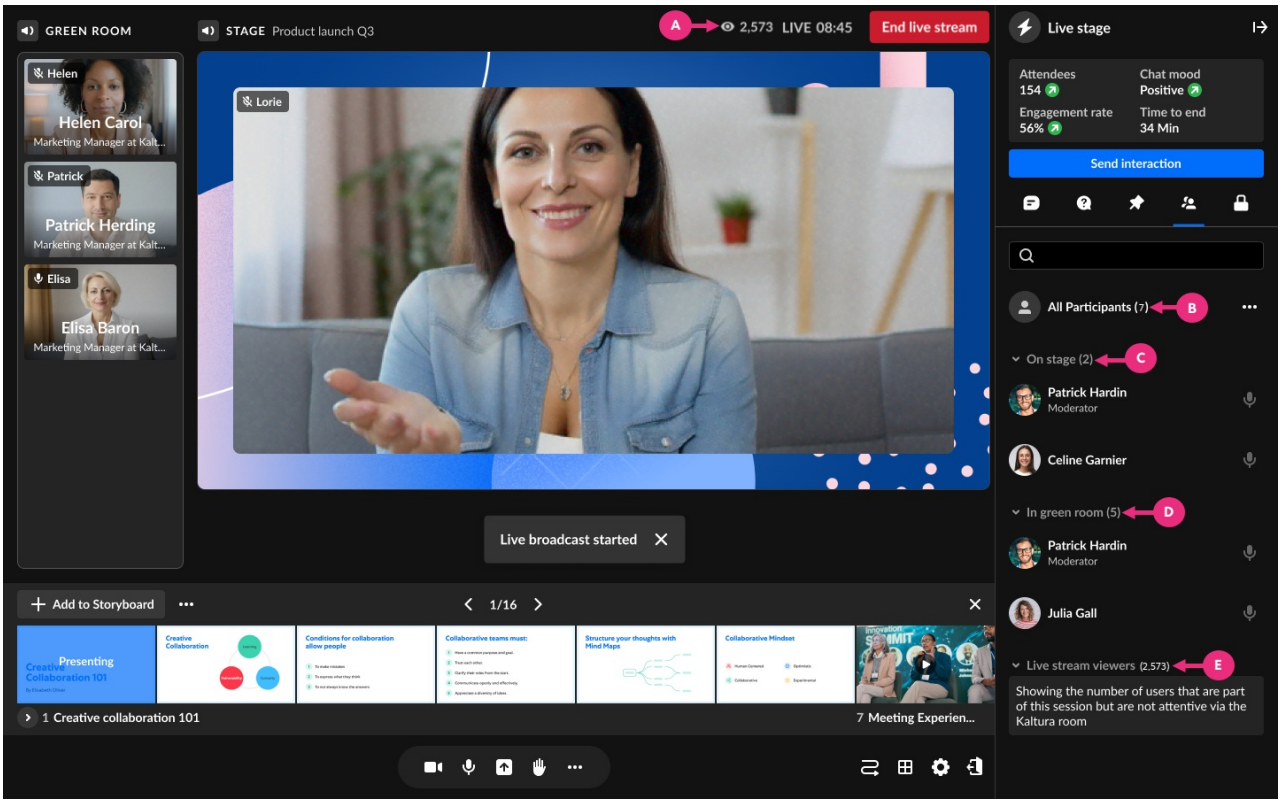
This article is designated for all users.

About

This article explains the viewer counts and participation numbers displayed during a DIY live webcast. Understanding what each number represents can help moderators monitor audience activity and distinguish between viewers watching the live stream and participants inside the studio room.



(**A**) Number of users watching the live feed (using the Kaltura Player)

(**B**) All Participants - Aggregated number of users inside the Kaltura Studio Room and watching the live feed (using the Kaltura Player)

(**C**) On Stage - Number of Kaltura Studio Room users who are on stage

(**D**) In green room - Number of Kaltura Studio Room users who are in the Green Room

(**E**) Live Stream Viewers - Number of users who are part of this session but are not attentive via the Kaltura Room
