About

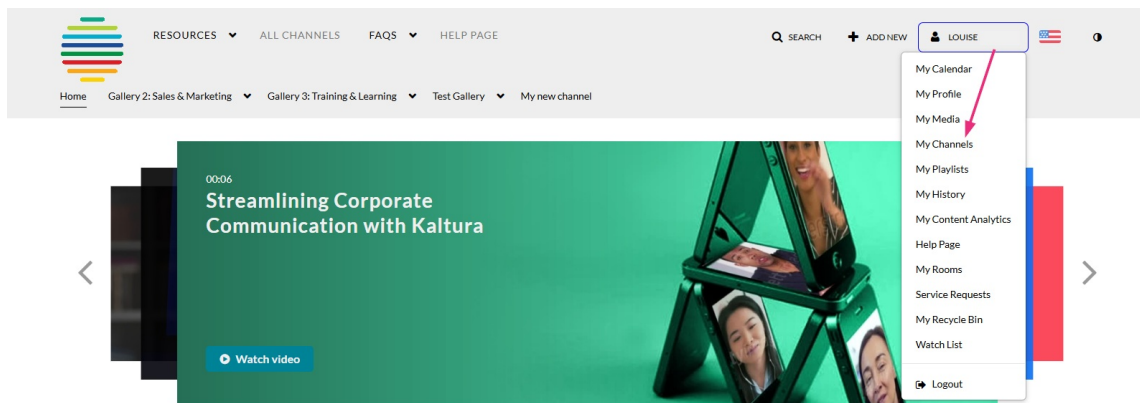

Channel managers and moderators can approve or reject content when moderation is required before media is displayed, ensuring that all content aligns with community standards before going live.

 To use channel moderation, both the [channelThemingUI module](#) and the [channelModeration module](#) must be enabled.

These instructions apply to the **legacy Video Portal**. If you're using the Theming-based Video Portal, please refer to the [Content Hubs category](#).

Enable channel moderation

1. Select **My Channels** from the user menu

START HERE >

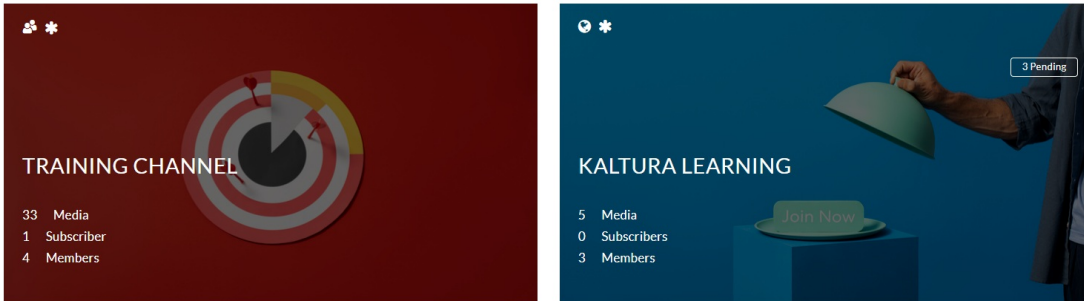

The My Channels page displays.

My Channels

Search For Channels

Filters > Sort By: Media Count

+ Create Channel

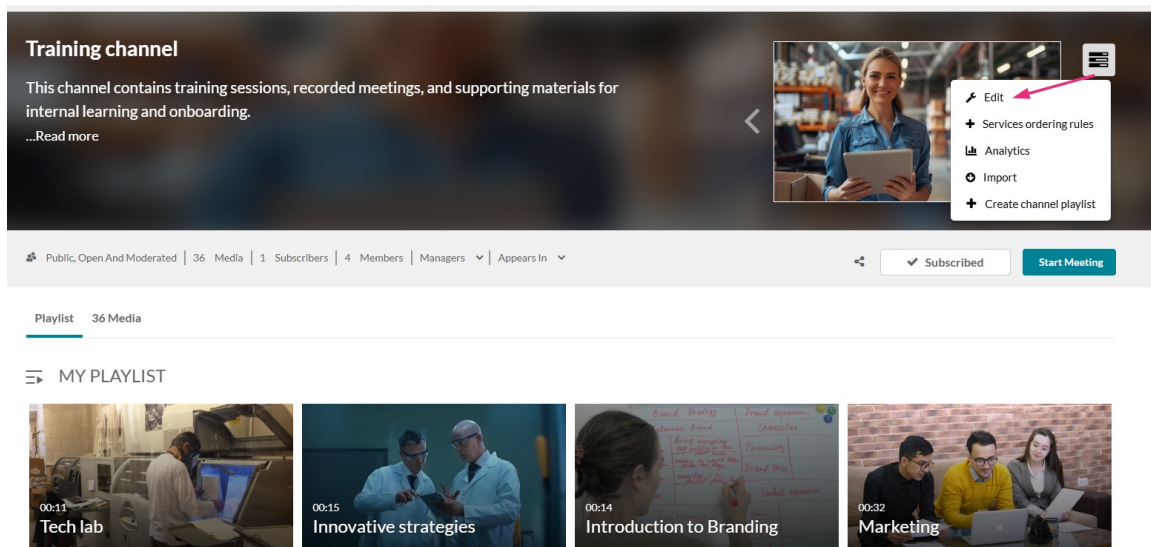

Load More

2. Click the thumbnail of the desired channel.

The channel page opens.

3. Click **Actions** at the far right and select **Edit** from the drop-down menu.

The edit page displays.

Edit Training channel

- Options:
- Moderate content (Media will not appear in channel until approved by channel manager)**
 - Enable comments in channel
 - Keep comments private to channel.
 - Force media published only to this channel to always be played in the context of the channel
 - Enable subscription to channel (link to subscribe <https://4834032.mediaspace.kaltura.com/channel/Training+channel/33693042/subscribe>)
 - Enable Embed Grab
 - Enable the channel TV for sessions on this channel
 - Enable Newrow Live Room

5. Click **Save**.

Once channel moderation is active, you can review and approve or reject uploaded content. Channel owners and moderators will see notifications on the channel page whenever media requires moderation, helping you stay up-to-date with pending content.

Pending media cannot be previewed or published until approved, though media details can still be edited while awaiting moderation.
