

Channel moderation - Theming

Last Modified on 06/11/2025 10:30 am IDT

 This article is designated for all users.

About

Kaltura's content moderation feature allows channel managers and moderators to approve or reject media before it becomes publicly accessible, ensuring that all content aligns with community standards. This functionality is consistent with Kaltura's Theming design system, providing a seamless experience for moderators.

The instructions below are for Theming users. If you don't have [Theming](#) enabled, please refer to our article [Channel moderation](#).

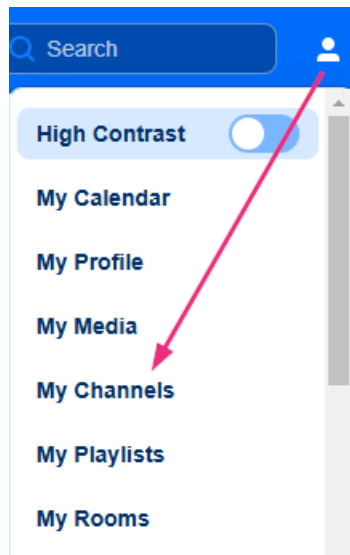

To learn more about channel permissions, check out our article [Understanding channel roles and permissions](#).

Before you start

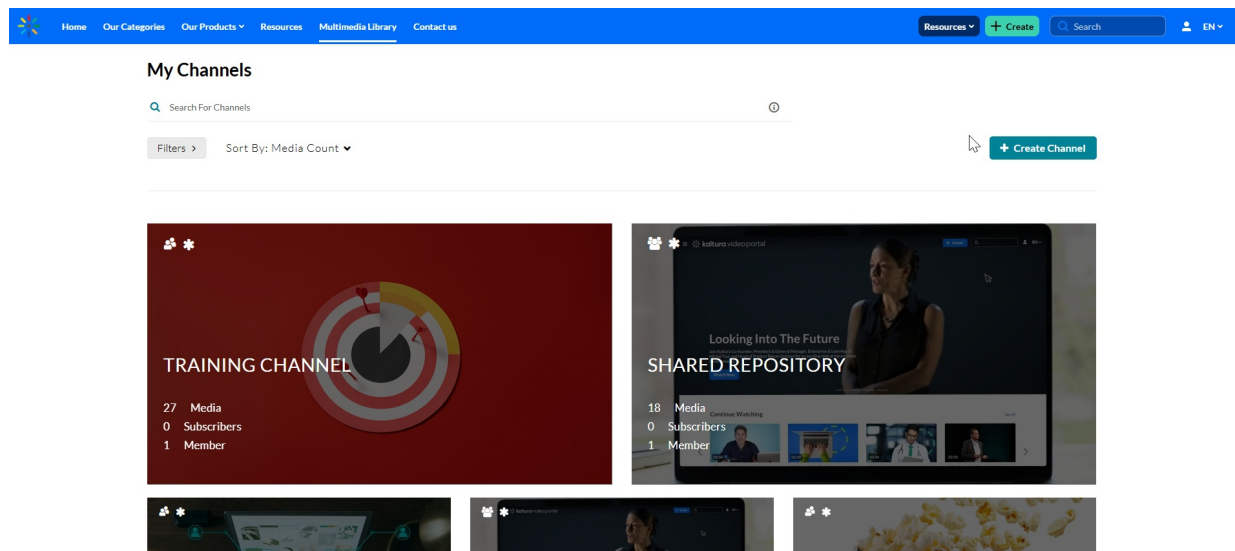

Enable the [channelThemingUI module](#) and the [channelModeration module](#).

Access the channel page

1. Go to the desired channel page in [My Channels](#). You can do this by selecting My Channels from the user menu.

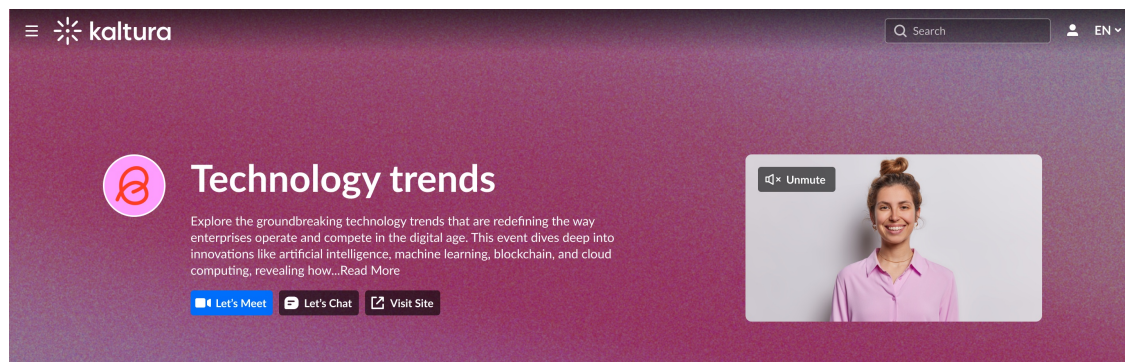

The **My Channels** page displays.

2. Click the desired channel.

The channel page displays
