

Channel moderation - Theming

Last Modified on 08/05/2025 11:01 am IDT

28 This article is designated for all users.

About

Kaltura's content moderation feature in Video Portal allows channel managers and moderators to approve or reject media before it becomes publicly accessible, ensuring that all content aligns with community standards. This functionality is consistent with Kaltura's Theming design system, providing a seamless experience for moderators.

•

The instructions below are for Theming users. If you don't have Theming enabled, please refer to our article Channel moderation.

0

To learn more about channel permissions, check out our article Understanding channel roles and permissions.

Before you start

Enable the channelThemingUI module and the channelModeration module.

Access the channel page

1. Go to the desired channel page in My Channels. You can do this by selecting My Channels from the user menu.

Click the **Explore** link to open a sidebar to view the content directly. When reviewing videos in the **Explore** tab, the video player will load automatically, providing an inline experience for moderation. You can approve or reject the content while remaining on the same page.

The sidebar displays the following information:

- Media thumbnail
- Video preview, mute / unmute, and play / pause functions (for VOD entries)
- Approve / Reject buttons
- Media name
- Name of publisher
- Creation date
- Media type
- Number of plays (or 'views' for images)
- Media description
- Tags clicking a tag will navigate the user to the relevant category / channel
- Scheduled sessions schedule is shown

Search

Enter a search term in the search field and press **Enter**. Your results will appear, allowing you to approve or reject as needed.
