

Interactions tab - Emails - Templates

Last Modified on 07/21/2025 4:50 pm IDT

 This article is designated for all users.

About

On the Templates tab of the Emails page, you may:

- Create (with AI if you wish!), edit, schedule, and send custom emails for attendees, speakers, and moderators. Custom emails may include event/session reminders, schedule changes, post event surveys, and more.
- Customize the automated system emails, including "Invite", "Registration complete", "Login email" (in case you are using login link and not user/password), "Notify speaker of session assignment", "Notify moderator of session assignment", "Notify speaker of schedule change", and "Notify moderator of schedule change".

templates.

Custom email templates and automated system emails - What's the difference?

On our preset event templates, Kaltura provides six **custom email templates** that event organizers can use to build custom emails for prospects, registrants, and attendees. You can edit and use them as basis for your email or create new ones.

- **Send a reminder** - Raise awareness to the site, call registrants to check the speakers and agenda, wander around and watch some VODs.
- **Notify your audience** - Attract registrants to join the event after it has started.
- **Spread the word** - Invite attendees to share content, make it clear that the recordings are available and that the site is open for registration.
- **Promote content** - Provide extra content regarding the event's subject with a spotlight on the company blog posts, products, etc.
- **Get feedback** - Ask participants for feedback with an external form.
- **Upcoming events** - Showcase the organization's upcoming events.

Kaltura also provides seven **automated system emails** that are sent to users and stakeholders based on system triggers.

- **Invite** - Attendees, speakers, and moderators will receive this email upon being invited to the event.
- **Registration complete** - Attendees will receive this email upon completing the registration.
- **Login email** - Attendees will receive this email upon trying to log in to the event site.
- **Notify speaker of session assignment** - Speakers will receive this email upon being assigned to a session.
- **Notify moderator of session assignment** - Moderators will receive this email upon being assigned to a session.
- **Notify speaker of schedule change** - Speakers will receive this email when a change has been made to the schedule.
- **Notify moderator of schedule change** - Moderators will receive this email when a change has been made to the schedule.

Create a custom email template using AI

Producing content for an event is challenging. Beyond managing session content, there are numerous other details that demand attention to ensure everything runs

smoothly. One of those details is managing email notifications. Kaltura's AI-generated email templates make creating or editing your emails much easier and faster!

Looking for more information about this feature? Feel free to contact your Kaltura representative.

This feature supports English language only.

1. On the Templates tab, under Custom templates, click **Create with AI**.

The Create with AI screen displays.

Create with AI Beta

What kind of template would you create?

Reminder Post-event attended Post-event no show

What would you like to say? (optional)

The AI template uses all event details like speakers and sessions

Generate

2. Decide what kind of template you would like to create.
 - a. Reminder - Remind attendees about anything that's happening before and/or during the event.
 - b. Post-event attended - Engage with attendees right after the event is over.
 - c. Post-event no show - Engage with registrants that didn't attend the event.
3. Type anything else you would like included in the email. This is an optional step. The AI template uses all the event details (i.e., speakers, sessions, etc.), but this is your time to provide additional context. For instance, if your event is taking place in San Diego, CA, you may want to type something like "Mention that because the event is taking place in San Diego, CA and there's so many fun things to do and see in San Diego like the world-famous zoo and museums, attendees may want to arrive a day early."
4. Click **Generate**. You are redirected to the AI template creator page.

- At this point you can edit what's already filled in, as well as add more to your email template. A preview of the new template is displayed on the right of your screen and updates in real time as you make your changes.

You may click **Customize your email** in the Email details section to see a list of customization tokens that you may copy and paste into fields to customize your email template.

- Template name (required) - Type a name for your template. The Template name is pre-filled based on the kind of template you selected.
- Template description - Type a description of your template. Notice the Template

description is pre-filled based on the kind of template you selected.

- Subject (required) - Type a subject for your email.
- Banner image - If you wish to upload an image, click **Upload image** and choose the desired file. Recommended size is 1920x1080 px. You may click **Edit image** to choose a different one.
- Title - Type a title for your email.
- Body text (required) - Type the message for the body of the email. Some tips are provided for creating a powerful email.

You may also use AI to modify the body text. Simply click the **Enhance with AI** button and additional options display. Clicking on any of the options modify the email accordingly.

- Add changes - Produces a different version with your specified changes.
- Rewrite - Produces a different version of the same content.
- Shorter - Creates a shorter version of the same content.
- Longer - Creates a longer version of the same content.
- More formal - Edits current content to a more formal writing style.
- More casual - Edits the current content to a more casual writing style.

Looking for more information about this feature? Feel free to contact your Kaltura representative.

- Button - Click to enable use of a Call to Action (CTA) button in the email. When users press this button, they are redirected to the configured location.
- Button Label - Type the text that will display on the CTA button.
- Button URL - Type the URL your user will be redirected to when they push the button.

When using a login link for entrance into the event, Kaltura recommends adding the "MAGICLINK" customization token as the button URL so that your attendees can directly login and have a seamless experience.

- Footer - Type the text that will display on the email footer.
6. Once you are finished, click **Create** to save it. A notification that the custom email template was created successfully is displayed.

- Button - Click to enable use of a Call to Action (CTA) button in the email. When users press this button, they are redirected to the configured location.
- Button text - Type the text that will display on the CTA button.
- Button URL - Type the URL your user will be redirected to when they push the button.

When using a login link for entrance into the event, Kaltura recommends adding the "MAGICLINK" customization token as the button URL so that your attendees can directly login and have a seamless experience.

- Footer - Type the text that will display on the email footer.
3. Once you are finished editing the custom email, click **Save** to save and remain on the page or **Save and Close** to save and exit the page. A notification that the email template was updated successfully is displayed.

Schedule or send a custom email

1. On the Templates tab, under Custom templates, click **Send new** in the desired

custom email box to prepare to send the custom email.

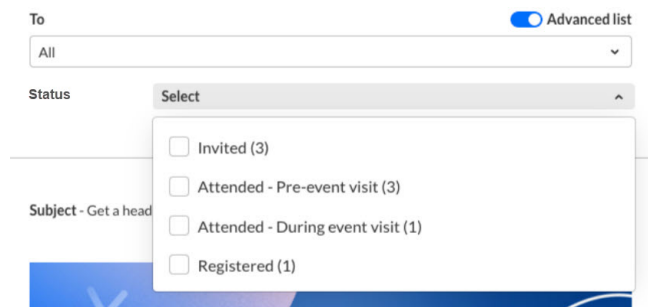

The Send new screen displays. In the example below, we have chosen to send a reminder email.

2. In the From field, type the sender name. Note - It is prefilled with the event name. You can change or remove this text.
3. From the To pull-down list, select who will receive the custom email - All, Speakers, Moderators, No show users, or RSVPs.
 - a. If you selected All, you also have the option of choosing from a more advanced list of users, thereby streamlining communication with specific audience segments. In other words, sending relevant content to your relevant audience based on their attendance status. Slide the **Advanced list** button to the right

and another option displays - Registration status. Click the down arrow to expand the Registration status list and click on desired status(es).

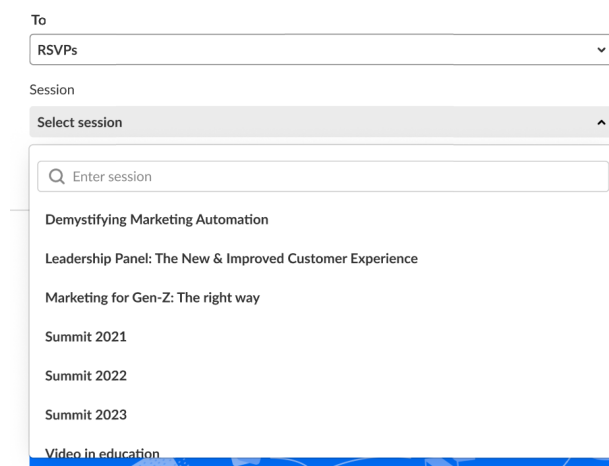

The statuses listed reflect the granularity seen upon hovering over the registration status of a user in the All users page. For detailed information on these statuses, see [People tab > All users - Invite attendees to your event](#). Following are a couple examples when you may choose to use the Advanced list option:

You want to send an email to all those who *attended* your event, thanking them for coming. Choose **Attended-During event visit**.

You want to send an email to those who were *invited and/or registered but did not attend*, telling them they were missed and directing them to the recording. Choose **Invited** and **Registered**.

- b. If you selected **RSVPs**, you are *required* to select one session from a list of existing sessions on the agenda, thereby streamlining communication with those who have RSVPed to a specific session at the time of sending. Click on desired session.

This option is available only if RSVP has been enabled and configured on your account.

4. If you would like to send a test email to yourself to check the appearance, click **Send test email**, then click **Send**.

The screenshot shows the 'Send a reminder' interface. At the top, there's a 'Send test email' button and a 'Schedule' button with a dropdown arrow. Below this is the 'Email' section with 'From' and 'To' fields. A modal window titled 'Send test email to' is open, showing an input field with the email address 'patrick.lorimer@kaltura.com' and 'Cancel' and 'Send' buttons.

5. After you've received the test email and are satisfied with the appearance, you may choose to schedule the email to be sent later or send it now.
- Schedule the email to be sent later -
 - a. Click **Schedule**. The Schedule email screen displays.

The screenshot shows the 'Schedule email' form. It has two radio buttons: 'Relative to the event' (selected) and 'Select date & time'. Below this is the 'Schedule email notification' section with a dropdown set to '10', a unit dropdown set to 'Minutes', and a direction dropdown set to 'Before', followed by 'the event'. A confirmation message states 'Email will be sent on 09/09/24, 10:00 AM EST'. At the bottom are 'Cancel' and 'Schedule' buttons.

- b. Decide whether you would like to schedule the email relative to the event (i.e., at a chosen amount of time before, into, or after an event), or on a specific date and time.
- c. If you choose *Relative to the event*, type the number of [days, hours, or minutes, per your selection] and whether this will occur before, after, or into your event.

Let's use a few examples. If you want to schedule the reminder email to be sent 2 hours before the event starts, you type **2**, then select **Hours** and **Before**. If you want to schedule the reminder email to be sent 1 day after the event ends, you type **1**, then select **Days** and **After**. If you want to schedule the reminder email to be sent 20 minutes after the start time of the event - you type **20**, then select **Minutes** and **Into**.

Please note that if the event time changes, the email schedule will be adjusted accordingly. In addition, if the event has already started, and you attempt to schedule an email *before the event*, you receive a message that the email must be scheduled in the future.

Schedule email

☒ Relative to the event
 ☐ Select date & time

Schedule email notification ⓘ

the event

Email will be sent on 09/09/24, 1

If you choose *Schedule date & time*, make the appropriate selections for date and time.

Schedule email

☐ Relative to event
 ☒ Select date & time

Email will be sent on 09/09/24, 10:00 AM EST

- d. Click **Schedule**. You are redirected to the Scheduled tab. You receive confirmation that the email has been scheduled successfully and it is displayed in the list.
- o Send the email now -
 1. Click the down arrow to the right of the **Schedule** button.

2. Choose **Send now**. A notification that the email was sent successfully is displayed.

If you would like to edit the custom template, simply click the **Edit template** button and follow the steps in [Edit a Custom Template](#).

Delete a scheduled custom email

You can always delete a scheduled email if you change your mind.

1. Click on the Scheduled tab.

The screenshot shows the Kaltura interface with the 'Emails' section selected in the sidebar. The 'Scheduled' tab is active, displaying a table of 4 scheduled emails. The table has columns for 'Timeline', 'Name', and 'Recipients'. Each email entry includes a three-dot menu icon for actions.

Timeline	Name	Recipients
10:02 AM, 09/11/24	Send a reminder Don't miss out [EVENTNAME]	All
10:00 AM, 09/11/24 2 days after the event	Send a reminder Don't miss out [EVENTNAME]	All
11:00 AM, 09/09/24 1 min after the event	Send a reminder Don't miss out [EVENTNAME]	All
10:00 AM, 09/09/24 10 mins into the event	Send a reminder [FIRSTNAME], [EVENTNAME] is almost here!	All - custom list
09:30 AM, 09/09/24	Send a reminder Change of schedule [EVENTNAME]	All
09:30 AM, 09/02/24 7 days before the event	Notify a change of schedule Change of schedule [EVENTNAME]	All

2. Click the three-dot action menu to the right of the desired email and choose Delete.

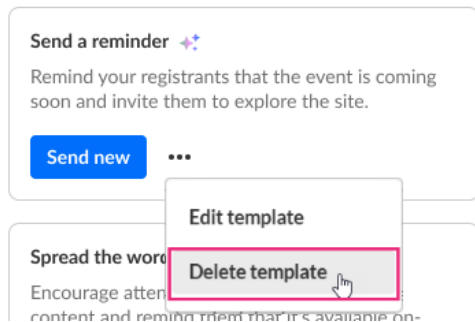

The screenshot shows a 'Recipients' dropdown menu with the 'All' option selected. A 'Delete' button is visible at the bottom of the menu.

You are asked to confirm your action. This action can't be undone.

3. Click **Delete email** to confirm or click **Cancel** to exit.

Delete a custom email template

1. On the Templates tab, under Custom templates, choose Delete Template from the three-button menu located in the desired custom email box to delete the custom template.

2. You are asked to confirm your action. This action can't be undone. Click **Delete permanently** to confirm or click **Cancel** to exit

Customize the Invite email (an automated system email)

The "Invite" email is the email that attendees, speakers, and moderators will receive upon being invited to the event.

1. On the Templates tab, under Automated system emails, click **Edit** (the pencil icon) in the Invite box. The Edit template page displays.

languages are available on your account, click the ellipses to see the full list of relevant languages.

Choose a language from the drop-down list. That language will be placed in the second position, right after the main language set on your account. In our example below, the main language is English. When the user chooses a language from the drop-down list, the language chosen will be placed between English and German.

- Subject (required) - Type a subject for your email.
- Title - Type a title for your email.
- Body text (required) - Type the message for the body of the email. Some tips are provided for creating a powerful email.

You may also use AI to modify the body text. Simply click the **Enhance with AI** button and additional options display. Clicking on any of the options modify the email accordingly.

- Add changes - Produces a different version with your specified changes.
- Rewrite - Produces a different version of the same content.
- Shorter - Creates a shorter version of the same content.
- Longer - Creates a longer version of the same content.
- More formal - Edits current content to a more formal writing style.
- More casual - Edits the current content to a more casual writing style.

Looking for more information about this feature? Feel free to contact your Kaltura representative.

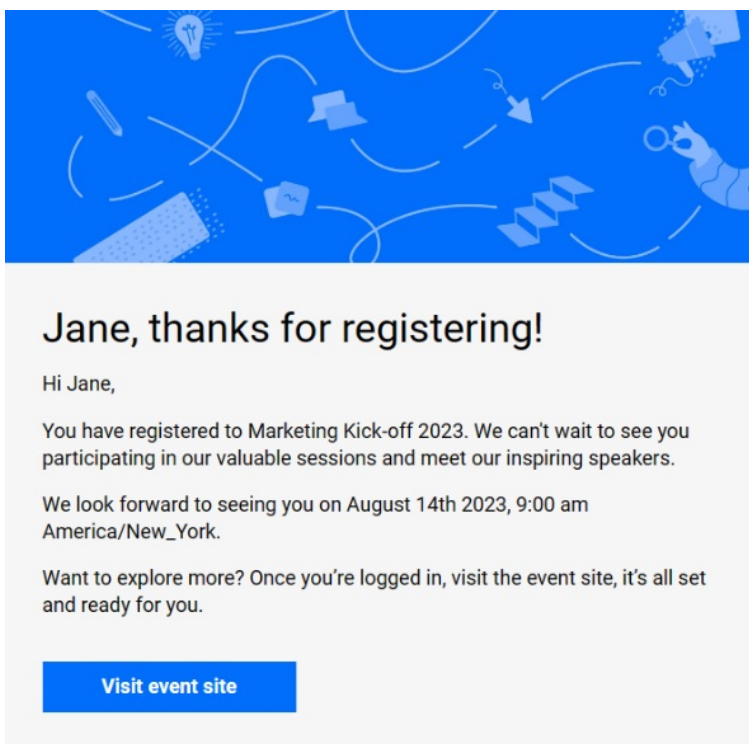

- CTA Button text - Type the text that will display on the Call to Action (CTA) button in the email.
- Footer - Type the text that will display on the email footer.

- Once you are finished editing the Registration complete email, click **Save** to save and remain on the page or **Save and Close** to save and exit the page. A notification that the email template was updated successfully is displayed.

Note that you cannot edit the Template name or the Template description. These fields have been set in advance by Kaltura. You also may not disable this email from being sent automatically, nor may you disable the CTA button.

Following is an example of a "Registration complete" email.
