Admin Embed - Admin Guide

Last Modified on 08/07/2026 5:09 pm IDT

This article is designated for administrators.

About

The Admin Embed module is for entry embed functionality. Enabling this module allows users to generate Rich Media CMS-like embed codes. Embed code generation for Interactive Video entries is supported. Once enabled and configured, a new embed capability is added to the entry page that allows users to embed media using multiple embed options. Also included is preview short-link and QR code generation.

The sections herein will guide you through enabling and configuring the Admin Embed module.

This module is for both Content Hubs and legacy Video Portal users.

For technical support, contact Kaltura Customer Care. For all other inquiries, reach out to your Customer Success Manager.

Prerequisite

- Partner setting "Default Entitlement Enforcement" is disabled.

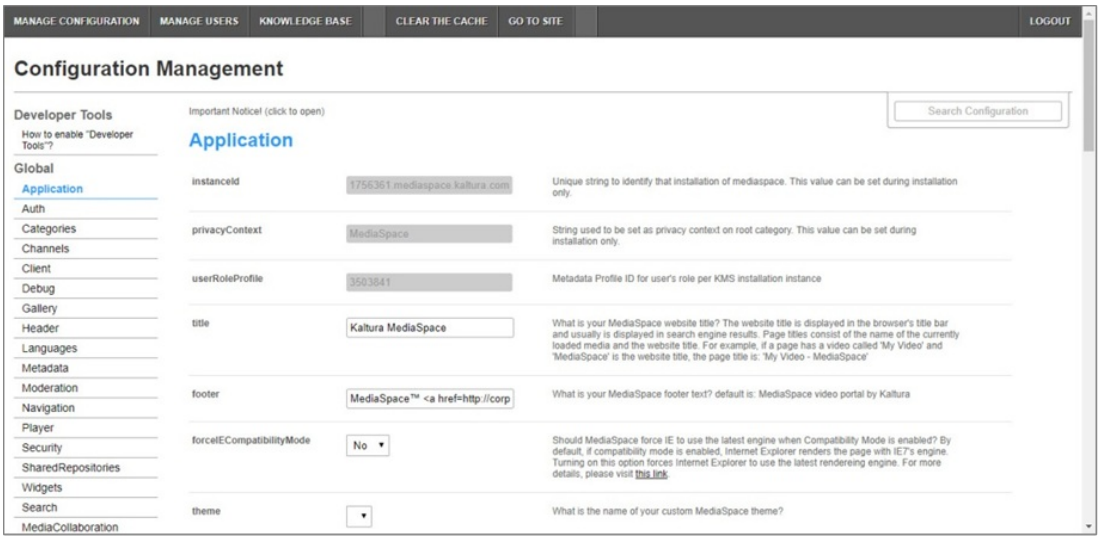

Limitations

- Player size changes are not shown in the preview.
- Not all access control profiles allow embed.

Configure

1. Access your Configuration Management console.
