This article is designated for all users.

About

Administrators can give users the ability to generate Rich Media CMS-like embed codes. Embed code generation for Interactive Video entries is supported. Once enabled and configured, a new embed capability is added to the entry page that allows users to embed media using multiple embed options. Also included is preview short-link and qr code generation. The following sections outline user capabilities.

This module is for both Content Hubs and legacy Video Portal users.

For technical support, contact Kaltura Customer Care. For all other inquiries, reach out to your Customer Success Manager.

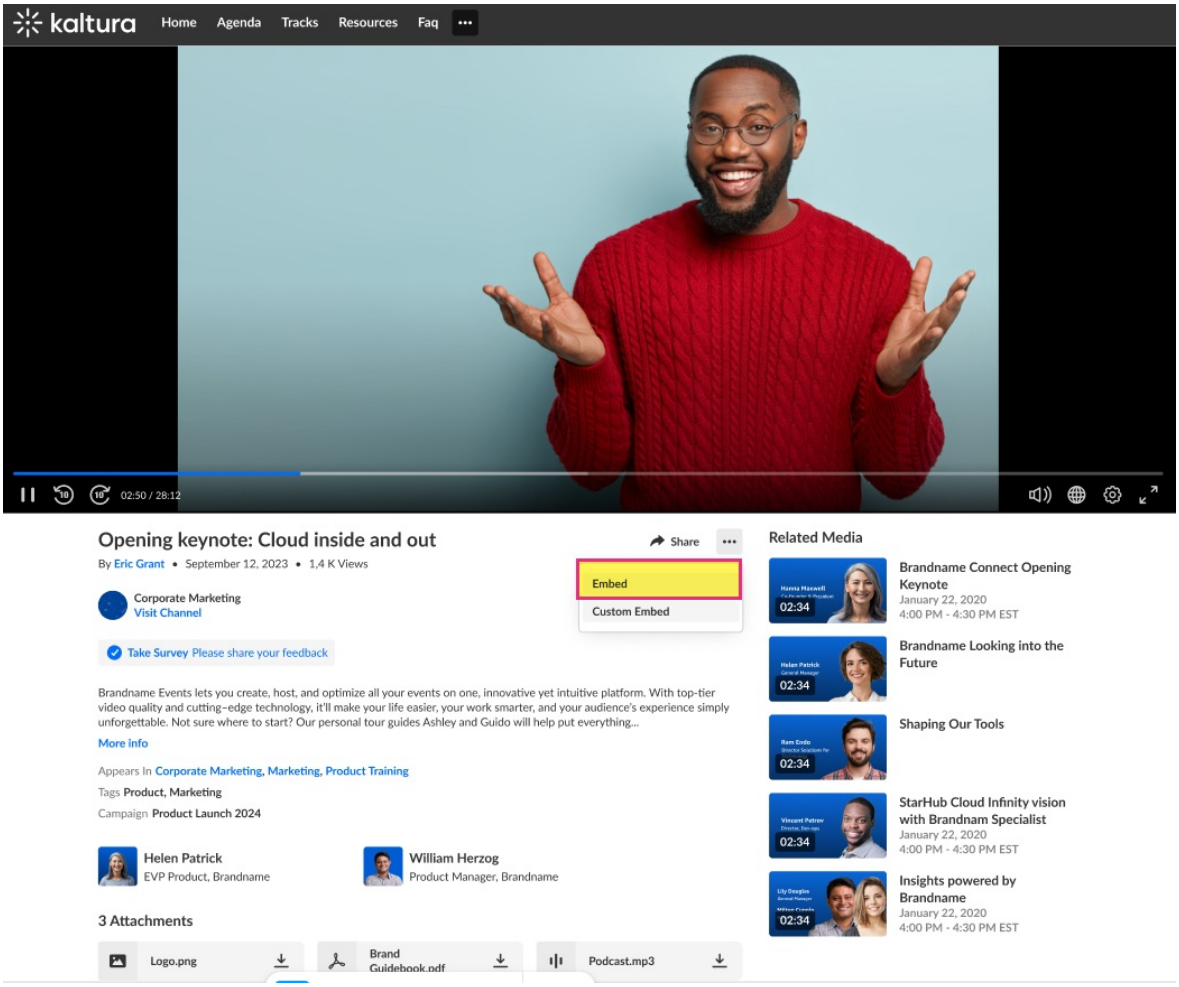

Admin Embed

If your admin has enabled and configured the Admin Embed module, embed capability is displayed for Content Hubs users as part of the Actions menu on the Entry page, and for legacy Video Portal users as an additional tab - Embed - added to the Entry page.

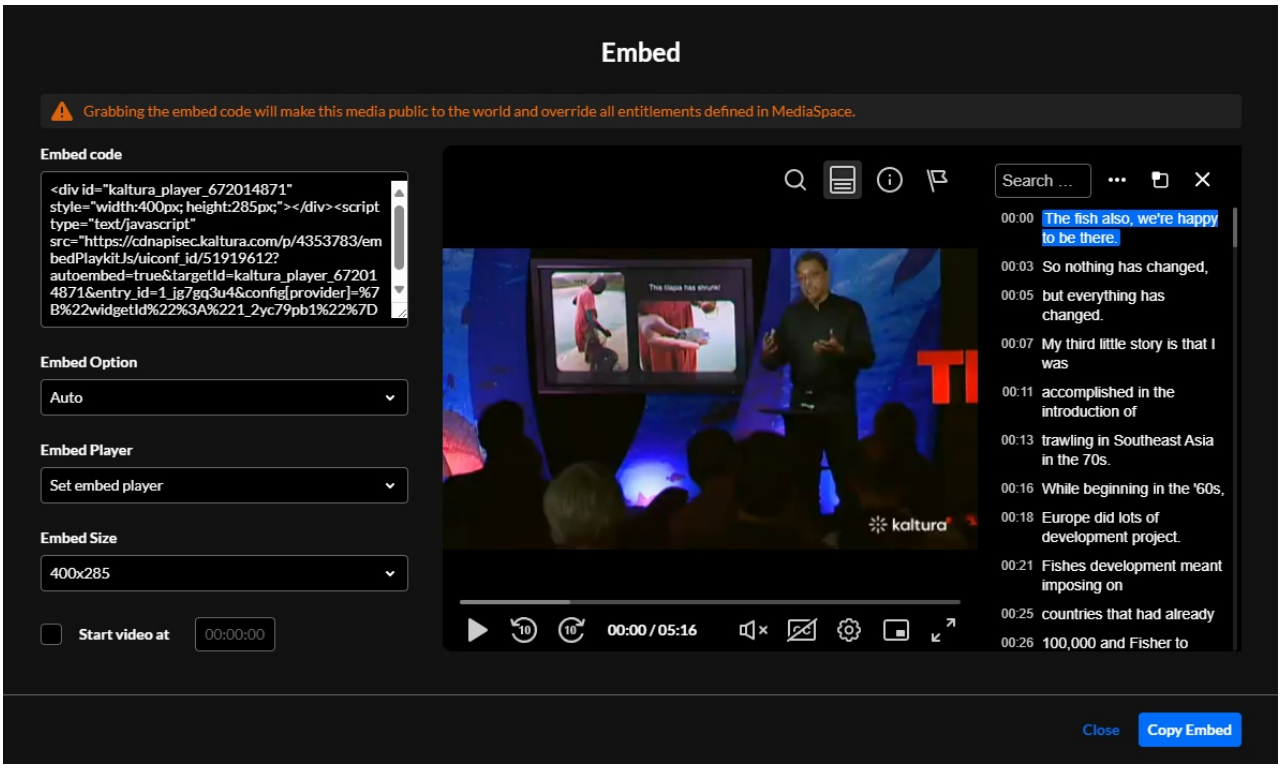

Content Hubs users:

From the Actions menu, choose Embed.
