

Admin Embed - User Guide

Last Modified on 11/14/2024 11:01 pm IST

 This article is designated for all users.

About

Administrators can give users the ability to generate KMC-like embed codes. Embed code generation for Interactive Video entries is supported. Once enabled and configured, a new embed capability is added to the entry page that allows users to embed media using multiple embed options. Also included is preview short-link and qr code generation. The following sections outline user capabilities.

 This module is for both Theming and non-Theming users.

 For technical support, contact Kaltura Customer Care. For all other inquiries, reach out to your Customer Success Manager.

Admin Embed

If your admin has enabled and configured the Admin Embed module, embed capability is displayed for Theming users as part of the Actions menu on the Entry page, and for Non-Theming users as an additional tab - Embed - added to the Entry page.

Log into your video portal and navigate to a media's Entry page. If you need help logging in and accessing media, please follow the instructions in [Log into your video portal](#) and [My Media](#).

Theming users:

From the Actions menu, choose Embed.

Opening keynote: Cloud inside and out

Close Copy Embed

Embed Code - Embed code of the video that you can copy and paste into some other web page

Embed Option - Auto, Dynamic, or Iframe

Embed Player - Select the player to be used for the embed.

Embed Size - 608 X 402, 400 X 285, or 304 X 231

Start video at - To have a video start playing from a specific point, check the box next to 'Start video at' and enter the time according to the format give (00.00.00). For example, if you want a video to start at 1 minute and 30 seconds into the video, you would enter 00.01.30.

Copy Embed - A Kaltura embed removes access restriction from an entry unless secure embed is enabled (a mechanism that forces any user who attempts to load an embedded Kaltura entry to authenticate into the site). For information about secure embed, read our article [Enhanced Settings for Secure Embed](#).

Non-theming users:

Click on the Embed tab.

The screenshot shows the Kaltura user interface. At the top left is the Kaltura logo and navigation links: Home, All Channels, Styling Options, Contact us, and Kaltura Learning. On the top right, there are search and user management icons. The main content area features a video player with a thumbnail of a speaker, a title "Daniel Pauly - The Ocean's Shifting Baseline", and a timestamp of 00:35 / 05:16. Below the video player, there are tabs for "Details" and "Embed" (which is highlighted), and a search icon. A list of tags is visible at the bottom: animals, past, fish, marine, things, lots, 70s, avatar, bay, simulation, and baseline. To the right of the video player, there is a "Related Media" section with "No Entries" listed below it.
