

Admin Embed - User Guide

Last Modified on 05/06/2026 8:40 pm IDT

 This article is designated for all users.

About

Administrators can give users the ability to generate Rich Media CMS-like embed codes. Embed code generation for Interactive Video entries is supported. Once enabled and configured, a new embed capability is added to the entry page that allows users to embed media using multiple embed options. Also included is preview short-link and qr code generation. The following sections outline user capabilities.

This module is for both Theming and non-Theming users.

For technical support, contact Kaltura Customer Care. For all other inquiries, reach out to your Customer Success Manager.

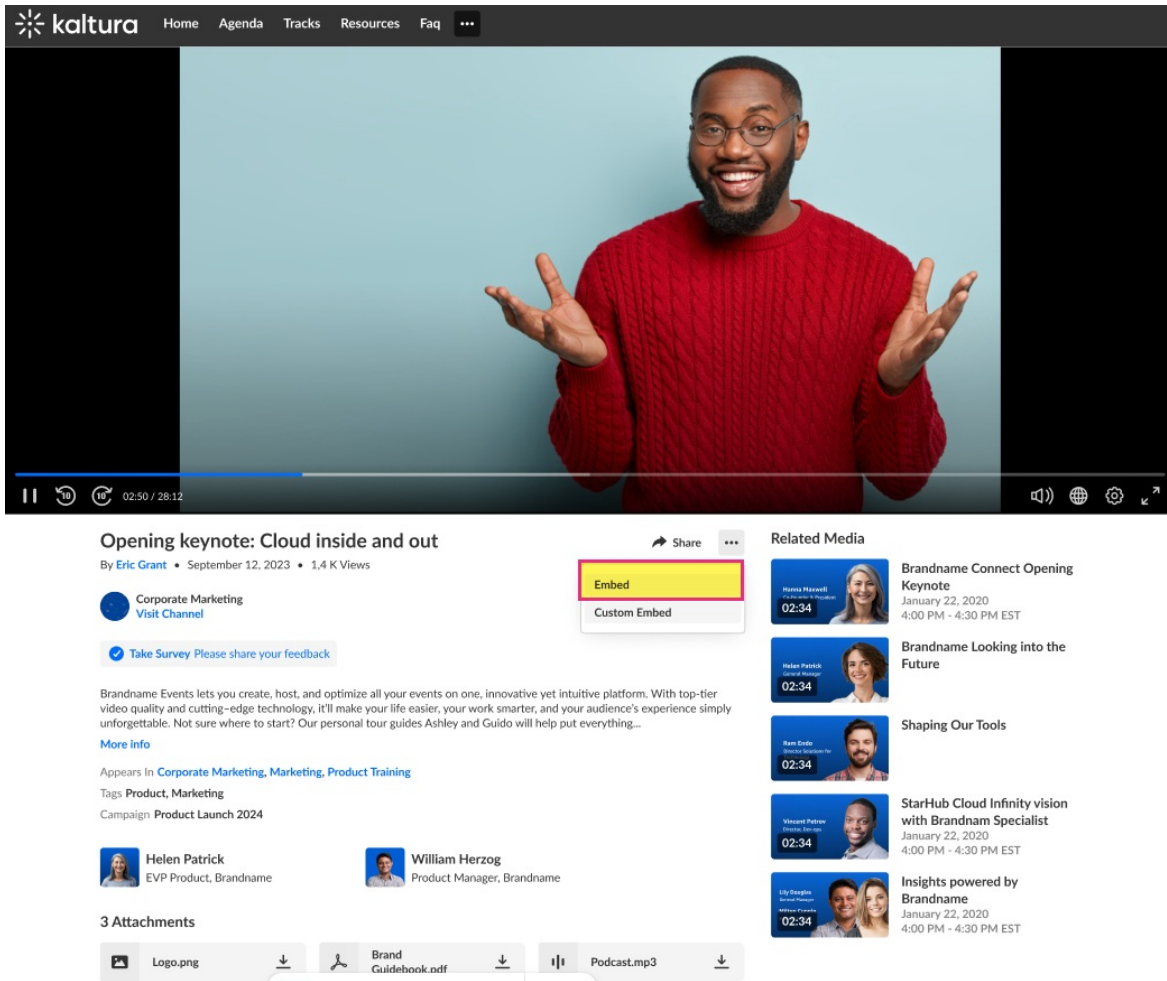

Admin Embed

If your admin has enabled and configured the Admin Embed module, embed capability is displayed for Theming users as part of the Actions menu on the Entry page, and for Non-Theming users as an additional tab - Embed - added to the Entry page.

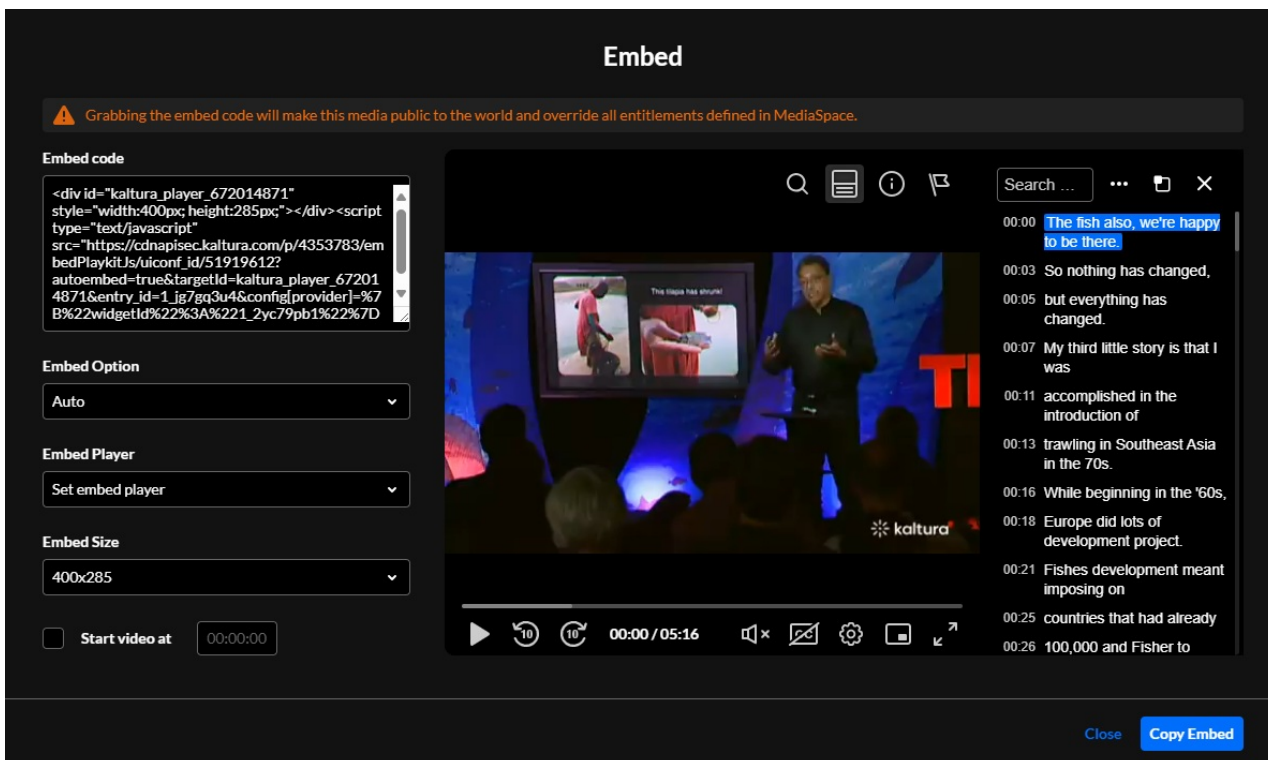

Log into your video portal and navigate to a media's Entry page. If you need help logging in and accessing media, please follow the instructions in [Log into your video portal](#) and [My Media](#).

Theming users:

From the Actions menu, choose Embed.

The Embed window displays.

Embed Code - Embed code of the video that you can copy and paste into some other web page

Embed Option - Auto, Dynamic, or Iframe

Embed Player - Select the player to be used for the embed.

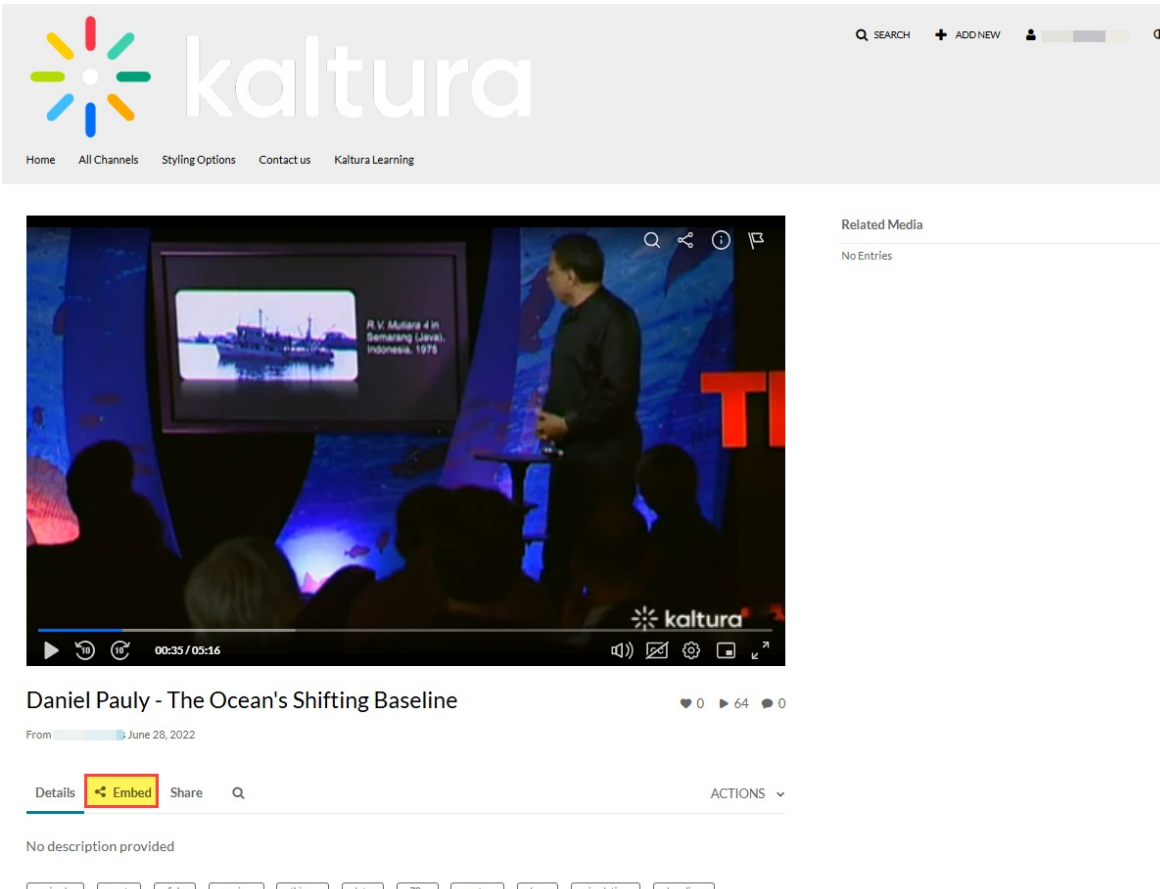

Embed Size - 608 X 402, 400 X 285, or 304 X 231

Start video at - To have a video start playing from a specific point, check the box next to 'Start video at' and enter the time according to the format give (00.00.00). For example, if you want a video to start at 1 minute and 30 seconds into the video, you would enter 00.01.30.

Copy Embed - A Kaltura embed removes access restriction from an entry unless secure embed is enabled (a mechanism that forces any user who attempts to load an embedded Kaltura entry to authenticate into the site). For information about secure embed, read our article [Enhanced Settings for Secure Embed](#).

Non-theming users:

Click on the Embed tab.

The screenshot shows the Kaltura user interface. At the top left is the Kaltura logo and navigation links: Home, All Channels, Styling Options, Contact us, and Kaltura Learning. On the top right, there are search, add new, user profile, and notification icons. The main content area features a video player for a presentation titled "Daniel Pauly - The Ocean's Shifting Baseline". The video player shows a speaker at a podium with a screen behind him displaying a ship and the text "R. V. Mullera 4 in Semarang (Java), Indonesia, 1978". Below the video player, the title "Daniel Pauly - The Ocean's Shifting Baseline" is displayed, along with a date of "June 28, 2022" and a view count of "64". A navigation bar below the title includes "Details", "Embed" (highlighted in a red box), "Share", and "ACTIONS". Below the navigation bar, it states "No description provided" and shows a series of tags: animals, past, fish, marine, things, lots, 70s, avatar, bay, simulation, baseline.

The Embed window displays.
