

Transcoding - User Guide

Last Modified on 01/02/2025 4:09 pm IST

 This article is designated for all users.

About

Administrators can enable a list of media flavors to be shown in the Edit Media and Media pages and give users the ability to delete, reconvert, and download those flavors themselves.

The following sections outline user capabilities.

 This module is for both Theming and non-Theming users.

 For technical support, contact Kaltura Customer Care. For all other inquiries, reach out to your Customer Success Manager.

Transcoding

If your admin has enabled and configured the Transcoding module, Transcoding functionality is displayed on the **Media Entry page** as follows:

For *Theming users*, as part of the Actions menu.

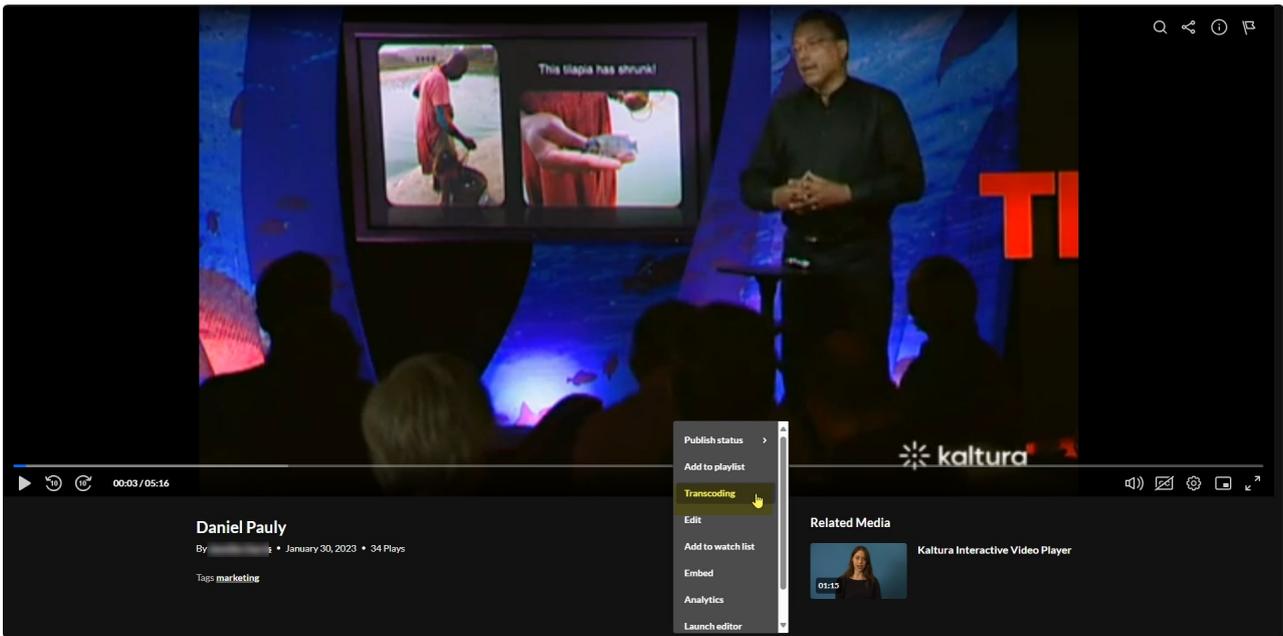

For *non-Theming users*, as an additional tab - Transcoding.

Transcoding functionality is displayed on the **Edit Media page** for *both Theming and non-Theming users* as an additional tab - Transcoding.

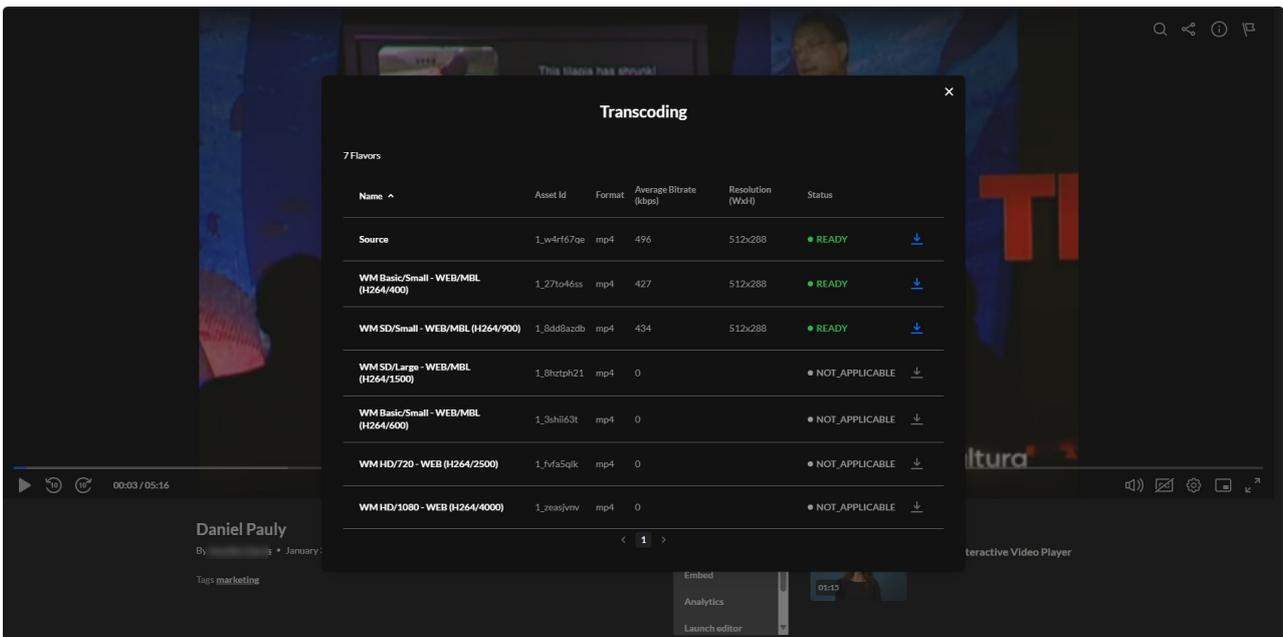

Log into your video portal and navigate to either a Media Entry page or an Edit Media page. If you need help logging in and accessing media, please follow the instructions in [Log into your video portal](#) and [My Media](#).

Media Entry page - Theming users:

From the Actions menu, choose Transcoding.

The Transcoding window displays.

Click the Download button in the column of the desired flavor. You receive confirmation that your download has successfully completed.

Media Entry page - Non-Theming users:

Click the Transcoding tab. The Transcoding window displays.
