About

Kaltura's **captions editor** allows you to review and edit captions for your videos, whether they're generated by Reach or uploaded manually. With an intuitive interface, you can easily adjust caption text, timing, and speaker names, and if you have enabled Kaltura's [transcript widget](#), any changes you make are reflected in the transcript.

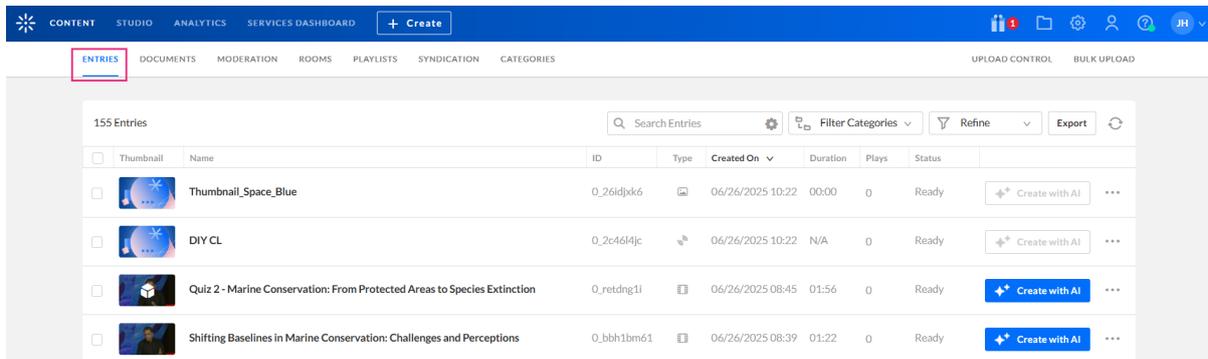

The editor also includes features like auto-scroll, timestamp adjustment, and search and replace, giving you full control to fine-tune captions and enhance the viewing experience for your audience.

This tool is particularly useful for improving the accuracy of machine-generated captions (ASR).

Access the editor

1. Log into your Rich Media CMS.

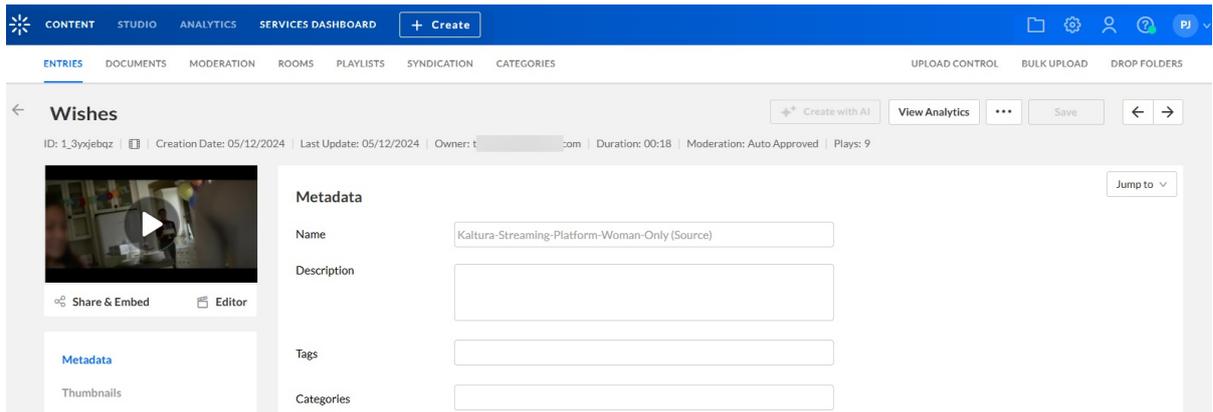

The **Entries** page displays by default.

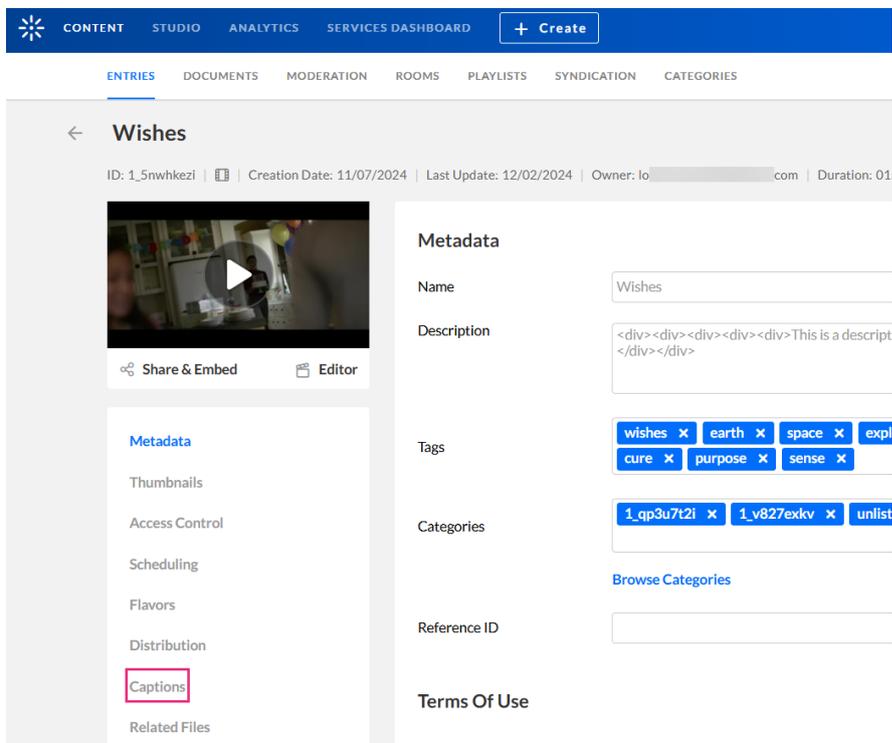

2. Click on the desired video's thumbnail.

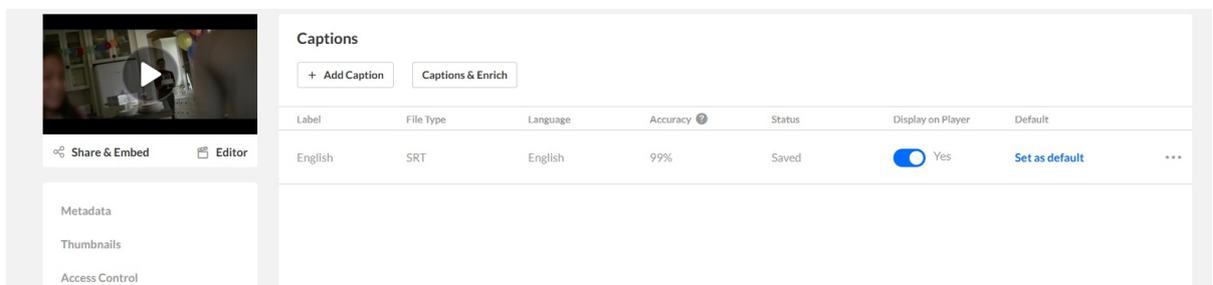

The entry details page displays.

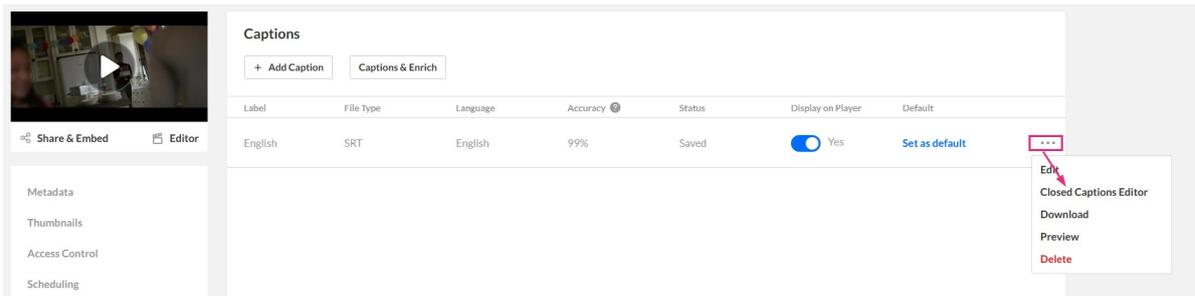

3. Click the **Captions** tab.

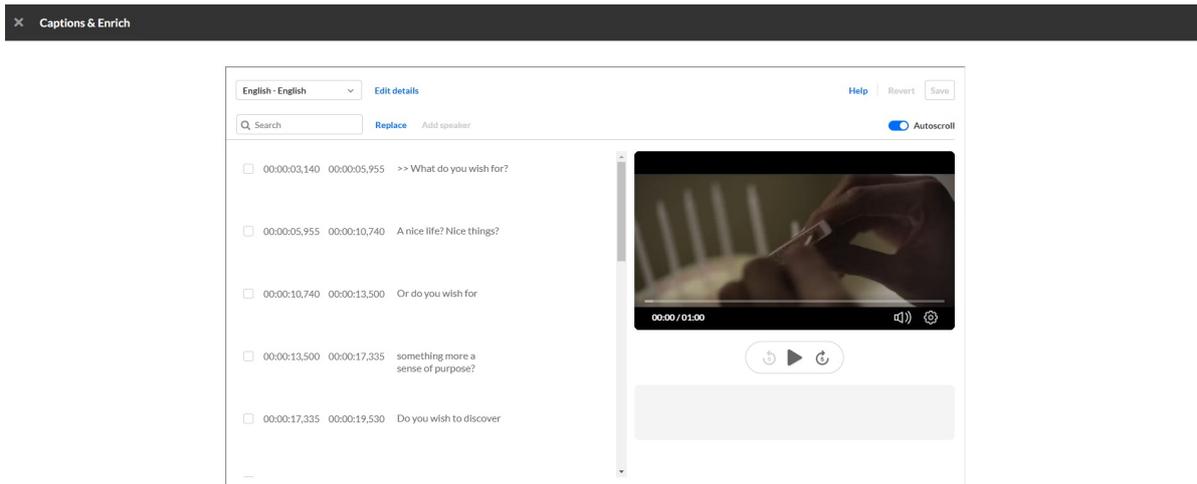

The Captions page displays.

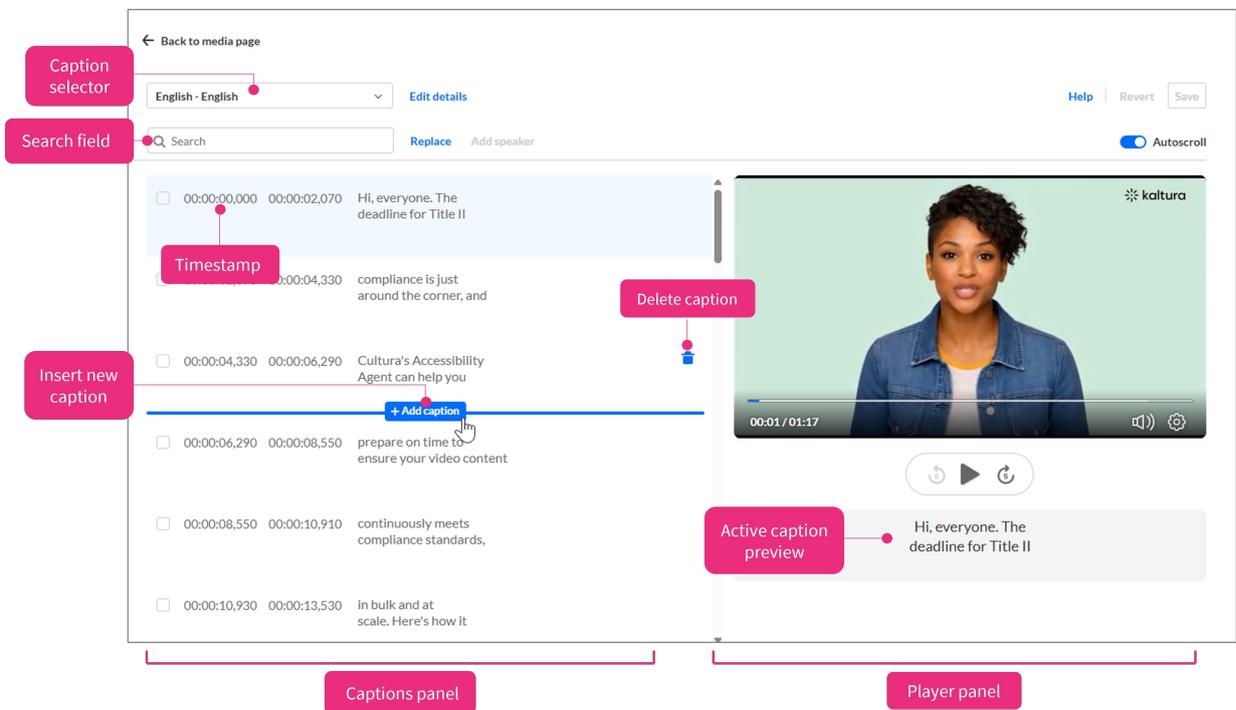

4. Click the **three-dot menu** at the far right and select **Closed Captions Editor**.

The closed captions editor opens.

Editor layout

The editor includes two main areas:

- **Captions panel** – Displays caption lines and editing tools

- **Player panel** – Displays the video for real-time preview

When you select a caption line, the player jumps to the relevant point in the video. The selected caption is also displayed below the player, allowing you to preview it in context while editing.

Kaltura supports [dual screen](#) inside the captions editor.

Captions panel

The captions panel includes:

- **Captions dropdown** – Select a different caption file if multiple files exist
- **Edit details** – Update caption language, accuracy, and label
- **Search** – Enter a term and press Enter to highlight matches
- **Replace** – Find and replace text across captions
- **Add speaker** – Add speaker names to selected rows
- **Autoscroll** – Automatically scroll captions during playback
- **Delete caption** – Delete a caption line (available on hover)
- **Add caption** – Add a new caption line (available on hover)
- **Timestamp** – Edit start and end times

The editor uses SMPTE time format (**hh:mm:ss,mmm**) for precise timing.

- **Caption text** – Edit the caption content

Player panel

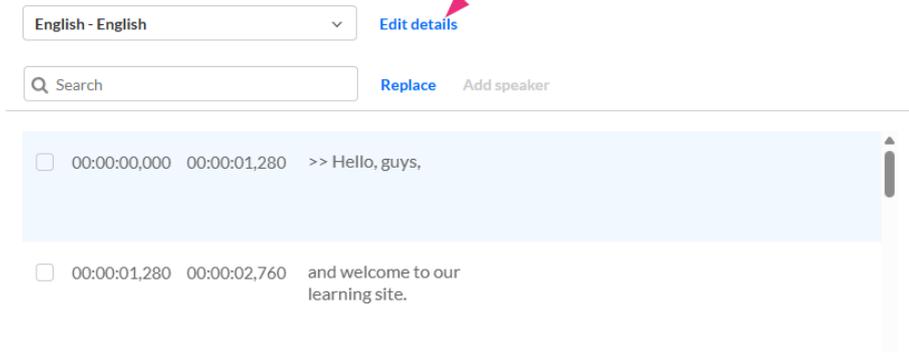

The player panel lets you preview captions alongside the video.

- Playback controls help you align captions with audio and visuals
- Selecting a caption line moves the player to the correct timestamp
- The active caption is displayed below the player for easy reference during editing

Edit caption details

- a. Click **Edit details**.

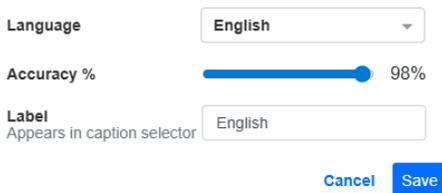

Closed Captions Editor

The 'Edit caption details' window opens.

b. Update the caption's language, accuracy, and label.

Edit caption details

The 'Edit caption details' dialog box has three sections: 'Language' with a dropdown menu set to 'English', 'Accuracy %' with a blue progress bar and a '98%' label, and 'Label' with a text input field containing 'English' and the subtext 'Appears in caption selector'. At the bottom right, there are 'Cancel' and 'Save' buttons.

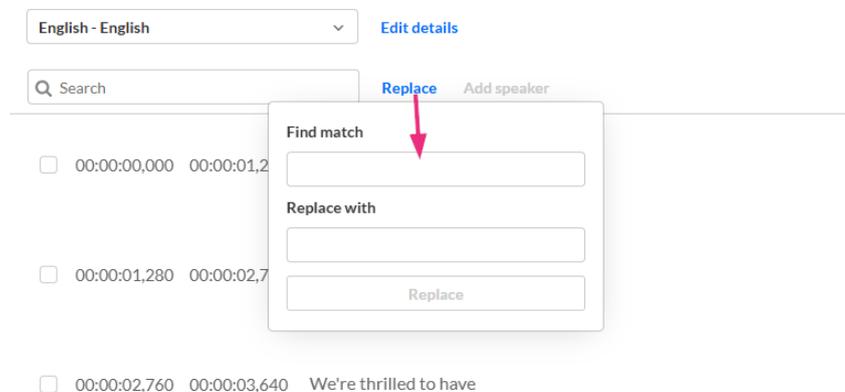

c. Click **Save**.

Changes are applied immediately.

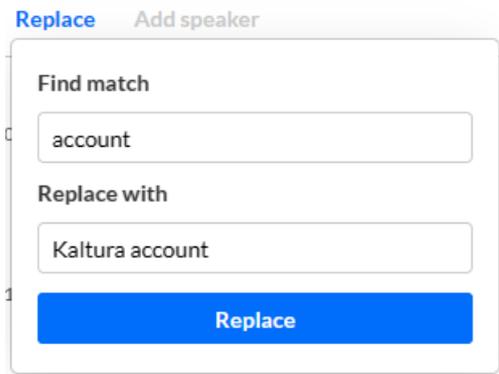

Find and replace text

a. Click **Replace**.

Closed Captions Editor

- b. Enter the search term in the **Find match** field.
- c. Enter the replacement term in the **Replace with** field.

Replace Add speaker

Find match
