Attachments report for events

Last Modified on 06/29/2026 10:55 am IDT

This article is designated for all users.

About

The Attachments report provides information about attachment downloads during an event for a selected time period. It identifies which participants downloaded attachments, along with the associated session and attachment details.

See Analytics tab - Reports for instructions on generating and downloading this report.

Report contents

The Attachments report includes the following fields:

- **User ID** - A unique ID of the user who downloaded the attachment.
- **Email** - The email of the user who downloaded the attachment.
- **Entry ID** - A unique ID of the entry that was downloaded.
- **Name** - The name of the entry that was downloaded.
- **Attachment ID** - The ID given to the attachment.
- **Attachment title** - The title of the attachment that was downloaded.
- **Attachment downloads** - Number of times the user downloaded the attachment.
