

Attachments report

Last Modified on 11/25/2024 3:31 pm IST

 This article is designated for all users.

The Attachments report provides attachment-related data (who downloaded attachments, their email addresses, entry IDs, names of attachments, etc.) for an event during a specific timeframe.

 See [Analytics tab - Reports](#) for instructions on generating and downloading this report.

Data in the Attachments report includes the following:

User ID - A unique ID of the user who downloaded the attachment.

Email - The email of the user who downloaded the attachment.

Entry ID - A unique ID of the entry that was downloaded.

Name - The name of the entry that was downloaded.

Attachment ID - The ID given to the attachment.

Attachment title - The title of the attachment that was downloaded.

Attachment downloads - Number of times the user downloaded the attachment.
