Regional Cloud Release 24Q4 - v24.3.1 includes the product versions below.

KMS Version 5.132.x August 12, 2024

What's New?

- **Accessibility** - First batch of Core a11y fixes for Theming-based elements and pages have been released.
- **New filter - External applications** - Once enabled,Content owners using the new theming my-media (DS) can now filter by external applications in My-media, allowing them to see how their content is used in other applications. If you haven't used this feature yet, you can enable it from the categories module (KMS-29374). This is particularly useful when you have multiple instances, such as a KMS Video Portal and a KAF integration in an LMS, enabling the customer to see where each media is used within all apps.
- **Moodle 4.4 release** - A new Moodle plugin version to support Moodle 4.4 has been released. As a part of this version, we fixed several known bugs. The plugin supports Moodle versions 4.1(LTS), 4.2, 4.3, and 4.4. (ILMS-637)
- **Load more in Channel playlists** - In Theming-based channels, a 'Load More Playlists' button will appear when there are many playlists. This feature helps to speed up the channel's loading time. (KMS-29048)

- **REACH Task ID** - We have added the task ID in the request details for our users' convenience. (REACH2-1233)

What's new?

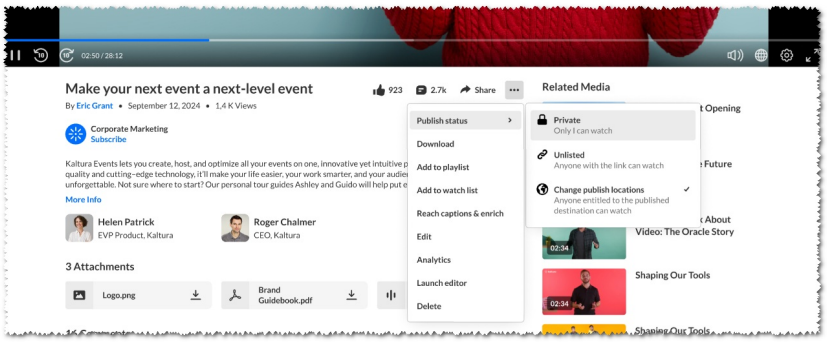

- **Theming-based My Media** and **Publish** - The **My Media** page is the latest to join the long list of Theming-based pages. In addition to the slick new UI, the page contains new vertical filters (the same as used in the Global search page), a new Explore section, and new bulk capabilities, allowing owners to change ownership and collaborators in one bulk action. See our article My Media - Theming for more information.

  Additionally, the new My Media page also features an updated UI for **Publishing** capabilities. Now available on both **My Media** and the single media pages, the UI provides a quicker way to change and view publishing statuses.
  You can turn on the new feature from the **Theming module.** See Publish media - Theming for more information.
