

## Assign topics to channels

Last Modified on 11/29/2024 6:05 pm IST

 This article is designated for all users.

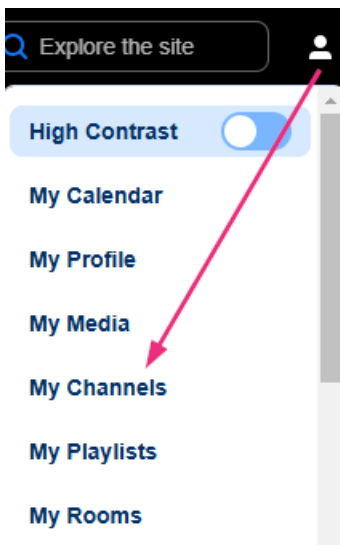

### About

Assigning topics to channels helps organize your content and makes it easier for users to find what they need. Topics act like tags, grouping similar channels together so users can quickly filter and discover relevant content.

For example, if you assign the topic "Tutorials" to a channel, it will appear in search results when users filter channels by that topic. Depending on your system settings, you can assign one or multiple topics to a channel.

### Assign a topic to a channel

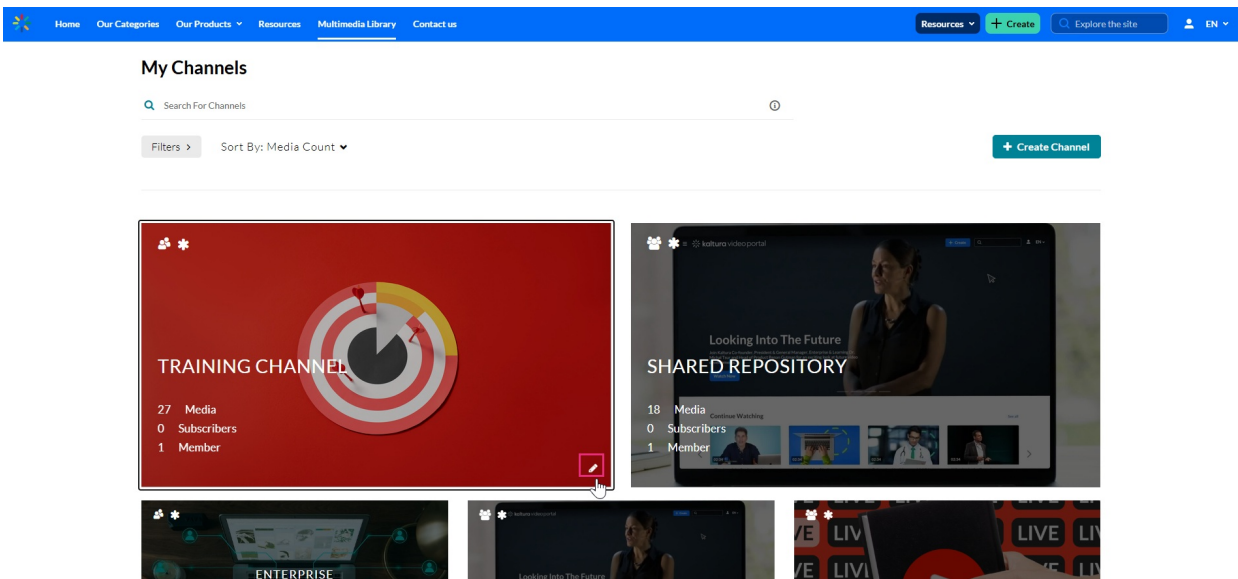

Navigate to the desired channel's edit page. You can do this by selecting **My Channels** from the user menu.

The My Channels page displays.

Locate the desired channel, hover over the bottom right corner of the channel thumbnail, and click the **pencil icon**.

The channel edit page displays.

**Edit Enterprise solutions**

Details Theme Playlists Users Channel Viewing Summary Collections Advanced Settings Chat

Name (Required): Enterprise solutions

Description:
 **Black** **Bold** *Italic* Underline

Welcome to the Enterprise Solutions channel, your go-to resource for cutting-edge strategies and tools to drive business success. In this example, we are assigning the topic 'Tutorials' to the channel.

About us:
 

- Tutorials
- No Topic
- About
- Commitments
- Offerings
- Products
- Tutorials**
- Stories

Once you've added the topic, ensure you save your updates.

## User experience

When users filter channels by a specific topic, all channels with that topic assigned will appear in the search results.
