Share media in Content Hubs

Content updated: 12/02/2024

This article is designated for all users.

About

Sharing lets you send media from your Content Hubs site to other people, for example as a link, by email, or on social networks. You can also give specific people access to media with an invite link or a guest link.

- You need permission to share media.
- This feature requires the Theming module to be enabled, with the 'mediapage' feature set to 'Yes'.
- The share options available depend on how your administrator configured the Share module.

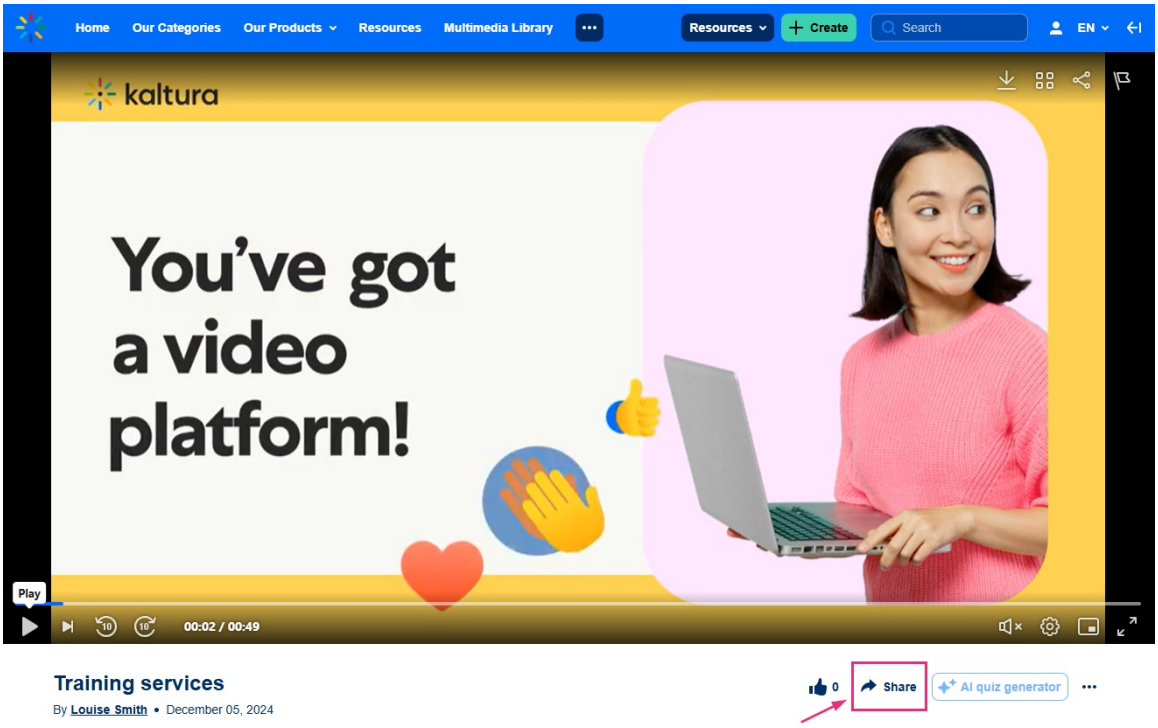

To place media on another website or page, see Embed media in Content Hubs. For information about sharing playlists, see Share and embed playlists.

Share from the media page

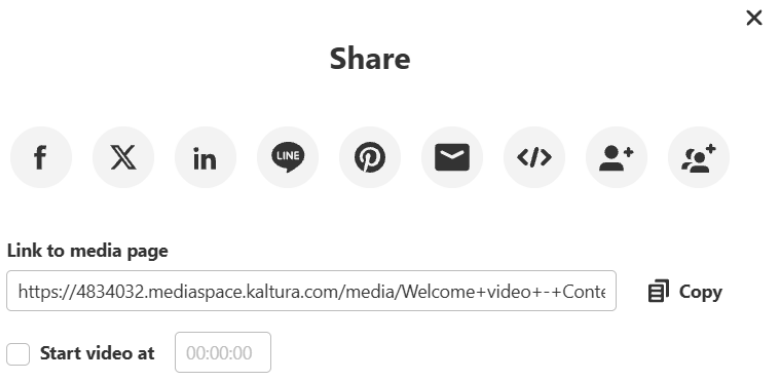

1. Go to the media page of the media you want to share.
2. Click **Share** under the player.

   If you don't see this option, contact your administrator.

The **Share** window opens.

3. Select a share method.

Direct link

1. Click **Copy** next to the link.
   The message *Link copied to clipboard* appears at the top of the screen.
2. Paste the link where you want to share it.

Social networks

Click the icon for the platform you want to share on. The platforms available depend on your administrator's configuration.

Email

1. Click the **email** icon.
   An email page opens.
2. Enter the recipient in the **To** box, and click **Send**.

Invite users

Click the **invite** icon to invite specific people to access the media. The role you can give them depends on the media type. For instructions, see Invite people to access media in Content Hubs.

Invite links require the Invitetomedia module to be enabled.

Guest access

Click the **guest access** icon to create a link that guests without a Kaltura account can use to access the media. For instructions, see Share a guest link to specific media in Content Hubs.

Guest links require the Invitetomedia module to be enabled.

Embed code

Click the **embed** icon to get an embed code for another website or page. For instructions, see Embed media in Content Hubs.

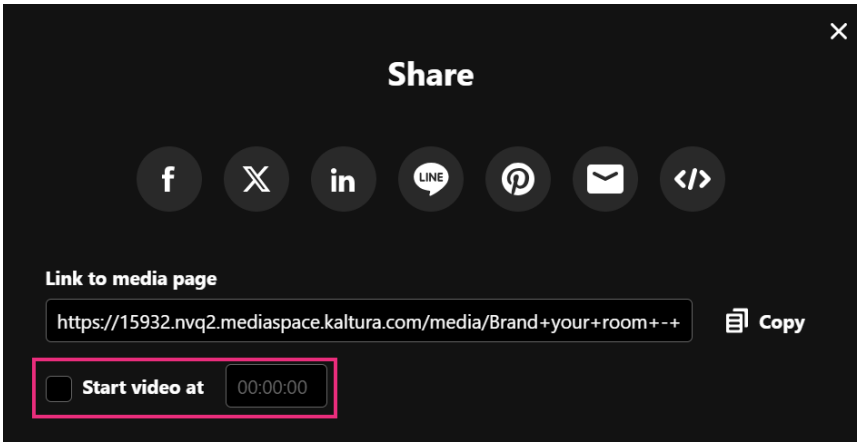

oEmbed link

Click the **oEmbed** icon (the link icon) to get a link that sites that support oEmbed turn into an embedded player. For instructions, see Embed media in Content Hubs.

Start the video at a specific time

To start the video at a specific point, select the **Start video at** checkbox, and enter the time in the format given (`00:00:00`). For example, to start the video at 1 minute and 30 seconds, enter `00:01:30` .
