

# Change your site's language in Video Portal

Last Modified on 04/24/2025 10:27 am IDT

 This article is designated for all users.

## About

In the Video Portal, each user can set their preferred language for menus, navigation, and other interface elements.

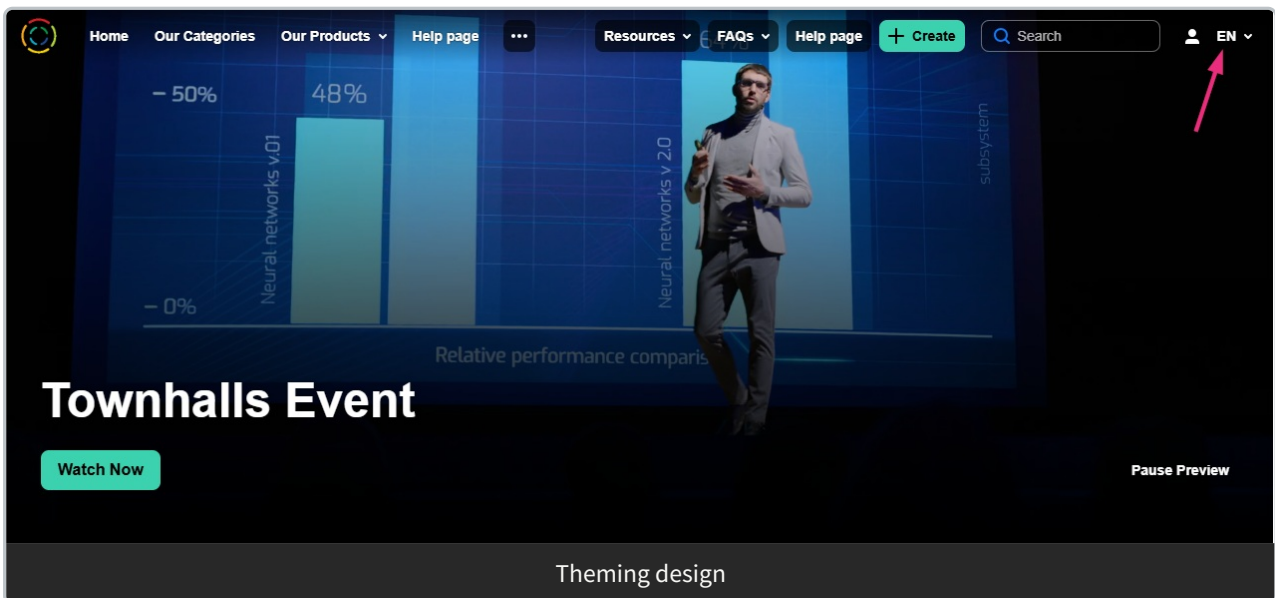

To see all available options, check out [Supported Languages in Video Portal](#).

## Change your site's language

Users can change the interface language at any time using the drop-down in the top-right corner. This preference is stored in a browser cookie and stays active until the cookie is cleared.

The interface may look slightly different depending on your portal's design:

- Theming design
- Non-Theming design

## Language selector in Theming design

## Language selector in non-Theming design

There are two types of display possible:

LOUISE SMITH 	LOUISE SMITH EN
 English	EN English
 Français	FR Français
 Español	ES Español
 日本語	JA 日本語
 Português	PT Português
 Italiano	IT Italiano
 Svenska	SV Svenska

Admins can add new languages or customize existing ones. See the [Languages module](#) article for additional information.
