

# Manage Rich Media CMS user roles and permissions

Last Modified on 05/06/2026 8:40 pm IDT

 This article is designated for administrators.

## About

**Roles** in Rich Media Content Management System (Rich Media CMS) define what functionalities users can access and perform. By creating custom roles or editing existing ones, administrators can tailor user permissions to align with specific responsibilities.

This article explains how to access the Roles page, create and manage roles, and configure permissions.

## Default roles available

- **Publisher/Administrator:** Full access to all Rich Media CMS options enabled for the account.
- **Manager:** Full access except the Administration tab (user and role management) and account/integration settings.
- **Content Uploader:** Can upload files and has view-only access to entries and categories
- **Content Moderator:** Can access the Moderation tab to approve or reject entries.
- **Player Designer:** Can access the Studio tab to manage player options, excluding advertisements.
- **EP\_ADMIN:** A system role automatically assigned to Kaltura Events administrators.

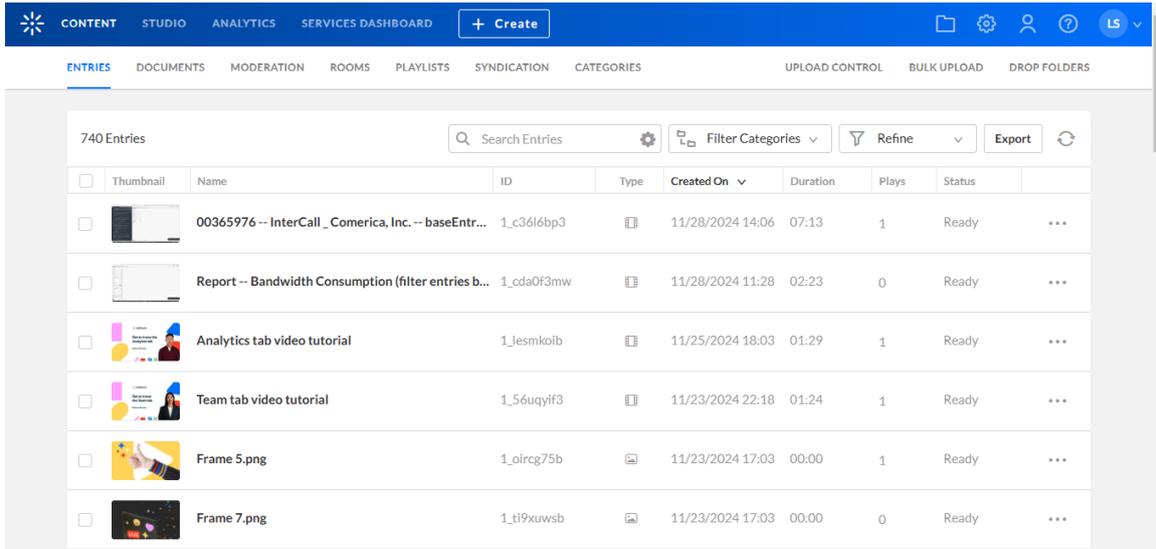

Users with the Publisher/Administrator role can access the Configuration Management console via direct links:

**Video portal** - [https://<partner\\_id>.mediaspace.kaltura.com/admin](https://<partner_id>.mediaspace.kaltura.com/admin)

**KAF** - [https://<partner\\_id>.kaf.kaltura.com/admin](https://<partner_id>.kaf.kaltura.com/admin)

## Access the Roles page

1. Log into your Rich Media CMS.

Feature Set	Permissions	
Content Ingestion	<input type="text" value="All Permissions"/>	<input checked="" type="checkbox"/>
Content Management	<input type="text" value="All Permissions"/>	<input checked="" type="checkbox"/>
Bulk Upload Log	<input type="text" value="All Permissions"/>	<input checked="" type="checkbox"/>
Content Moderation	<input type="text" value="All Permissions"/>	<input checked="" type="checkbox"/>
Playlist Management	<input type="text" value="All Permissions"/>	<input checked="" type="checkbox"/>
Studio Management	<input type="text" value="All Permissions"/>	<input type="checkbox"/>

2. Enter the **role name** and a **description** of the role's purpose or allowed actions.

3. Select the **permissions** for this role using the drop-down menus or by toggling permissions on/off. Refer to the table below for a full list of permissions.

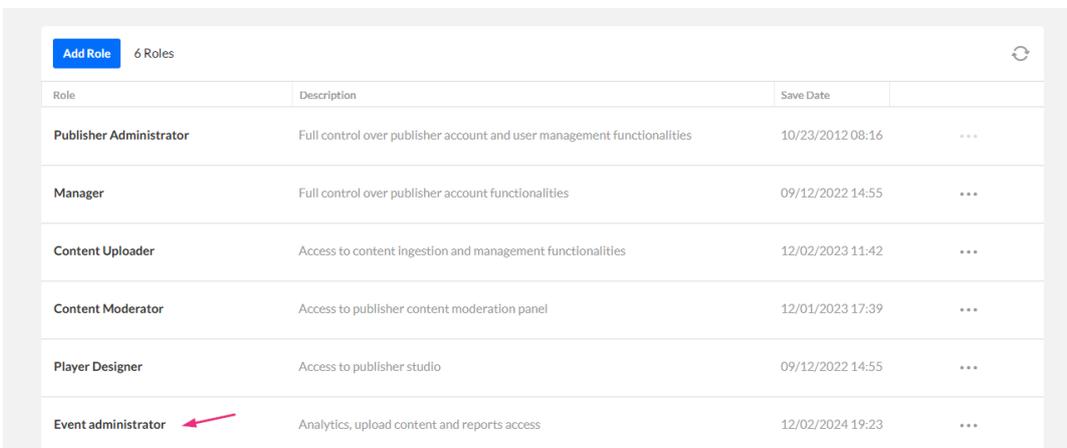

Permission levels:

- **All Permissions** - Grants access to all Rich Media CMS functionalities listed under the permission group.
- **Custom** - Allows partial access based on selected permissions.
- **View-Only** - No editing permissions.

4. Click **Add** at the top right.

The new role appears in the list.

Role	Description	Save Date	
<b>Publisher Administrator</b>	Full control over publisher account and user management functionalities	10/23/2012 08:16	...
<b>Manager</b>	Full control over publisher account functionalities	09/12/2022 14:55	...
<b>Content Uploader</b>	Access to content ingestion and management functionalities	12/02/2023 11:42	...

The 'Edit role' window opens.

**Edit Role** Cancel

Role Name \*

Description \*

[Contact us](#) to learn more about adding any disabled items below to your account.

Feature Set	Permissions	
Content Ingestion	<input type="text" value="All Permissions"/>	<input checked="" type="checkbox"/>
Content Management	<input type="text" value="All Permissions"/>	<input checked="" type="checkbox"/>
Bulk Upload Log	<input type="text" value="All Permissions"/>	<input checked="" type="checkbox"/>

## 2. Update the role name, description, or permissions.

- The **Publisher** role can't be edited.
- Changes to a user role only take effect after the associated Rich Media CMS user logs in. For smoother updates, we recommend editing roles when users assigned to them are not logged in.

To access the 'Manage Groups' page for specific roles such as **Content Uploader**, **Content Moderator**, **Player Designer**, or other Rich Media CMS roles, set the Administration feature to **View Only** (by toggling off the permissions). Failure to do so may result in an error when trying to open the 'Manage Groups' page.

Custom Metadata Settings	All Permissions	<input checked="" type="checkbox"/>
Application Token	All Permissions	<input checked="" type="checkbox"/>
Administration	View Only	<input type="checkbox"/>
KMC Access		<input checked="" type="checkbox"/>

3. When you've finished editing, click **Save** at the top right.

## Duplicate a role

1. Next to the desired role, click the **three dots** and select **Duplicate**.

Event Administrator	Analytics, upload content and reports access	12/02/2024 19:37	⋮
			<ul style="list-style-type: none"> <li>Edit</li> <li>Duplicate</li> <li>Delete</li> </ul>

2. The **Edit role** window displays where you can edit the name, description and permissions of the role.

**Edit Role** Cancel

Role Name \*

Description \*

Feature Set	Permissions
Content Ingestion	All Permissions <input checked="" type="checkbox"/>

The duplicated role inherits all permissions from the original.

## Delete a role

Deleting a role is permanent and cannot be undone. If users are assigned to the role, assign them a different role before deleting it.

1. Next to the desired role, click the **three dots** and select **Delete**.

Copy of Event Administrator	Analytics, upload content and reports access	12/02/2024 19:42	⋮
			<ul style="list-style-type: none"> <li>Edit</li> <li>Duplicate</li> <li>Delete</li> </ul>

A confirmation message displays: *Are you sure you want to delete the selected role?*

2. Click **Yes** to continue.
