

Upload and manage captions in Blackboard Ultra

Last Modified on 12/18/2024 12:26 pm IST

 This article is designated for faculty members.

About

In KAF, you can upload caption files for any media you own or have editing privileges for. Supported file types include SRT, DFXP, and VTT. You can also add multiple caption files to an entry, such as subtitles in different languages, and label each one accordingly.

For media without captions, check out our article [Order captions](#) to learn how to generate them.

Access the captions tab

1. Access the [edit media page](#) for the desired media.

Upload captions file

Language	Label	File type	Accuracy	Actions
English (American)	English	SRT	100%	    Set as default

To upload another file, click **Upload captions file** again and repeat the steps above.

Set a default captions file

 If users upload their own caption files while others use REACH captioning, REACH captions are usually set as the default. Users who upload their own captions simply need to select the "Set as default" option after uploading.

To the far right of the desired caption file, click Set as default in the **Actions** column.

Upload captions file

Language	Label	File type	Accuracy	Actions
English (American)	English	SRT	100%	    Set as default

Once set as the default, a small 'Default' label appears in the **Language** column.

Upload captions file

Language	Label	File type	Accuracy	Actions
English (American) Default	English	SRT	100%	   

Delete a captions file

1. To the far right of the desired caption file, click the **X** in the **Actions** column.

Edit Captions Upload captions file Create New Captions

Language	Label	File type	Accuracy	Actions
Basque	English captions	SRT	100%	    

A confirmation message displays: *Are you sure you want to delete this caption file?*

Delete Confirmation

Are you sure you want to delete this caption file?

Cancel **Delete**

2. Click **Delete** to remove the caption file.

Download a captions file

To the far right of the desired caption file, click the **download icon** in the **Actions** column.

Upload captions file

Language	Label	File type	Accuracy	Actions
English (American) <small>Default</small>	English	SRT	100%	   

The caption file downloads.

 Kaltura captions only outputs SRT or DFXP format, not VTT. However, if you manually upload a VTT, then that becomes downloadable for others.

Edit a captions file

1. To the far right of the desired caption file, click the **pencil icon** in the **Actions** column.

Upload captions file

Language	Label	File type	Accuracy	Actions
English (American) <small>Default</small>	English	SRT	100%	   

The Edit captions window displays.
