

# Manage a Media Gallery in Blackboard Ultra

Last Modified on 12/18/2024 12:43 pm IST

 This article is designated for faculty members.

## About

The Media Gallery serves as a centralized space where all course-related content is stored, organized, and shared. Whether you're managing video lectures, presentations, or other multimedia resources, the Media Gallery provides a convenient way to upload, categorize, and distribute content.

This article walks you through the process of managing your Media Gallery, from adding new content to organizing existing content and ensuring your audience has access to the right materials at the right time.

 If you can't do some of the actions described here, just reach out to your KAF administrator to get the right permissions.

## Access the Media Gallery

Access your course, then on the left menu bar, click on **Media Gallery**.

 The Media Gallery link is typically located on the course navigation panel, as seen in our example. However, depending on your account setup, you might access the Media Gallery differently. See your Kaltura Administrator for further information.

The Media Gallery displays with the **Home** tab open by default.

Your additional media will be presented once it is ready and approved. Refresh Now

Discover the skills and mindset to become an effective leader. In this course, you'll learn how to inspire others, communicate with confidence, and make a positive impact in your school and community. Let's start building the future leaders of tomorrow!

Tags:

- Options:
- Moderate content (media will not appear in media gallery until approved by the gallery manager)
  - Enable comments in Media Gallery
  - Keep comments private to Media Gallery.
  - Force media published only to this channel to always be played in the context of the channel
  - Enable Newrow Live Room
  - Display embedded media in this Media Gallery

Save

[Back to Media Gallery](#)

2. Enter or edit values for the following:

- **Description** - Enter a summary of the content to display on the Media Gallery page.
- **Tags** - Enter descriptive tags to use in searches.
- **Options** - Choose the Options settings for the Media Gallery:
  - **Moderate content** - Select this option if you want to approve media before

it gets published. (Media won't appear in the gallery until the gallery manager approves.)

- **Enable comments in Media Gallery** - If enabled, Comments are displayed when the media item is accessed through a channel. To manage comments made via the media page, see [Disable comments and close discussion](#).
- **Keep comments private to Media Gallery** - If checked, all comments added to media in Media Gallery will be private to the Media Gallery and will not appear elsewhere (except for the My Media page of the user who owns the media).
- **Force media published only to this channel (gallery) to always be played in the context of the channel (gallery)** - If media is in only one gallery on the site, it will automatically gain that gallery's context, even if accessed through a direct link or search. Example: If a user goes to a media entry URL such as "base\_URL/media/t/1\_abcdefghij", and that media is only in one gallery on the site, the URL will change to include the gallery context: "base\_URL/media/t/1\_abcdefghij/12345678".
- **Enable Newrow Live Room** - Select this option to enable [Kaltura Meetings](#).
- **Display embedded media in this Media Gallery** - Select this option to display embedded media in this gallery.

 The 'Display embedded media in this Media Gallery' option can be changed/disabled in the [Hosted module](#) in the 'showInContextInCourseGallery' field.

3. Click **Save**.
