

Create a Kaltura video assignment in Blackboard

Last Modified on 08/14/2025 3:53 pm IDT

 This article is designated for faculty members.

About

Kaltura media assignments ensure the integrity of student submissions by preventing edits or deletions after submission. When a student submits a video, Kaltura clones it under a new username (OriginalUserName_assignment), ensuring the original remains unchanged. This prevents students from modifying or replacing their submission after the deadline.

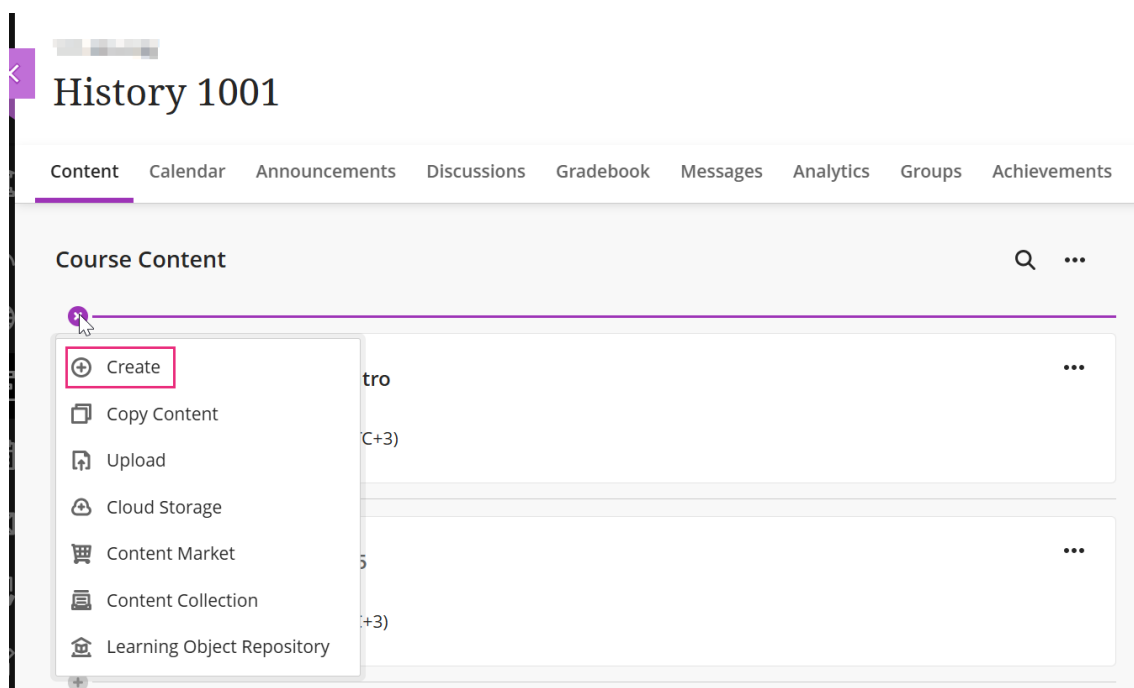

The submitted video will not appear in **My Media**.

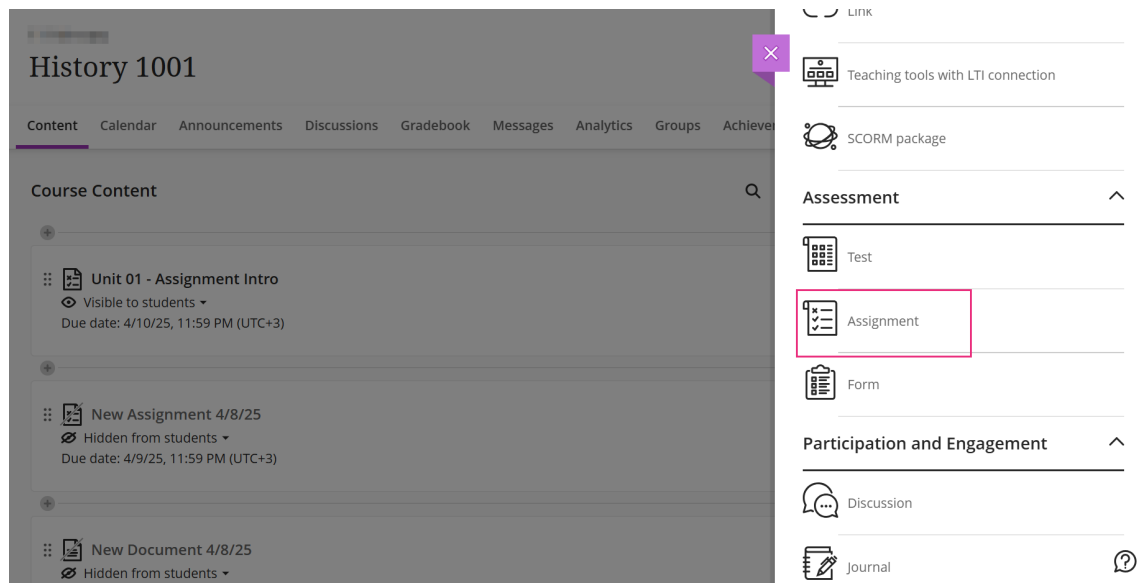

For instructions on setting up this feature, please see our article [Kaltura LMS integration for Blackboard - Deployment guide LTI 1.3](#).

Create a media assignment

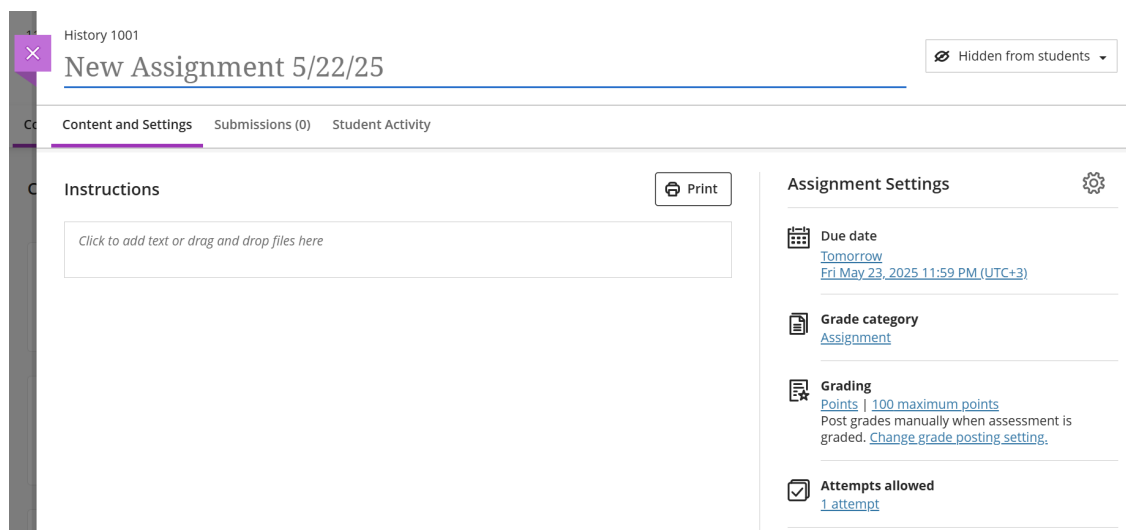

1. Access a course page.
2. On your course page, click the + icon and select **Create**.

3. In the panel that opens on the right, select **Assignment**.

The new assignment page opens.

4. Type in the assignment name and then type the assignment instructions into the text box.
5. Click the + button and select **Content Market** from the drop-down menu.

Music Appreciation Assignment: Reflecting on a M

Content and Settings Submissions (0) Student Activity

Instructions

Insert content 

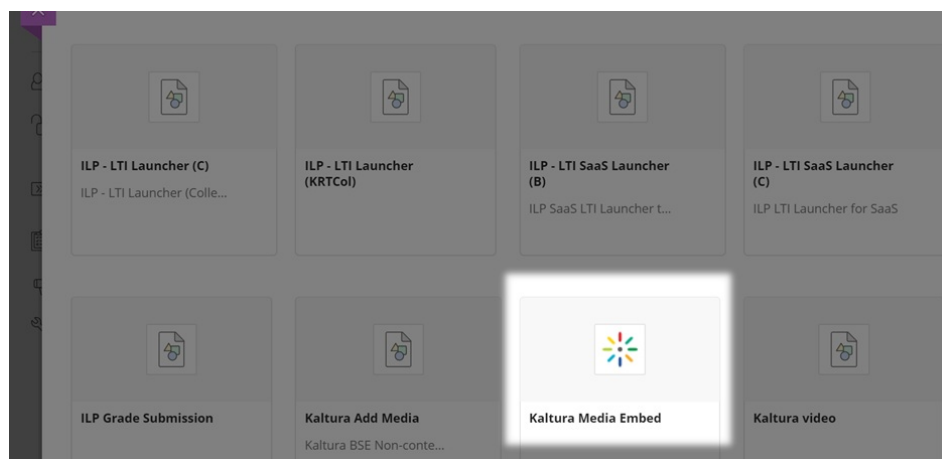

Objective:
Watch the assigned music performance and share your
chance to respond creatively and thoughtfully to what y

Instructions:

1. Watch the video
2. Record a short video (1–2 minutes) where you ans
 - What stood out to you about the performa
 - How did the music make you feel?
 - What instruments or voices did you notice,
 - Did anything surprise or interest you?
1. Speak naturally—this doesn't need to be scripted

How to submit: Upload your video response to the assignment page. No written work needed.

Select the Kaltura embed tool within the Content Market (the embed tool in your organization may have a different name than the one indicated in our image).

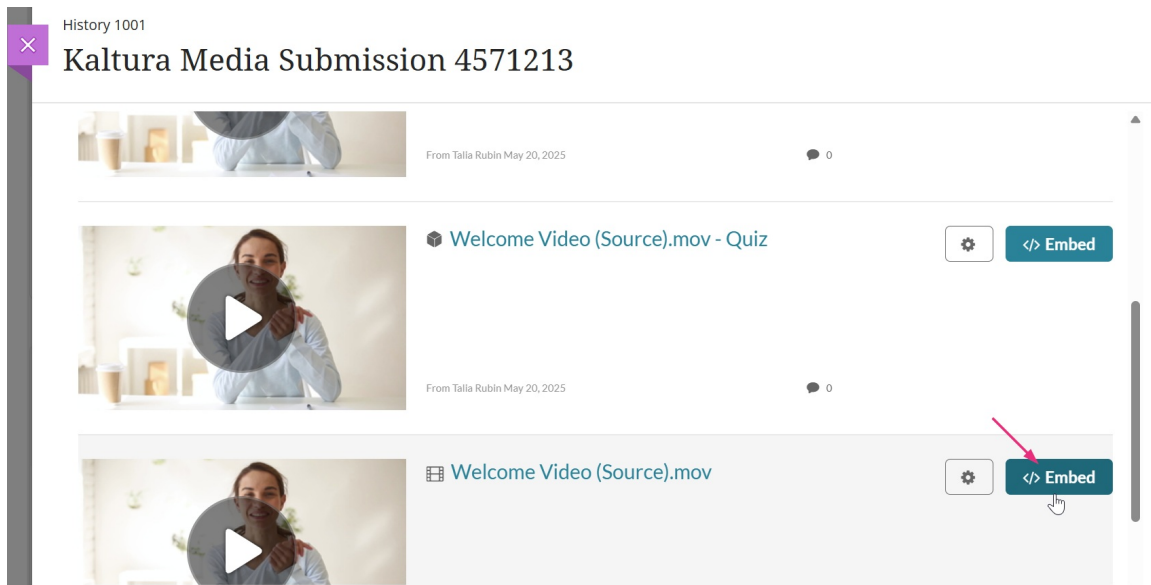

This opens embed media page.

6. Click the **Embed** button next to the media you want to embed. If you would like to upload or create new media, see [Add new media](#) below.

Kaltura Media Submission 4571213

If you see a **gear icon** next to the **Embed** button, that means you can modify the video's settings before embedding it. See [Customize your video settings](#) below.

The 'Insert Content Market Item' window displays.

7. You can edit the display name if desired, then click **Insert**.

Objective:

Watch the assigned music performance and share your personal reflection—on video! This is your chance to respond creatively and thoughtfully to what you hear and see.

Instructions:

1. Watch the video
2. Record a short video (1–2 minutes) where you answer the following:
 - What stood out to you about the performance?
 - How did the music make you feel?
 - What instruments or voices did you notice, and how did they shape the mood?
 - Did anything surprise or interest you?

Press Alt + F10 to access toolbar options

Add new media

Want to upload something new instead of choosing an existing video? Use the Add New button to upload, record, or link to new media directly from your My Media page.

1. On your My Media page (when you get to [step 6 above](#)), click the **Add New** button at the far right.

2. Select from the following options:

- **Media upload** - For instructions, visit our article [Upload media](#).
- **Express Capture** - For instructions, visit our article [Create a recording with Express Capture](#).
- **YouTube** - For instructions, visit our article [Add a YouTube video in Blackboard](#).
- **Video Quiz** - For instructions, visit our article [Upload media](#).

Customize your video settings

To customize your video before submitting, click the **settings icon** next to the media you want to embed.

1. Choose from the available options:

- **Choose player:** Choose from pre-configured players. Your administrator defines the available players.
- **Max embed size:** Set the maximum display size of the embedded video. The default size in Canvas is 1200x720, but you can adjust it to fit your layout and design preferences.
- **Thumbnail embed:** Display a static preview image instead of loading the full video player immediately. This helps improve page load speed and gives users control over when to play the video.
- **Save these settings as default:** Enable this option to apply your selected embed settings automatically to future media embeds, streamlining the process for repeated use.

2. Enable the **Submit as Assignment** toggle button to embed the media as an assignment.

Embed Submission

Submit as Assignment

3. Click **Embed** at the top-right corner.

Your video will appear in the assignment text editor.

- What are the defining characteristics of the Paleolithic, Mesolithic, or Neolithic periods?
- How did early humans adapt to their environments during this time?
- What significant discoveries or developments influenced human civilization?
