About

Use Content Lab to generate interactive quizzes from your videos with AI. Customize the quiz style, question types, number of questions, and AI instructions before generating the quiz.

Before you start

Videos repurposed with AI must meet the following criteria:

- Video must be in "Ready" status (transcoded)
- Video must have English captions
- Video must be 60 seconds or more in length
- Account must have Content Lab enabled
- Account must have an active REACH profile enabled with relevant catalog item(s)

The Create quizzes with AI feature is not currently available for Kaltura Virtual Events and Webinars.

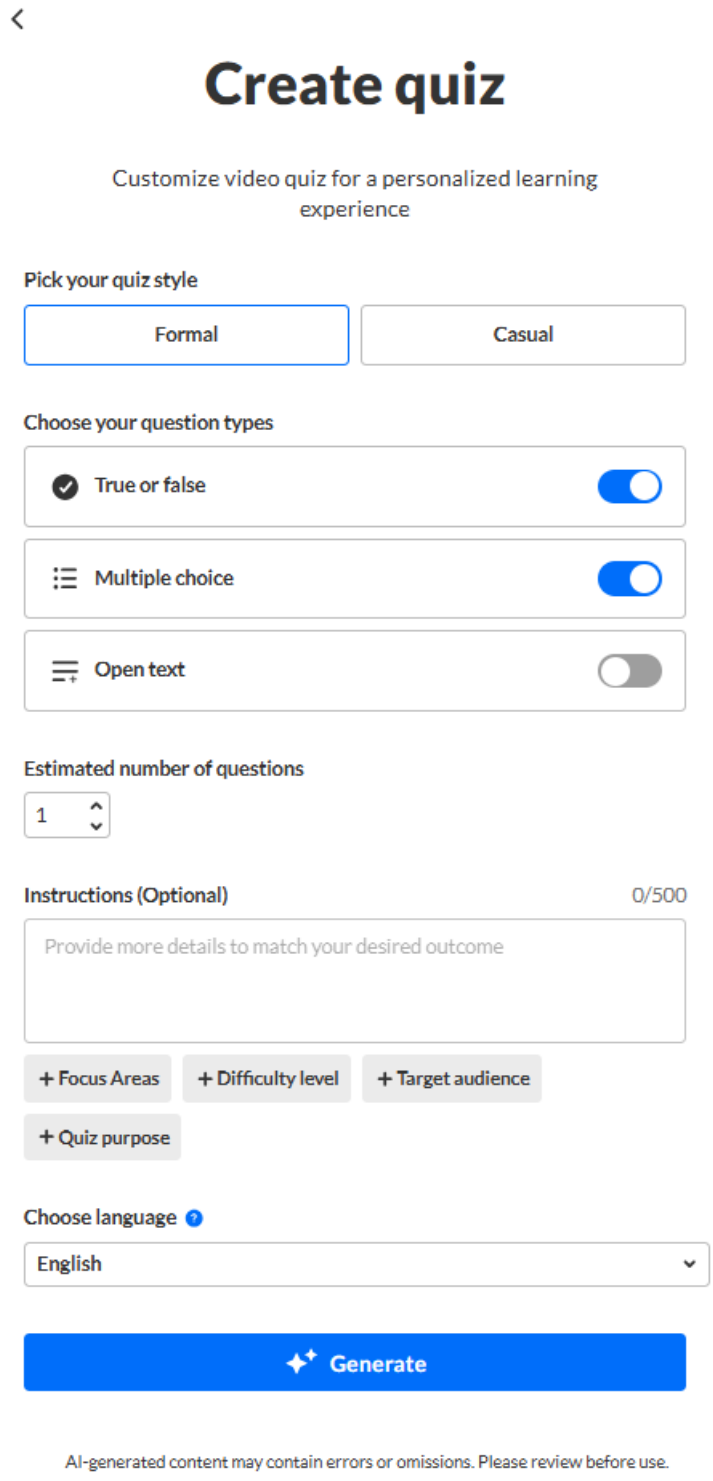

Generate a quiz with AI

1. Open Content Lab. For instructions, see Access Content Lab in your Kaltura application.
2. Click **Quiz**.

The Content Lab interface may look slightly different depending on the Kaltura application you're using, but the workflow is the same.

5. Choose the estimated number of questions.
6. Provide clear and detailed instructions for your quiz. The more information you include, the higher the chance of achieving your desired outcome.

   Option 1: Manually type your own instructions in the Instructions field.

   Option 2: Click on a preset tag provided below the Instructions field. The Instructions field is populated with that tag and a list of suggestions for additional text instructions displays. Click on one of the suggestions to autocomplete the instructions.

   Option 3: Click on a preset tag. The Instructions field is populated with that tag and a list of suggestions for additional text instructions displays. Instead of clicking on one of the suggestions to autocomplete the instructions, manually type in the Instructions field to complete the text.
