

Manage a media gallery in Blackboard (legacy)

Last Modified on 05/05/2026 9:01 am IDT

 This article is designated for faculty members.

About

The Media Gallery serves as a centralized space where all course-related content is stored, organized, and shared.

This article walks you through the process of managing your Media Gallery, from adding new content to organizing existing content and ensuring your audience has access to the right materials at the right time.

If you can't do some of the actions described here, just reach out to your administrator to get the right permissions.

Access the Media Gallery

Access your course, then click on **Media Gallery**.

The Media Gallery displays with the **Home** tab open by default.

Your additional media will be presented once it is ready and approved. Refresh Now

2. Enter or edit values for the following:

- **Description** - Enter a summary of the content to display on the Media Gallery page.
- **Tags** - Enter descriptive tags to use in searches.
- **Options** - Choose the Options settings for the Media Gallery:
 - **Moderate content** - Select this option if you want to approve media before it gets published. (Media won't appear in the gallery until the gallery manager approves.)
 - **Enable comments in Media Gallery** - If enabled, Comments are displayed when the media item is accessed through a channel. To manage comments made via the media page, see [Disable comments and close discussion](#).
 - **Keep comments private to Media Gallery** - If checked, all comments added to media in Media Gallery will be private to the Media Gallery and will not appear elsewhere (except for the My Media page of the user who owns the media).
 - **Enable Newrow Live Room** - Select this option to enable [Kaltura Meetings](#).
 - **Display embedded media in this Media Gallery** - Select this option to display embedded media in this gallery.

The 'Display embedded media in this Media Gallery' option can be changed/disabled in the [Hosted module](#) in the 'showInContextInCourseGallery' field.

3. Click **Save**.
