 This article is designated for all users.

### About

Kaltura's Content Lab allows you to instantly produce concise summaries and chapters for your videos using AI. Enabling the **Summary & chapters** plugin allows the AI summary and chapters that were created for your videos to be displayed on the player.

### Setup

To learn how to configure your player with Summary & chapters, see [Enable creation of summary & chapters in the player.](#)

### Features

- Summary and chapters are displayed during playback.
- Timeline displays playback location within current chapter.
- Current chapter name is displayed below timeline.
- Choose to open and close summary and chapters panel on the right side of the player.
- Choose to click to read summary and chapters as an overview in the right panel.

- Download a PDF version of the summary and chapters.
- Expand or collapse chapter summaries in the right panel.

## Share a chapter of a video

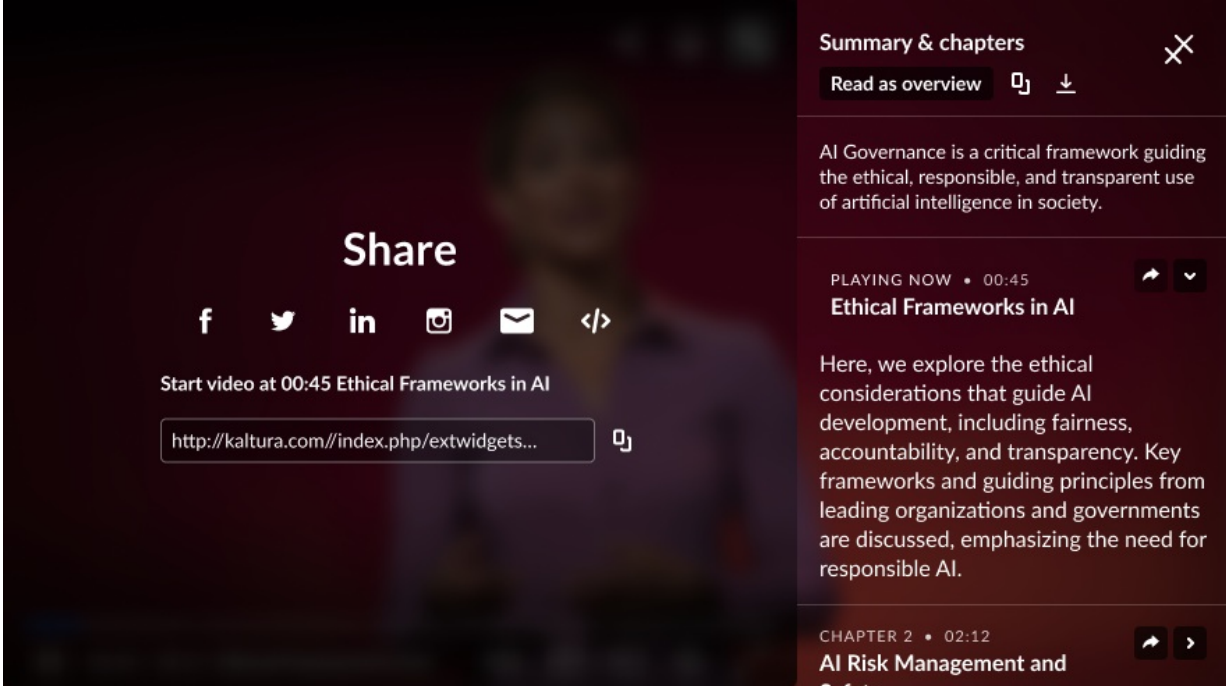

To share a chapter of a video, the [Share & embed plugin](#) must be enabled.

1. Click the **Share** button to the right of the chapter you would like to share.

The Share screen displays with the start time of the chapter and the video name.
