

Add content to a Media Gallery from a shared repository in Blackboard

Last Modified on 01/25/2025 6:18 pm IST

 This article is designated for all users.

About

The **Shared Repository** is an institution-wide media library where educators can access and share media content. Any media added to this repository is visible to all educators, allowing for easy sharing of resources across courses.

Educators can browse, search, and filter media within the repository to find what they need. Once they find the right content, they can select and add it to their own course's Media Gallery or use media contributed by others. This process makes it simple to reuse valuable media across different courses.

Access the shared repository

1. Access the [Media Gallery](#).
