About

Automate the creation of engaging, customizable quizzes that appear throughout the video content. Quiz drafts can be saved and edited.

Before you start

Videos used with the Content Lab must meet the following criteria:

- Video must be in "Ready" status (transcoded)
- Video must have English captions
- Video must be 60 seconds or more in length
- Account must have Content Lab enabled
- Account must have an active REACH profile enabled with relevant catalog item(s)

Access the Content Lab

Steps for accessing the Content Lab vary depending on the Kaltura application.

- For Video Portal, access the Content Lab through the Create with AI button on the Media page.
- For KMC, access the Content Lab through the Create with AI button on the Entry Details page.

Generate a quiz with AI

1. Click the **Create with AI** button.
✦ Create with AI

The Create with AI screen displays.

> **ℹ**
>
> The Create with AI screen is the Content Lab's main menu. Options shown vary depending on the services configured for your account.

2. Click **Quiz**.

   If this is your first time creating a quiz for the entry, the Create quiz screen displays.

> **ℹ**
>
> If you've already generated quizzes for the entry in the past, the list of generated quizzes displays. Simply click **Generate new** to navigate to the Create quiz screen.
3. Pick your quiz style (language or style of the questions) - Formal or Casual.
4. Choose your quiz question types - True or false (selected by default), Multiple choice (selected by default), and Open text.
5. Decide on an approximate number of questions you would like your quiz to contain.
6. Click **Generate**. The Content Lab begins creating your quiz.

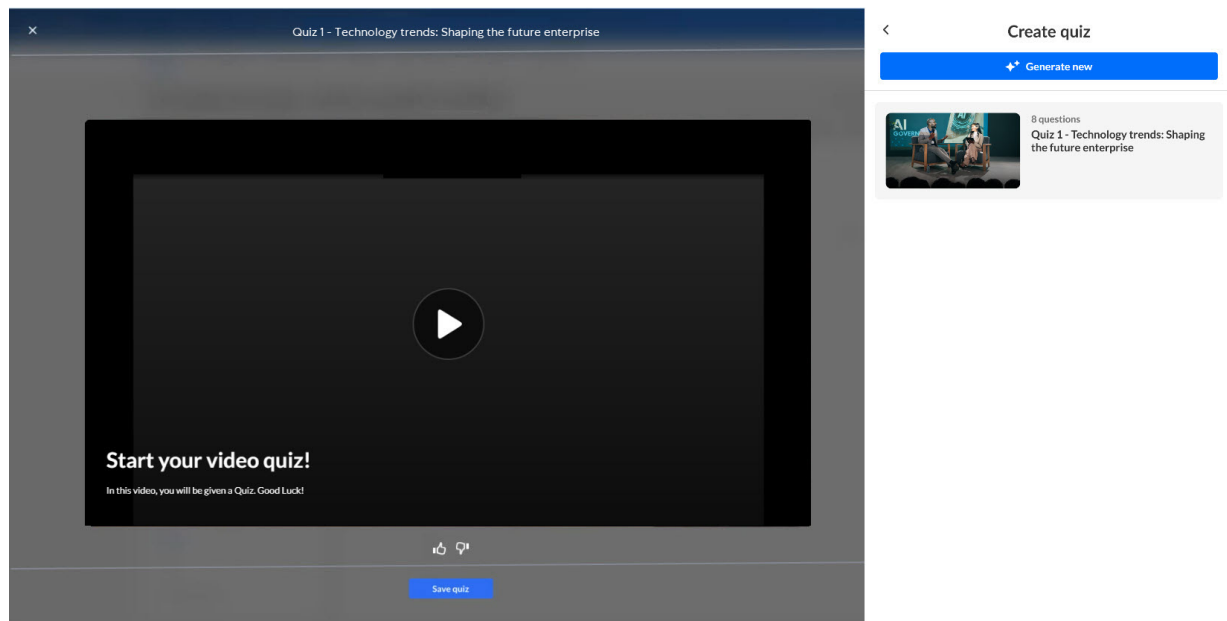

Once finished, the newly generated quiz is added to the list on the right of the screen. The quizzes in this list are numbered based on their creation.
