

# Edit media in Moodle - Theming

Last Modified on 02/25/2025 6:25 pm IST

 This article is designated for all users.

## About

This guide covers how to edit and manage your media in your KAF application, offering options like metadata management, publishing settings, thumbnail customization, and more, so you can ensure your content is exactly how you want it.

You may lose some functionality if your display screen is under a certain width or when in mobile view.

The instructions below are for [Theming](#) users. If you don't have Theming enabled on your account, please refer to our article [Edit media](#).

## Access the edit media page

If you cannot access your My Media Page content/actions or display editing tabs, as your administrator to give you the required permission.

## From My Media

1. Access the [My Media](#) page.

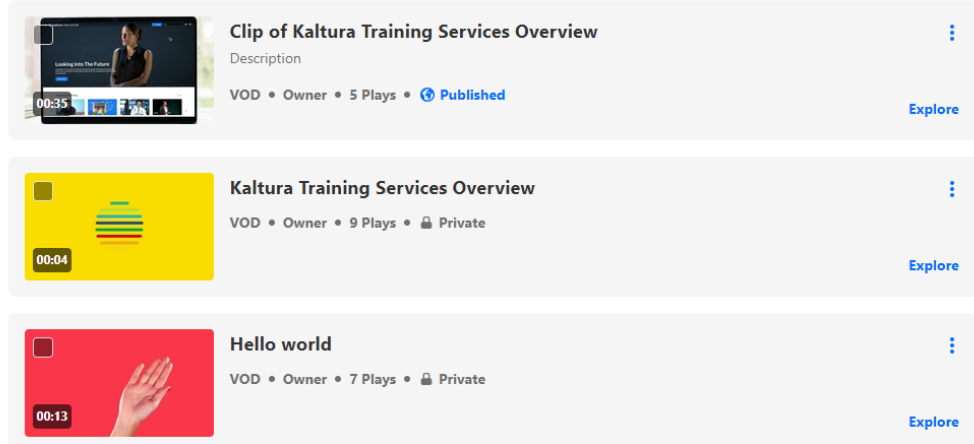

## My Media

My Calendar My analytics [+ Create](#)

Search My-Media

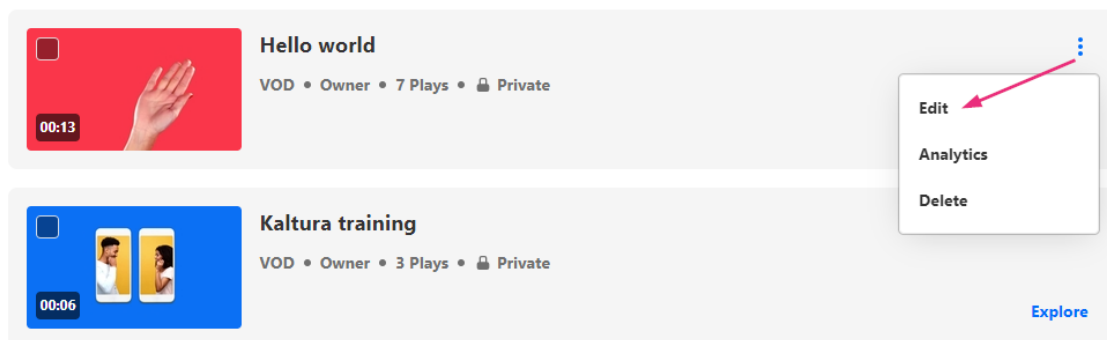

[Filters](#)

711 Results found

The screenshot shows a list of three video items in the My Media section. Each item has a thumbnail, a title, a description, and metadata. The first item is 'Clip of Kaltura Training Services Overview' (00:35, VOD, Owner, 5 Plays, Published). The second is 'Kaltura Training Services Overview' (00:04, VOD, Owner, 9 Plays, Private). The third is 'Hello world' (00:13, VOD, Owner, 7 Plays, Private). Each item has a three-dot menu icon to its right and an 'Explore' link.

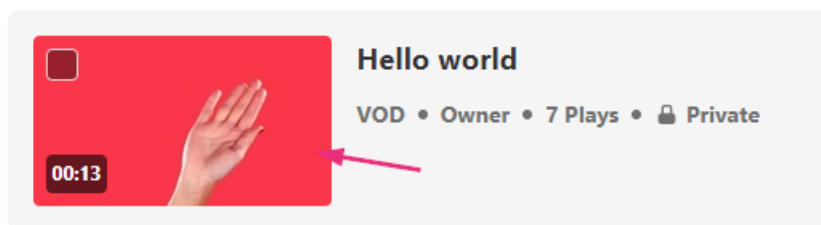

2. On the My Media page, click the **three dots** to the right of the desired media and select **Edit**.

This screenshot shows the 'Hello world' video item selected. A context menu is open to the right of the three-dot icon, with the 'Edit' option highlighted by a red arrow. The menu also includes 'Analytics' and 'Delete' options. Below it, the 'Kaltura training' item is visible.

**OR**

1. On the **My Media** page, click on the thumbnail or title of the desired media.

This screenshot shows the 'Hello world' video item. A red arrow points to the video thumbnail, indicating the first step of the alternative method.

The media page displays.

2. Click the **three dots** to open the menu.

### 3. Select **Edit**.

## From Media Gallery

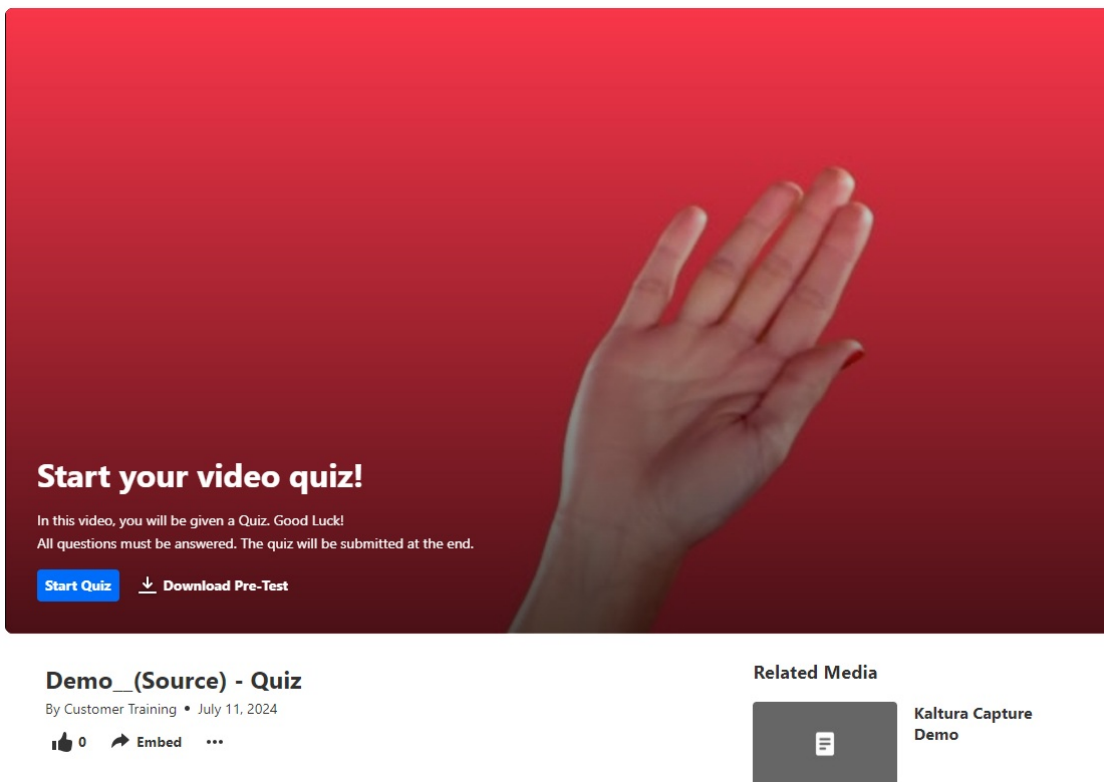

### 1. Access the [Media Gallery](#).

### 2. Under the **Media** tab, click on the thumbnail of the desired media.

The media page displays.

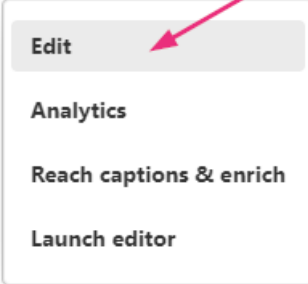

3. Click the **three dots** and select **Edit** from the menu.

## What you can do on the edit media page

The screenshot shows the Kaltura edit media page with a navigation bar at the top containing tabs: Details, Languages, Publish, Options, Collaboration, Thumbnails, Presenters, Downloads, Distribution, Captions, Attachments, Timeline, Replace Media, and Display. Below this is a 'Registration' section with a 'Name (Required)' field containing 'Demo'. The 'Description' section includes a rich text editor with options for Black, Bold, Italic, Underline, and various list and link icons. There is a 'Tags' field and a note: 'Click to add required metadata for shared repository'. Below that are fields for 'Department Name', 'Department Division' (a dropdown menu), and 'Date Established'. At the bottom, there is a 'Publishing Schedule' section with radio buttons for 'Always' (selected) and 'Specific Time Frame', with a sub-note: '(The time range in which this media will be visible to users in published channels/categories)'. At the very bottom, there are buttons for 'Save', 'Go To Media', 'Go To Channel', and 'Delete Entry'.

 The tabs that are displayed on the edit media page depend on your admin configuration.

Once you're on the edit media page, you can:

- [Edit media metadata](#)
- [Setup metadata in different languages for your media](#)

- [Publish media](#)
  - [Schedule media](#)
  - [Enable clipping](#)
  - [Disable comments and close discussion](#)
  - [Change media ownership and add collaborators](#)
  - [Set and modify thumbnails](#)
  - [Enable media download](#)
  - [Upload and manage captions](#)
  - [Add attachments](#)
  - [Manage chapters and slides](#)
  - [Replace media](#)
  - [Customize the entry display](#)
  - [Delete the entry](#)
  - [Launch the Editor](#)
