

# Submit a media assignment in Moodle (Legacy)

Last Modified on 03/10/2026 11:27 am IST

 This article is designated for students.

## About

This guide walks you through how to submit a media assignment in Moodle.

Follow these steps to upload or select a video, review your submission, and finalize it. Once submitted, your video cannot be changed, so be sure to review your work before clicking **Submit!**

## Submit a video assignment

1. Click the assignment link provided by your instructor.
2. On the assignment page, click **Add media submission**.

### **My Wish for the Future**

Record a short video (1–2 minutes) where you talk about one wish you have for the future. It can be personal, global, or completely imaginative - your choice!

Make sure to:

- Clearly state your wish
- Explain why it's meaningful to you
- Share how you hope it could come true

Be creative, thoughtful, and speak clearly. When you're done, upload your video here

**Available from:** Friday, 25 July 2025, 2:25 PM

**Due Date:** Monday, 1 September 2025, 2:25 PM

Your **My Media** opens.

A pop-up window displays asking if you would like to submit the media as an assignment.

Would you like to submit media as assignment?

**Yes, please**

**No, thanks**

5. Click **Yes, please** to confirm the action.

A success message confirms your submission.

That's it - good luck with your assignment!

## Add new media

Need to upload or record a new video? Use one of the options in the **Add New** menu in the Kaltura embed window:

- **Upload** (Visit our article [Upload media](#) for guidance.)
- **Express Capture** (Visit our article [Express Capture](#) for guidance.)
- **YouTube** (Visit our article [Add a YouTube video](#) for guidance.)
- **Kaltura Capture** (Visit our article [Kaltura Capture](#) for guidance.)

## Configure your video settings

To customize your video before submitting, click the **settings icon** next to the media you want to embed.

1. Choose from the available options:

- **Choose player:** Choose from pre-configured players. Your administrator defines the available players.
- **Max embed size:** Set the maximum display size of the embedded video. The default size in Canvas is 1200x720, but you can adjust it to fit your layout and design preferences.
- **Thumbnail embed:** Display a static preview image instead of loading the full video player immediately. This helps improve page load speed and gives users control over when to play the video.
- **Save these settings as default:** Enable this option to apply your selected embed settings automatically to future media embeds, streamlining the process for repeated use.

2. Enable the **Submit as Assignment** toggle button to embed the media as an assignment.
