

Create a Kaltura video assignment in Canvas

Last Modified on 06/13/2025 5:16 pm IDT

A This article is designated for faculty members.

About

Instructors can create assignments in Canvas that allow students to submit video recordings using Kaltura's Embed Media tool. When a student submits a video, it is cloned under a new username (OriginalUserName_assignment) and will no longer appear in **My Media**, ensuring that the submission cannot be edited or deleted after submission.

This feature is enabled and configured in the Browseandembed module.

Create a new assignment

1. In your course, click **+Assignment** in the top-right corner.

If students experience submission issues, ensure the **Text Entry** submission type is enabled in the assignment settings.

•

If your institution uses Kaltura's LTI 1.3 integration, confirm that student permissions allow them to upload and submit videos.

i

Canvas limits media embedding and publishing to the **first 100 active courses** due to system performance optimizations (per_page=100). If you don't see a course in the selection list, it may be outside this limit.
