

# Working with the media analytics dashboard

Last Modified on 04/24/2025 10:22 am IDT

 This article is designated for all users.

## About

The Media analytics dashboard provides you with data on users' engagement with media. You can use advanced filtering and comparison options to dive deeper into the data and learn more about content engagement trends of all your entries.

To learn how to access and read the media analytics dashboard, check out our article [Media analytics](#).

Europe to Trump: Prepare for retaliation against your tariffs

## Change dashboard timeframe

You can use the date picker at the top of the dashboard to change the timeframe and view data across different periods. You can select preset time periods or choose specific dates.

 Download Report | Export | Filter | Last 30 Days Jun 27, 2023 - Jul 26, 2023

## Preset time periods

Preset time periods are a quick way of looking at recent data, such as the last week or the last month. You can also select time periods such as current year or quarter.

## Selecting a specific date range

To select a specific date range

1. Click on the date picker and choose the **Specific Date Range** tab.

Preset

Specific Date Range

2. On the calendar, click the starting date of the time range you want analytics for.
3. Select the hours filter to fine tune your filtering to specific hours.

Note: If you want to select until midnight, please enter 23:59 as the hour.

Preset

Specific Date Range

The dashboard data displays for the chosen time range.

## Compare time periods

You can compare different time periods to better understand your data considering seasonality and changes in usage following adoption of new tools and capabilities. You can choose to compare between the same period last year or pick a specific date and compare the timeframe starting from this date. You can also use the hours filter to fine tune your analytics for specific hours.

To compare time periods:

1. Click on the date picker and choose **Specific Date Range**.

Preset

Specific Date Range

2. On the calendar, select the first time range you would like to explore by either clicking on the first date on the calendar and then the last date or by entering the dates in the date fields.

☐ Compare with another period

Apply

### 4. Click the second time range you'd like to compare with - **Same period as last year** or **Same period starting at a specific date**:

- ☒ Compare with another period
- ☒ Same period last year
  - ☐ Same period starting at:

#### Same period as last year

Use this to compare with the exact same date range as the year before. For example, if the first selected range is July 15, 2022 to July 21, 2023, the comparison will be performed to the date range of July 15, 2022 to July 21, 2022.

#### 1. Select the date range on the calendar.

## Filter data

You can filter the data in the dashboard based on additional criteria.

The filtering options are:

- **Countries** - country where the created video was viewed
- **Domains** - domains where the video was viewed
- **Playback Context** - The category or channel through which the video was accessed
- **Page URLs** - URL pages where the video was viewed

## Filter data based on a specific parameter

1. Click the **Filter** option to open the filters pane.

2. Select the relevant filters you'd like to use.
3. Click **Apply** to show the filtered data in the dashboard.

## Filter by playback context

This filter lets you narrow the data by playback context, for example, to see analytics for views that occurred through a specific category.

You'll only see categories you're entitled to view.

1. Click **Playback Context**.

Export Reports

A notification is sent about the export request status. If the data in the report was filtered, the report is based on the filter applied. You will be notified that your export request is being processed and will be emailed to you when complete.

Export is limited by 60,000 records and time to execute. If you receive an error, break down your report to smaller time frames or use filters to reduce the size of the report.

The files expire in seven days.

## Download report

You can get a summary report of the entire dashboard in pdf format by clicking **Download Report**.

To change the time period or filter the data, use the date picker and filter panel at the top of the dashboard. You can also compare data from different time periods.
