This article is designated for all users.

About

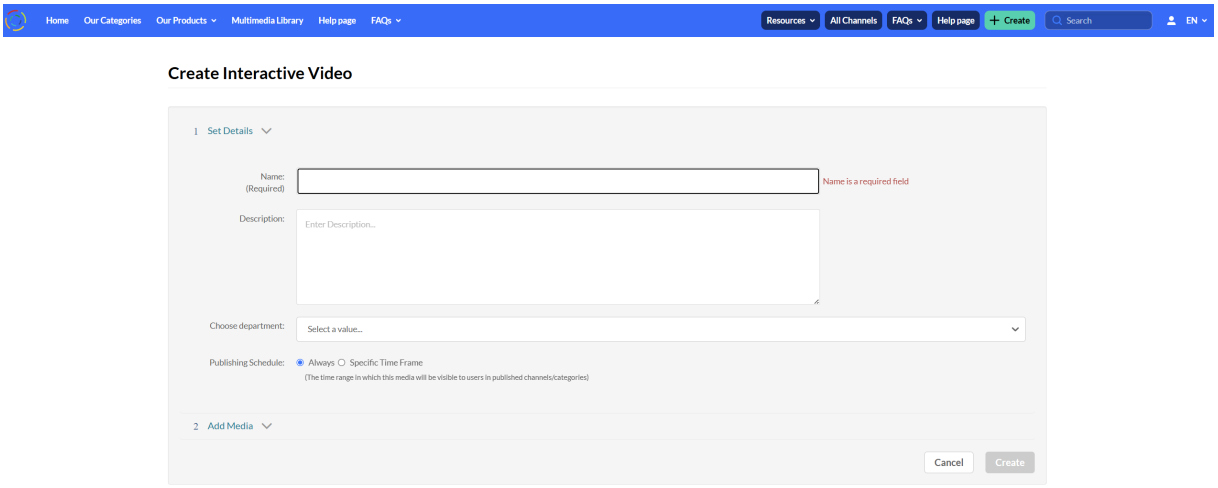

This article walks you through creating your interactive video - setting up details, choosing your media, and building your initial structure.

Create your interactive video

1. Select **Interactive Video** from the **+Create** menu.

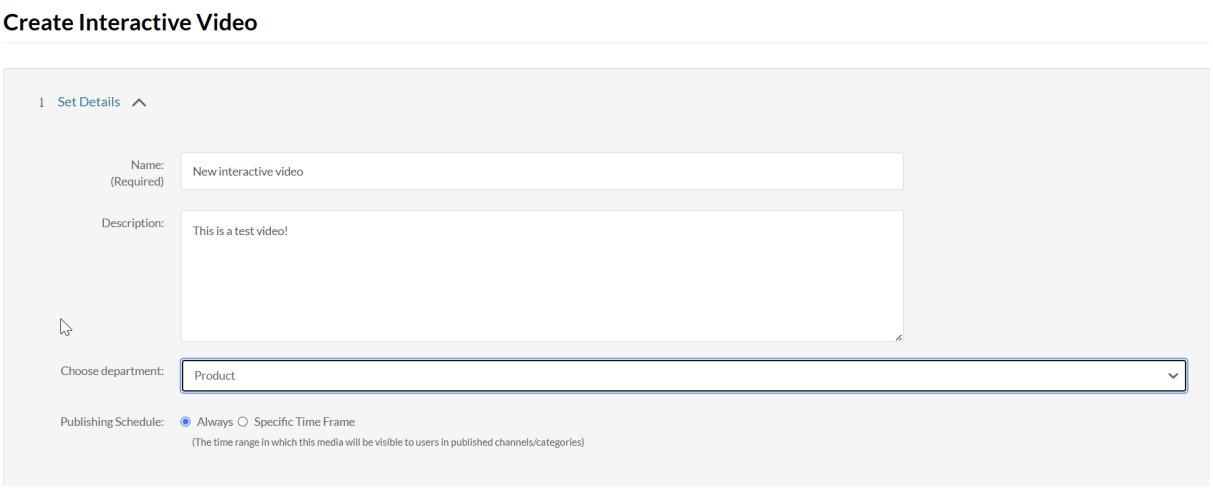

The 'Create Interactive Video' page opens.

2. In the **Set Details** section:

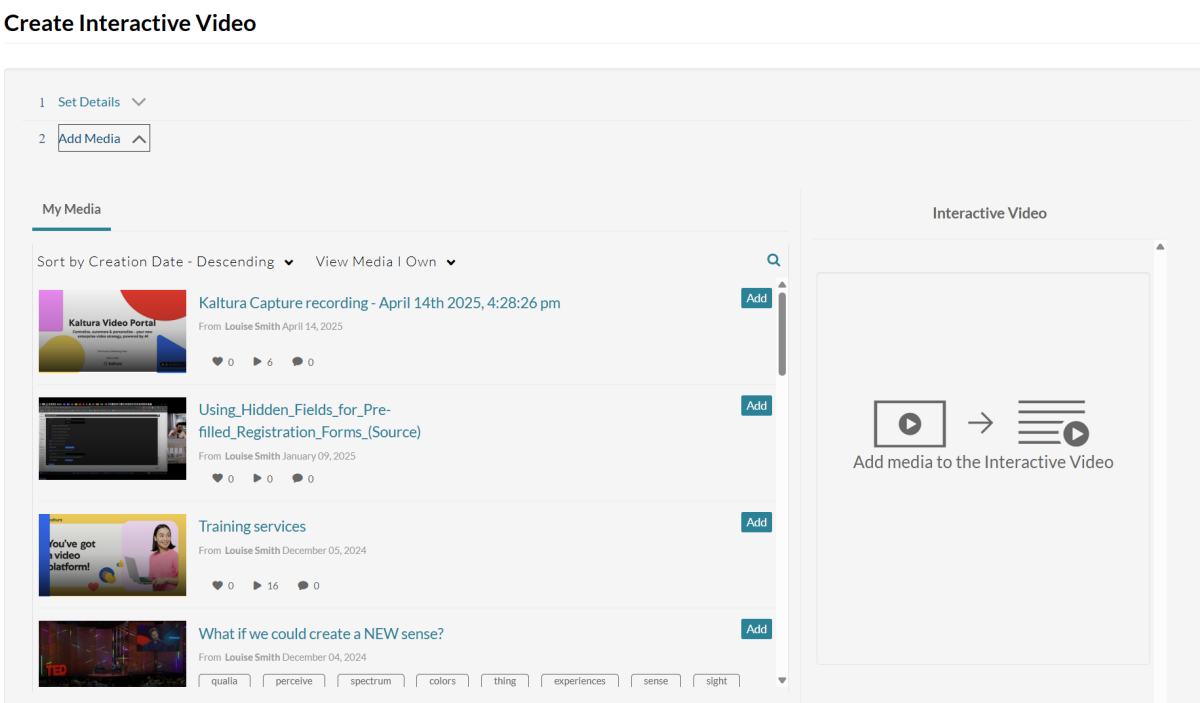

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

- enter a name (required)
- enter a description (Optional).

3. Click on the **Add Media** arrow to open the **My Media** section.

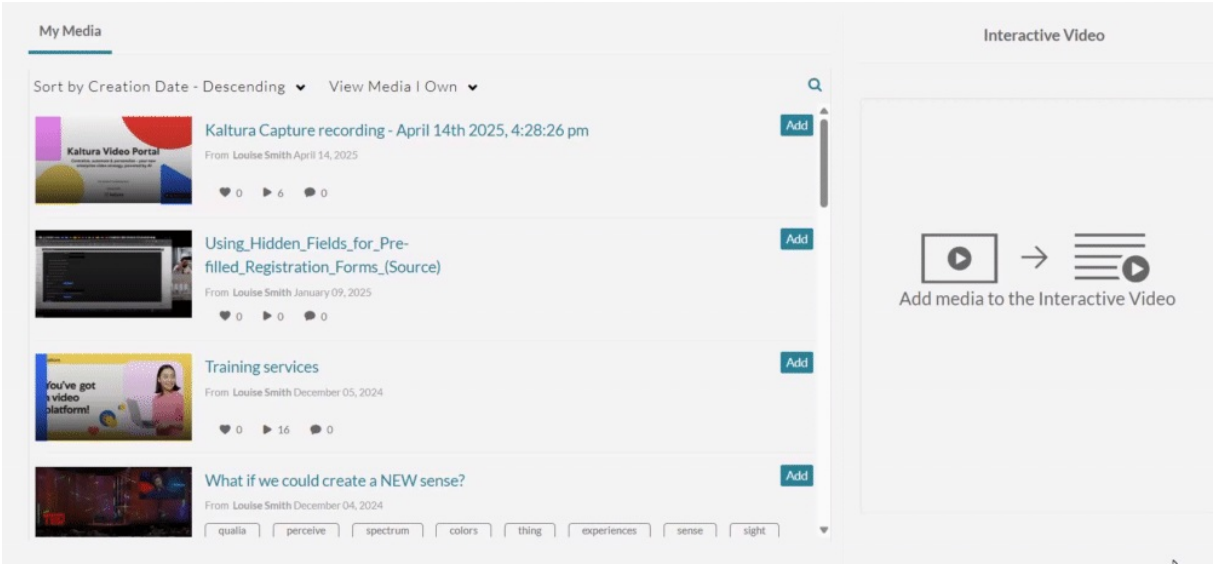

The **My Media** section displays the media available for use in your video.

There's no need to set media as "Unlisted" to use it in interactive videos.

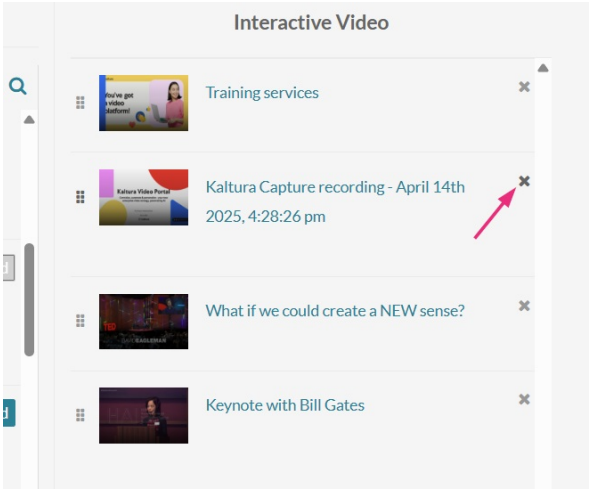

4. Click **Add** to the right of the media you want to add to your video.

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

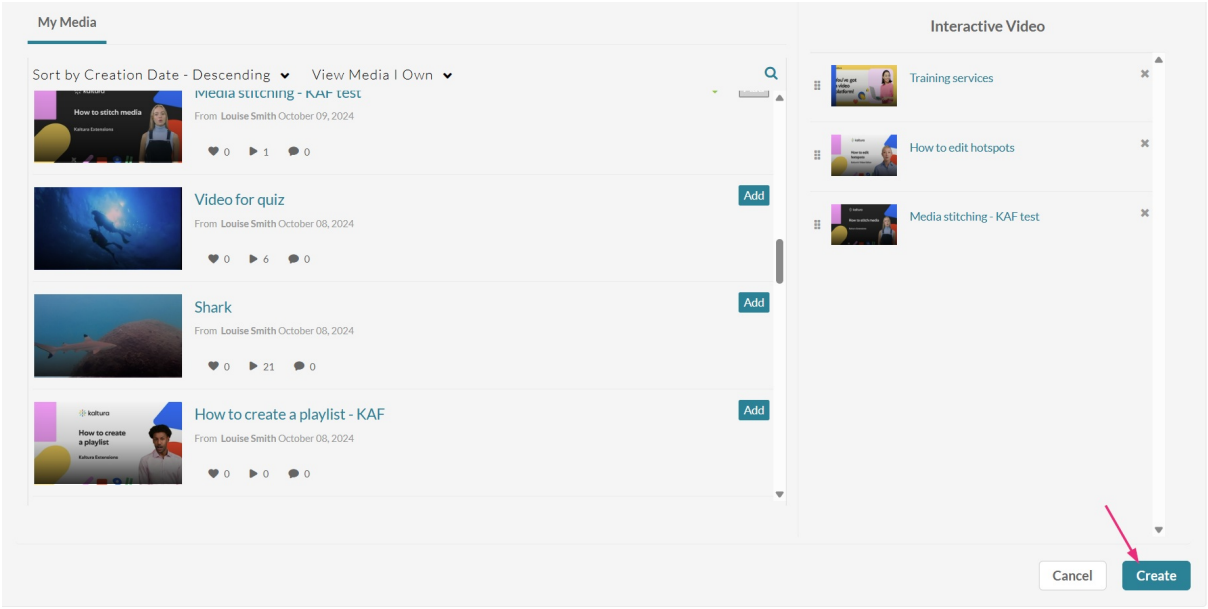

The item moves into the list on the right.

To remove an item from the list, click the **x**.

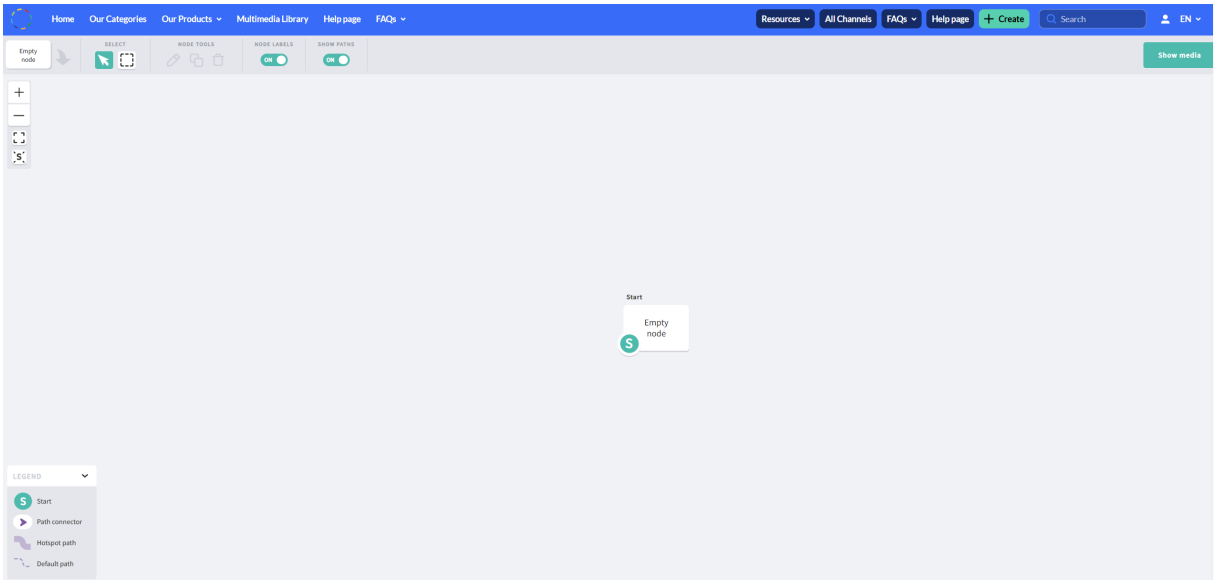

5. When your media list is ready, click **Create**.

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

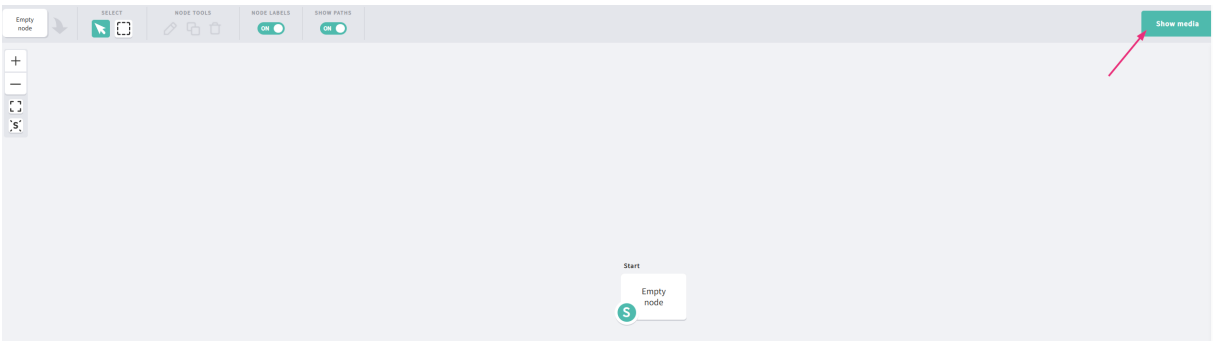

The video composer opens.

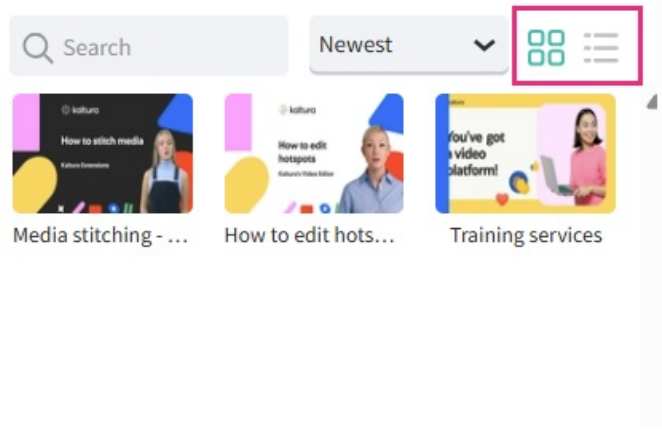

View your media library

Click **Show Media** at the far right to view the videos you selected.

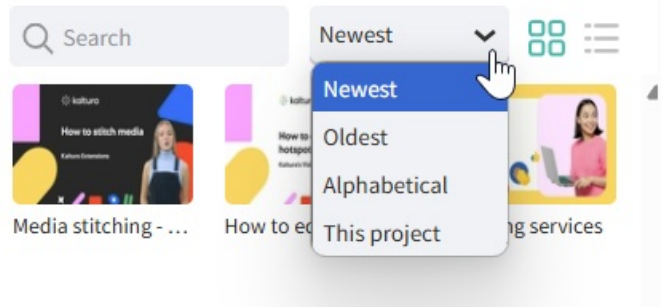

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

You can view the media in a **list** or **table** format by clicking the icons at the top right.

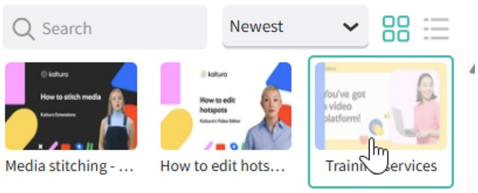

You can sort your media by

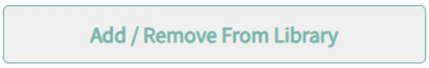

- Newest
- Alphabetical
- This project

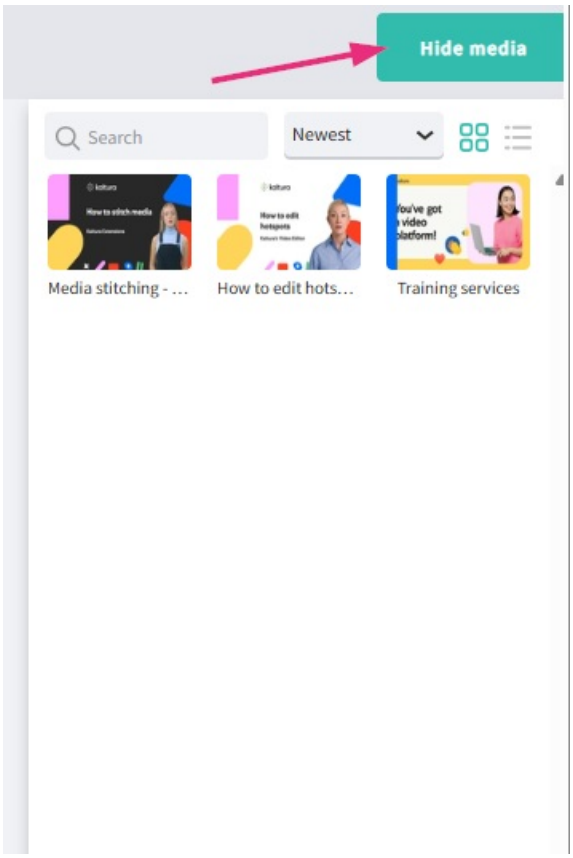

To remove a media item, click on its thumbnail, then click **Remove from Library** at the bottom of the panel.

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

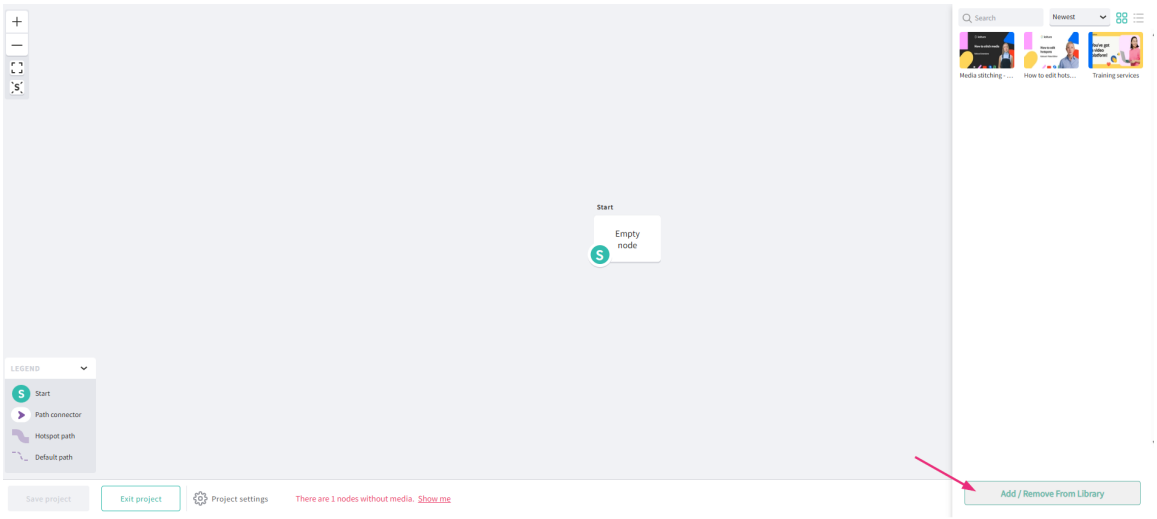

Click **Hide Media** to close the panel.

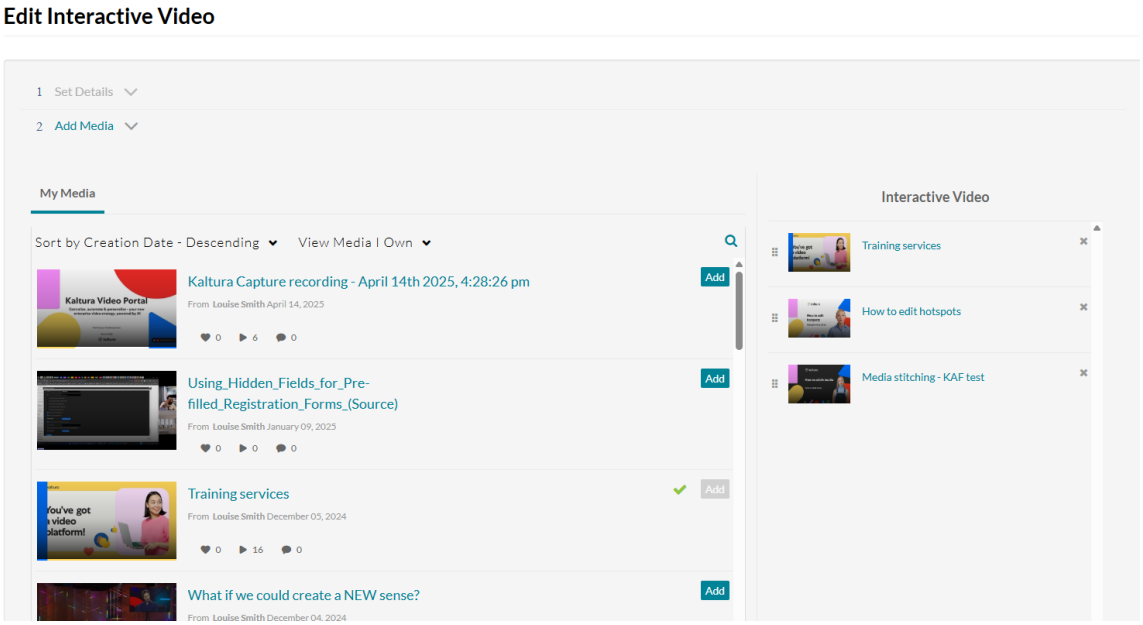

Add or remove media from the library

1. At the bottom of the panel, click **Add/Remove from Library**.

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

The 'Edit Interactive Video' window displays.

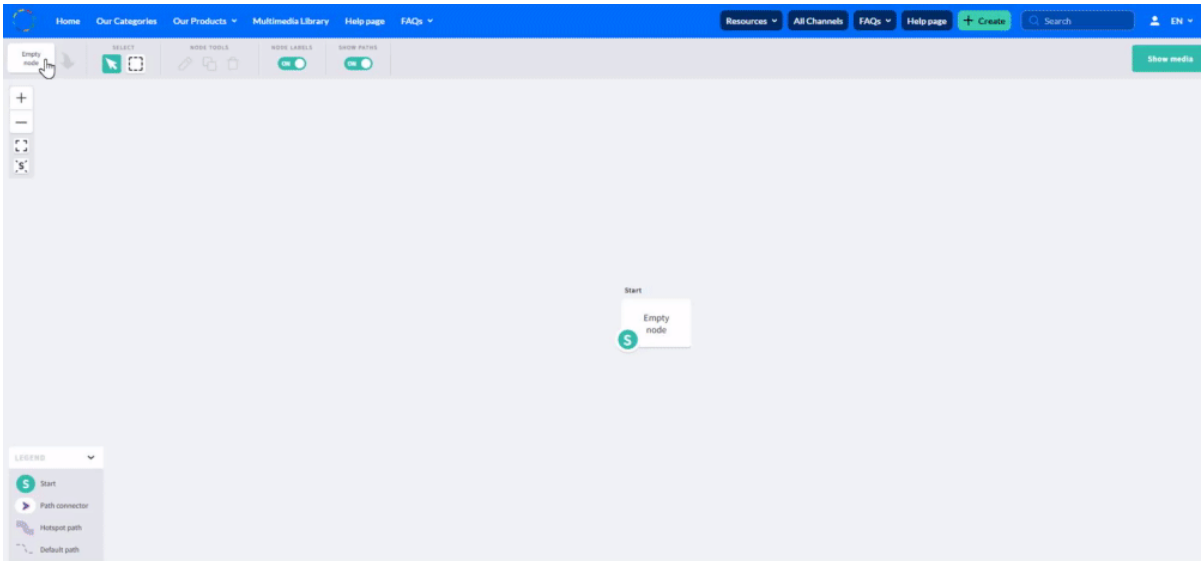

2. To remove media, click on the **x** next to it. To add media, click **Add**.
3. When you are happy with your playlist, click **Save** to return to the video composer with a refreshed list.

Build your interactive video structure

1. In the video composer, click and drag empty nodes onto the node map (the large canvas area in the center).

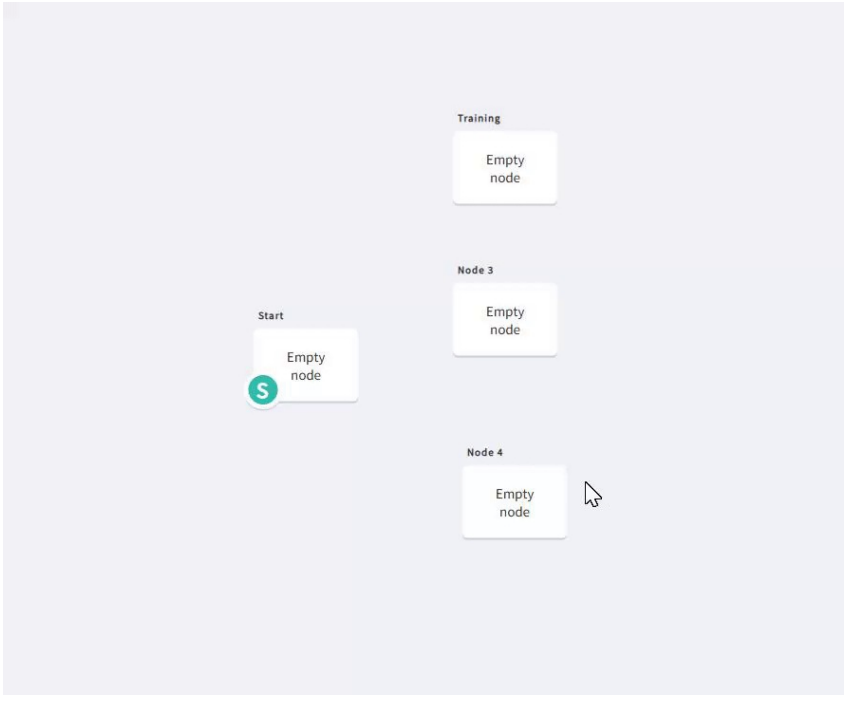

Empty nodes act as placeholders that you can assign videos to later.

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

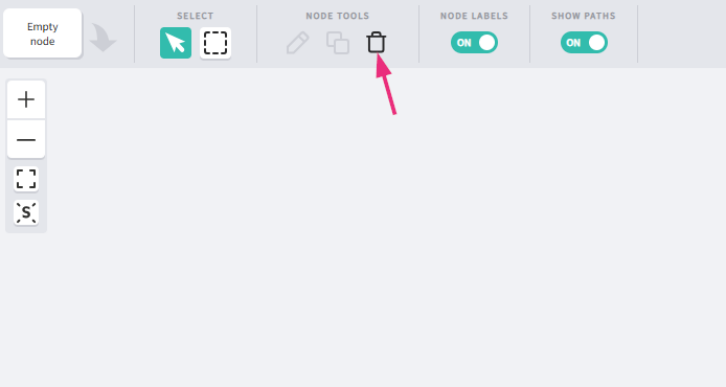

2. To create the paths of your video, hover over the right side of a node and drag the arrow to another node.

You can connect a node to multiple nodes - even back to itself!

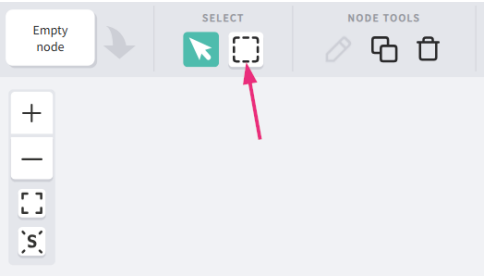

To **delete** a path, just click on the path (it turns green), then click the **trash can icon** at the top left to delete it.

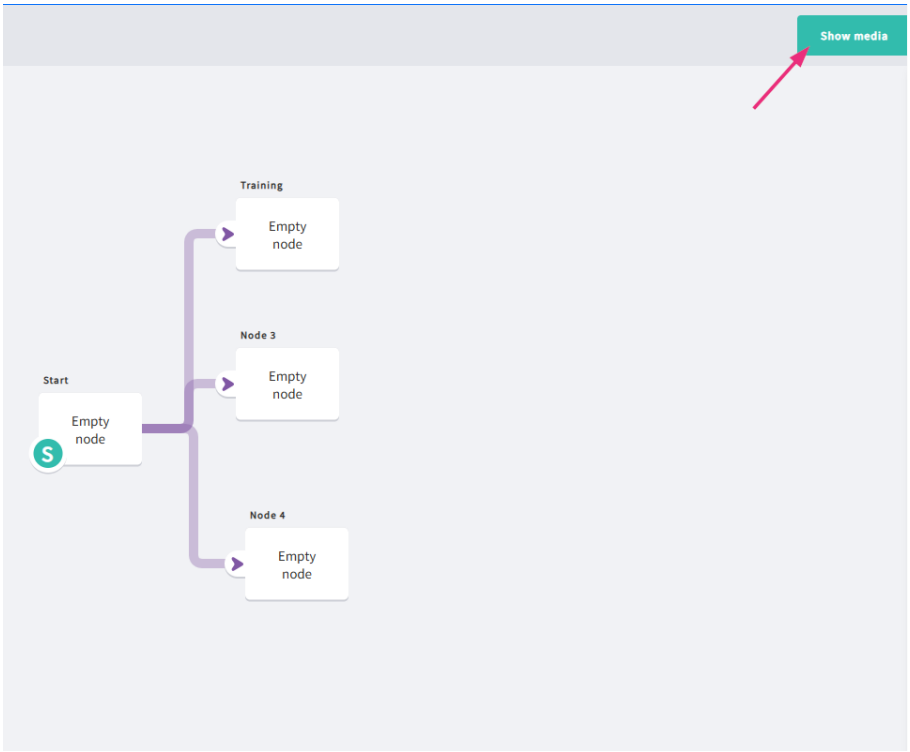

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

To delete multiple paths at once, use the marquee tool to select them, then click the **trash can icon**.

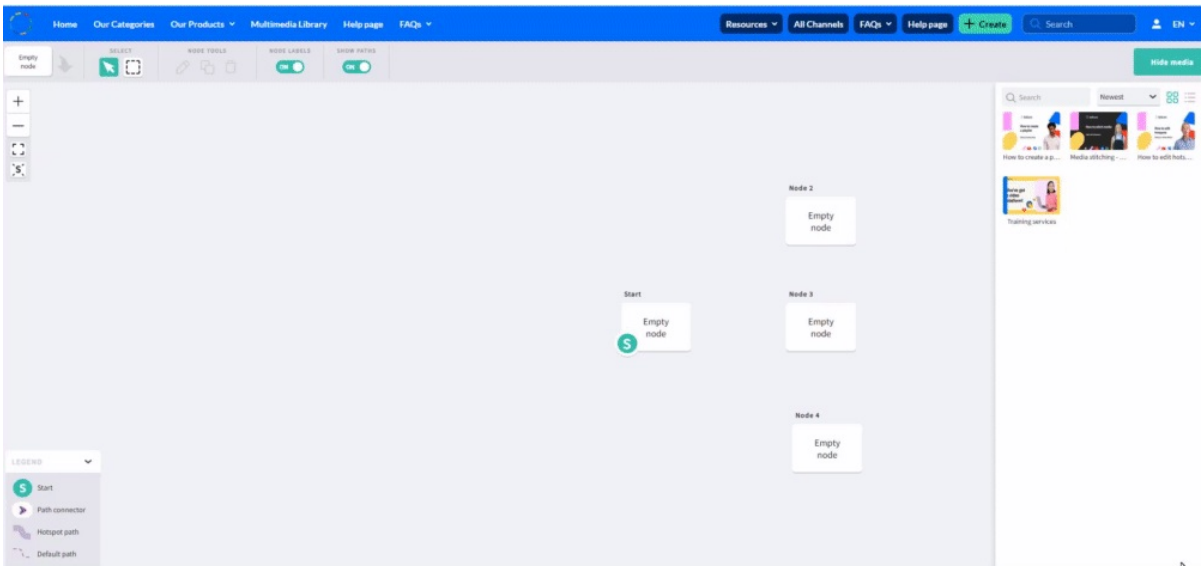

3. To assign videos to nodes, click **Show Media** at the top right to open the media library.

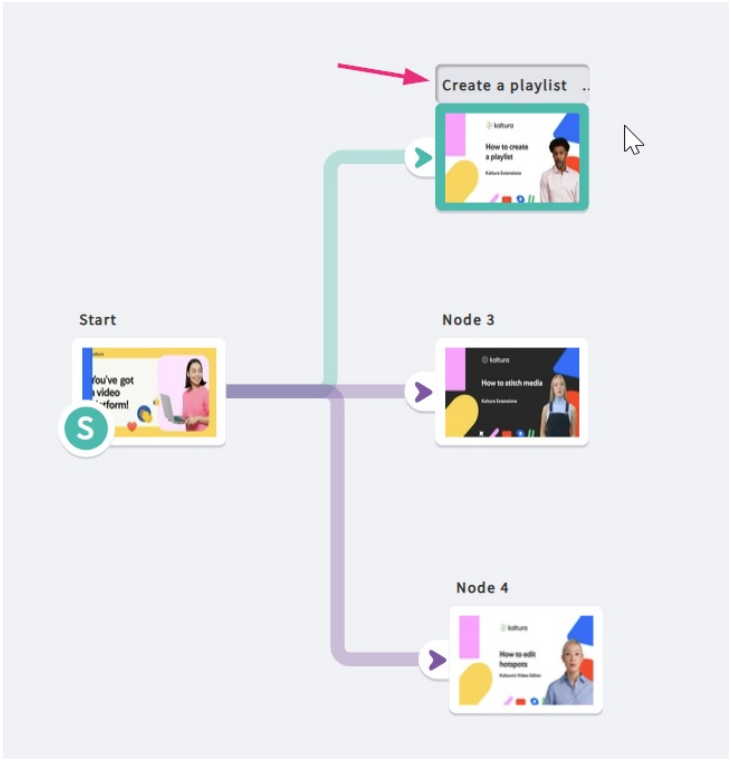

4. Drag the videos onto the desired nodes.

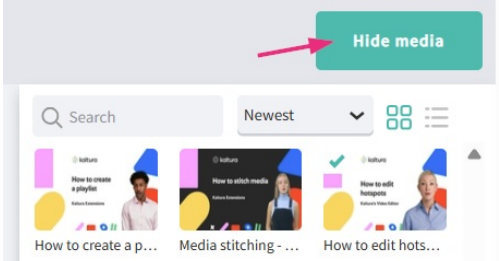

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

- You can double click on a node and rename it if you haven't already done so.

5. Click **Hide media** when done.

Customize your node map view

- Use the **+** and **–** buttons at the top left to zoom in and out of the node map.
- Click and drag anywhere on the background to move around the map.
- Use the **Show Paths toggle** to show or hide the connection lines between nodes.
- Use the **Node Labels toggle** to show or hide the node names.

Click-through mode

Click-through mode lets you quickly preview your video without having to leave the editor. When you turn it on (using the toggle at the top right), you can watch and click through the paths and hotspots you've set up, just like a viewer would.

While Click-through mode is on, you won’t be able to edit anything. To go back to editing, simply turn it off.

Next steps: Add hotspots

Double-click a node to open the hotspot editor. See Editing Hotspots to learn how to add interactivity to your project.

Where to find your interactive video later

After you close the composer, you can find your video in My Media. You can use the search bar or filter by media type to display only **Interactive Videos**.

Click the thumbnail or title to open it, and the interactive experience will start playing automatically.

To reopen the video composer and continue editing your project, see Edit an interactive video in Content Hubs.

How to publish your finished video

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

To publish your interactive video, follow the steps in our Publish media article. Note that viewers must have permission to see the media included in the interactive video.
