

Create an interactive video

Last Modified on 08/03/2025 5:41 pm IDT

28 This article is designated for all users.

About

This article walks you through creating your Interactive Video project - setting up details, choosing your media, and building your initial structure.

Where to find your interactive video later

After you close the composer, you can find your video in My Media. You can use the search bar or filter by media type to display only Interactive Videos. Click the thumbnail or title to open it, and the interactive experience will start playing automatically.

How to publish your finished video

To publish your interactive video, follow the steps in our Publish media article. Note that viewers must have permission to see the media included in the interactive video.

i

This article shows the Theming design in action. If you're not using Theming yet, take a look at Getting started with Theming.

Create your interactive video

1. In your video portal, click the **Create** button and select **Interactive Video** from the menu.

- 2. To remove media, click on the **x** next to it. To add media, click **Add**.
- 3. When you are happy with your playlist, click **Save** to return to the video composer with a refreshed list.

Build your interactive video structure

1. In the video composer, click and drag empty nodes onto the node map (the large canvas area in the center).

 Empty nodes act as placeholders that yo 	ou can assign videos to later.
	Resources • All Charvels FAQs • Helpage + Crasts Starch 1 Di •

2. To create the paths of your video, hover over the right side of a node and drag the

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

arrow to another node.

You can connect a node to multiple nodes - even back to itself!

	Training
	Empty node
	Node 3
Start Empty	Empty node
S node	
	Node 4
	Empty S node

To **delete** a path, just click on the path (it turns green), then click the **trash can icon** at the top left to delete it.

To delete multiple paths at once, use the marquee tool to select them, then click the **trash can icon**.

3. To assign videos to nodes, click **Show Media** at the top right to open the media library.

		Show media
	Training	
	Empty node	
	Node 3	
Start Empty	Empty node	
S node		
	Node 4	
L,	Empty node	

4. Drag the videos onto the desired nodes.

• You can double click on a node and rename it if you haven't already done so.

5. Click Hide media when done.

Customize your node map view

- Use the + and buttons at the top left to zoom in and out of the node map.
- Click and drag anywhere on the background to move around the map.
- Use the **Show Paths toggle** to show or hide the connection lines between nodes.
- Use the **Node Labels toggle** to show or hide the node names.

Click-through mode

Click-through mode lets you quickly preview your video without having to leave the editor. When you turn it on (using the toggle at the top right), you can watch and click through the paths and hotspots you've set up, just like a viewer would.

ŧ.,	Home Our Categories	Our Products 🗸	Multimedia Libra	ry Help page	FAQs ~					Resources ~ All Ch	annels FAQs ~	Help page + Create	Q Search	🔔 EN 👻

				•										

While Click-through mode is on, you won't be able to edit anything. To go back to editing, simply turn it off.

Next steps: Add hotspots

Double-click a node to open the hotspot editor. See Editing Hotspots to learn how to add interactivity to your project.
