

## Create a Kaltura Room within a channel

Last Modified on 12/07/2025 11:32 am IST

 This article is designated for administrators.

### About

A Kaltura Room can be tied directly to a channel, creating a persistent virtual meeting space that anyone with access to the channel can join.

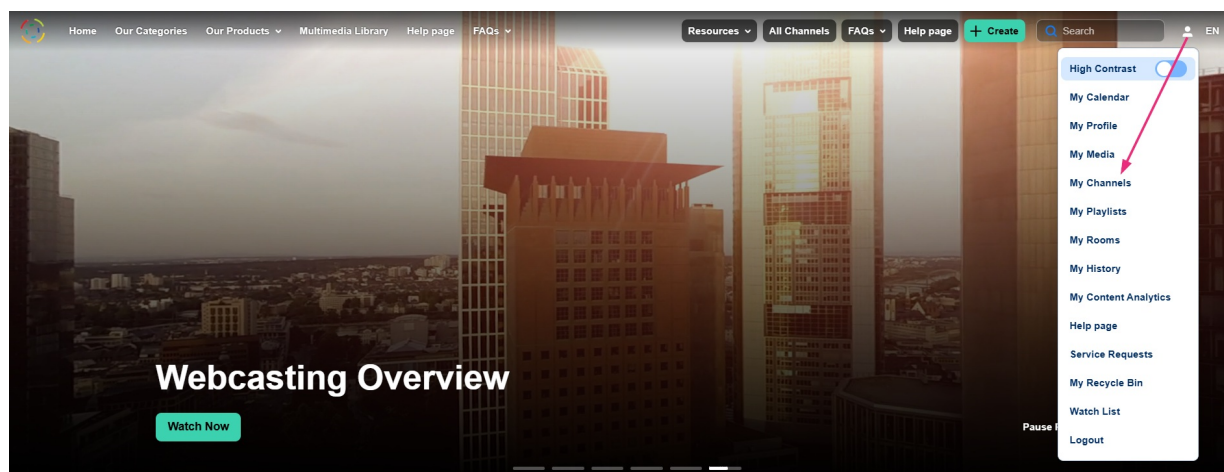

This type of room is ideal for ongoing team collaboration, department meetings, or informal group discussions - no need to set up a new session each time.

### Access the room settings

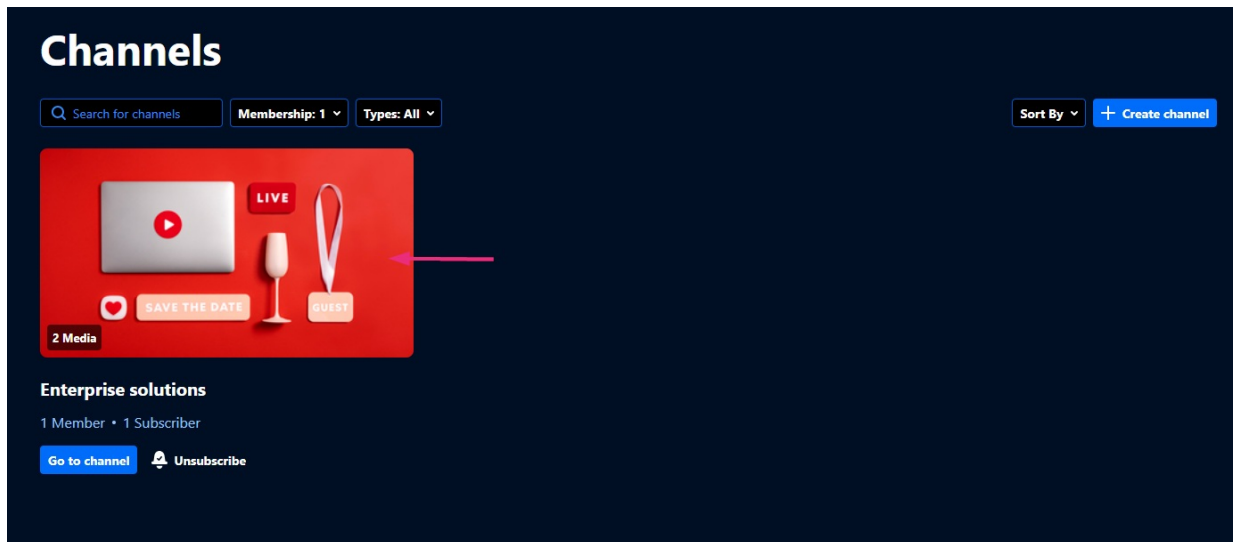

1. Go to the desired channel. You can do this by selecting **My Channels** from the user menu.

Need to create a channel? Check out our [guide](#) here.

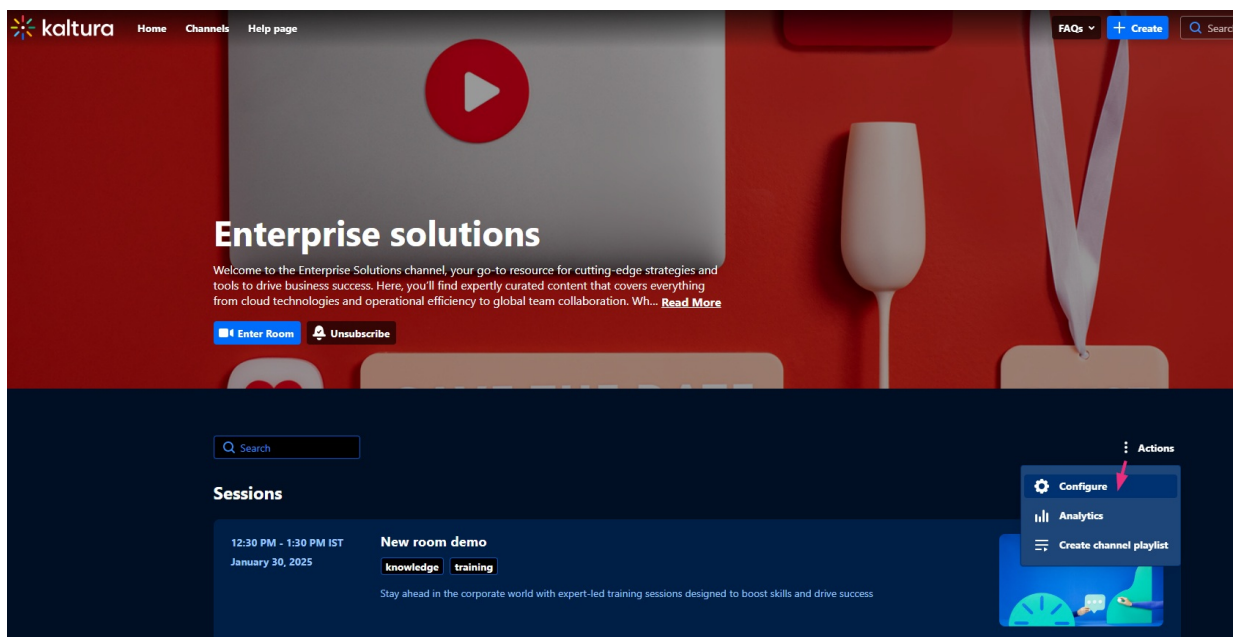

2. On the 'Channels' page, click the thumbnail of the desired channel.

The channel page opens.

- At the far right, click the Actions **three-dot menu** and select **Configure**.

The edit page opens.

- On the **edit** page, click the **Room** tab to open the room settings.

Interactive - Everyone's camera is on by default • Up to 25 visible, 100 total particip... ▼

Room moderators

Select users that are allowed to moderate the room, manage room content, start and end recording, and have access to the backchannel.

Type user name ▼

Chat moderators

Select users that are allowed to moderate the chat, reply to QnA, launch polls and interactions, and have access to the backchannel.

Type user name ▼

Enable Q&A

Enable 1:1 chat with a moderator for users accessing the room.

According to site default ▼

Group Chat

Enable the group chat for users that browse within the room.

2. Configure the following settings:

**Room template** - Select how participants join the stage:

- **Interactive** – everyone can join the stage
- **Webinar** – assigned presenters join the stage; all others join as viewers

**Room moderators** - Assign room moderators who can launch the room, manage room content, start and end recordings, and access the backchannel.

- [Channel managers](#) are automatically added as room moderators.
- [Channel members](#) can join the room when it's open.

**Chat moderators** - Assign chat moderators who can moderate chat, reply to Q&A, launch polls and interactions, and access the backchannel chat.

**Enable Q&A** - Enable or disable Q&A for participants.

**Group Chat** - Enable or disable group chat based on how you want participants to interact.

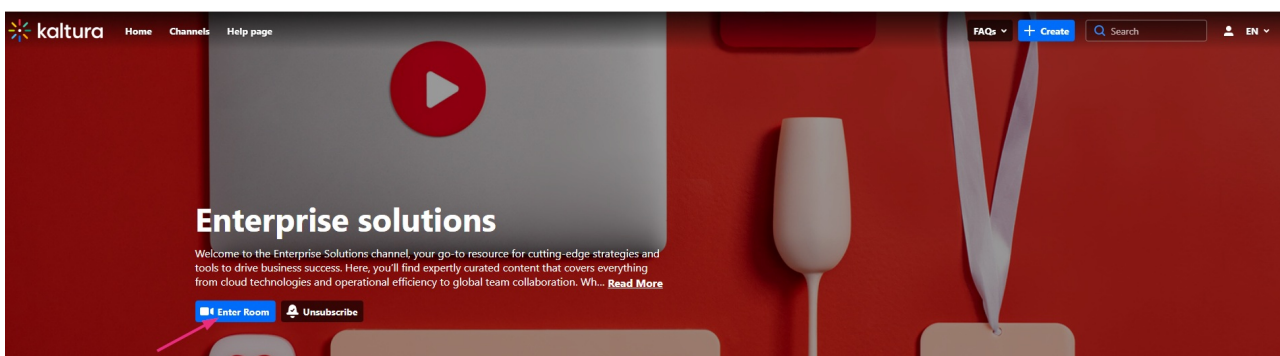

For public or subscriber-only channels, consider [disabling group chat](#) to prevent unwanted posts.

3. Click **Save**.

## Enter the room

Click the **Enter Room** button on the main channel page to launch or join the room.

All recordings from the room are saved to the channel's media.

The room remains available as long as it's enabled - no need to recreate it for each meeting.
