About

A Kaltura Room can be tied directly to a media gallery, creating a persistent virtual meeting space that anyone with access to the media gallery can join.

This type of room is ideal for ongoing collaboration, meetings, or informal group discussions - no need to set up a new session each time. In this guide, you'll learn how to enable and configure a room from within a media gallery.

Access the room settings

1. Go to the desired media gallery and select **Configure** from the **three-dot menu**.

2. On the **edit** page, click the **Room** tab.

Edit Media Gallery
