About

Streamline your meetings, training sessions, and collaborations with Kaltura's global storyboard. Create and update globally shared storyboards for specific teams or departments, ensuring instant accessibility and keeping everyone on the same page. Say goodbye to email exchanges and file sharing workflows, and simplify your content creation process.

If you haven't already unlocked the benefits of the Global Storyboard, simply reach out to your Kaltura representative and ask how to get started.

To make a global storyboard, you must first set up and add content to a 'local' storyboard. Need help? Check out our article Storyboard to get started.

Make your storyboard global!

1. After you have set up a local storyboard in your room, click the **three dots menu**.

i

If there aren't any items already on the storyboard, the menu will look like this:

If you're not sure how to add items, see our article Storyboard.

2. Click Save storyboard.

The Save as a global storyboard window displays.

3. Enter a name for the global storyboard (max 40 characters).
