## About

Want to send feedback? Report an issue you're experiencing? You can easily give feedback on webcam and microphone quality and content playback during a session. That feedback, along with a support log, will be submitted to technical support on your behalf.

## Send feedback or report an issue

- 1. Click the settings icon  $\bullet$  on the bottom right of the screen.
- 2. Select **Give feedback** from the settings menu.

The Give Feedback screen displays.
