About

This guide explains how to enable Kaltura's media assignment submission tool in your LMS, allowing students to submit video assignments through the Kaltura embed workflow.

Configure Kaltura settings

1. Go to your KAF Configuration Management console and click on the **Browseandembed** module. You can also navigate to it directly using a link:
https://{your_KMS_URL}/admin/config/tab/browseandembed.

Browseandembed

Module Info

Info

The 'Browseandembed' module control the way users can use the Browse, Search & Embed (BSE) tool.

- Please make sure players are set. We recommend to make sure the BSEPlayerId field is filled up.
- Note that depending on the LMS/CMS used, the feature set might be different. To read more, please see the [BSE documentation](#).
- If you need to upgrade your BSE players from V2 to V7 Kaltura player, please use [this tool](#).

enabled	<input type="button" value="Yes"/>	Enable the Browseandembed module.
returnUriMethod	<input type="button" value="GET"/>	Which method to use for the return url action.
allowEmbedFromMultipleCourses	<input type="button" value="No"/>	Defines how many categories to include when embedding media.
filterTypeAttribute	<input type="text" value="custom_filter_type"/>	The LTI attribute the get the filter type from.
disableAddNewAttribute	<input type="text" value="custom_disable_add_new"/>	The LTI attribute the get the disable-add-new from.
enableNewBSEUI	<input type="button" value="v3"/>	This field enables the brand new Browse and Embed UI and functionality.
EmbedSettingsButton	<input type="button" value="Show"/>	Select 'Yes' to present the Embed Settings button, allowing users to change the embed settings before embedding media.
enableQuickIngest	<input type="button" value="No"/>	Turn on the Quick Ingest endpoint. Once on, it can either replace the existing Browse and Embed endpoint, or can be used as a standalone tool using this URL: <code>{KAF_Base_URL}/browseandembed/quick-ingest</code>

2. Configure the following settings:

- **enableAssignmentSubmission** - Set to 'Yes'.
- **assignmentSubmissionText** - This is the message that appears when students submit an assignment. The default text is: *Would you like to submit media as an assignment?* You can customize this message to fit your needs.
- **assignmentSubmissionMaxRole** - Set this to 'Contributor' to ensure students can see the 'Submit Media' popup when selecting an entry and clicking the 'Embed' button. (If you want users with a higher role to also see the popup, you can set it to a higher level.)

enableAssignmentSubmission	<input type="button" value="Yes"/>	This feature enables an additional pop up screen when selecting media in Browse, Search and Embed to verify if the user is submitting an assignment. If confirmed, the selected entry will be cloned under a different user name to prevent editing and deletion.
assignmentSubmissionText	<input type="text" value="Would you like to submit media as"/>	Determines the text that will appear on the pop up message when submitting an assignment. In case left empty, the default message will appear.
assignmentSubmissionMaxRole	<input type="button" value="CONTRIBUTOR"/>	This sets the highest role level which will see the pop up upon selecting an entry in Browse, Search and Embed.
contentItemReturnUriAttr	<input type="text" value="content_item_return_url"/>	The LTI attribute that holds the content-item return url
sendCimLineItem	<input type="button" value="Never"/>	"Select 'Yes' to include CIM JSON data for any quiz entry. Turn this field on only if specific gradebook integration workflows are not available for the integration (e.g., BB Ultra)."
allowEmbedFromMediaGallery	<input type="button" value="Contributor"/>	Choose the minimal role that can embed Media Gallery content via BSE.
autoRepublish	<input type="button" value="Yes"/>	Enable the automatic re-publishing feature to make content playable even when it was un-published from the 'Embedded In Context' category after it was embedded via BSE.

3. Click **Save**.
