About

Would you like to combine multiple videos and images into one video? It's very easy with Kaltura's Media Stitching tool. This tool allows you to easily create new, original videos by stitching together existing content.

A

Only VOD videos and images can be stitched. The duration of an image is configured by your administrator. Media Stitching is currently unavailable for multistream videos.

•

The instructions below are for Theming users. If you don't have Theming enabled on your account, please refer to our article 'Media stitching'.

i

Your administrator must first enable the mediastitching module.

Let's stitch

- 1. Access My Media.
- 2. Click the +Create menu and choose Stitch videos.
