About

Keeping your media library organized and up-to-date is important. Over time, you may find that certain videos or media entries need to be updated or removed to maintain a high-quality learning experience.

This guide will show you how to easily delete media items from your My Media within your LMS. And if you ever need to retrieve a deleted item, you can restore it from the **Recycle bin** (if this feature enabled). Check out our article [Restore items from the Recycle bin](#) to learn more.

You cannot delete published media. You must unpublish it before you can delete it.

The instructions below are for [Theming](#) users. If you don't have Theming enabled on your account, please refer to our article 'Edit media'.

Delete a single item

If you cannot access your My Media page content/actions or display editing tabs, ask your administrator to give you the required permission.

1. Access the **My Media** page.
