 This article is designated for all users.

About

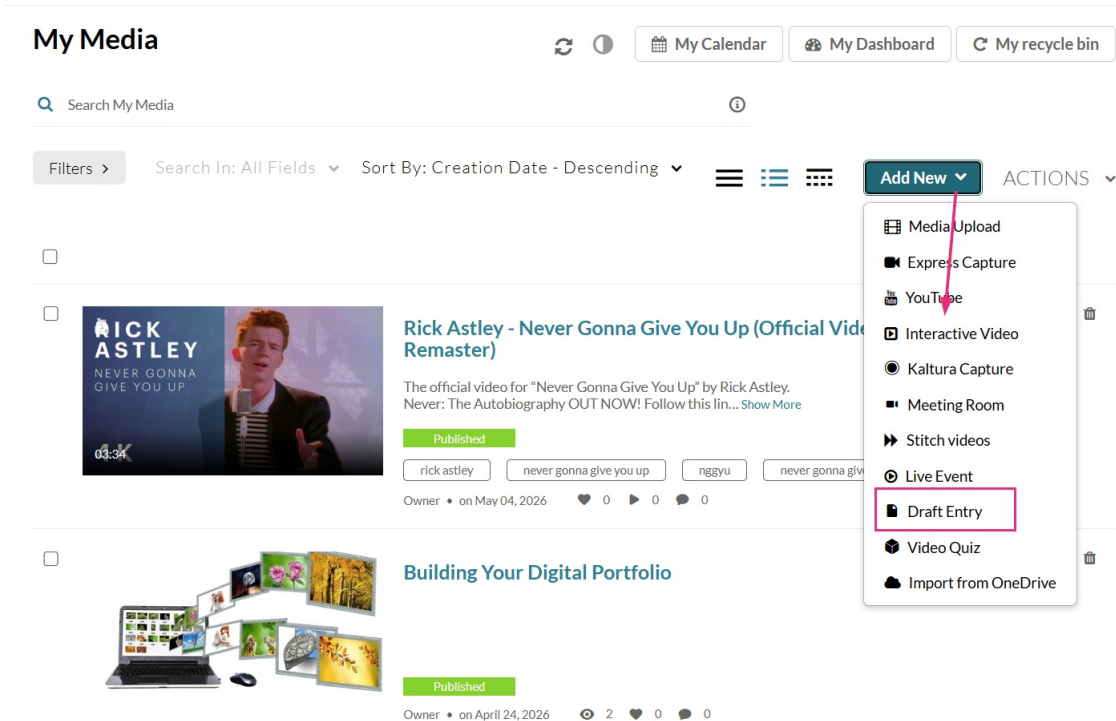

Draft entries offer users the convenience of generating an entry without the immediate need to upload content such as videos, audios, or images.

During the creation process, users can specify the metadata of the entry, such as titles and descriptions. This is useful for creating entries in advance, or for collaborating with others on an entry.

These instructions apply to the legacy **LMS Video** integration. If you're using LMS Video with Theming, please refer to the [LMS Rich Media Extensions category](#).

Create a draft entry

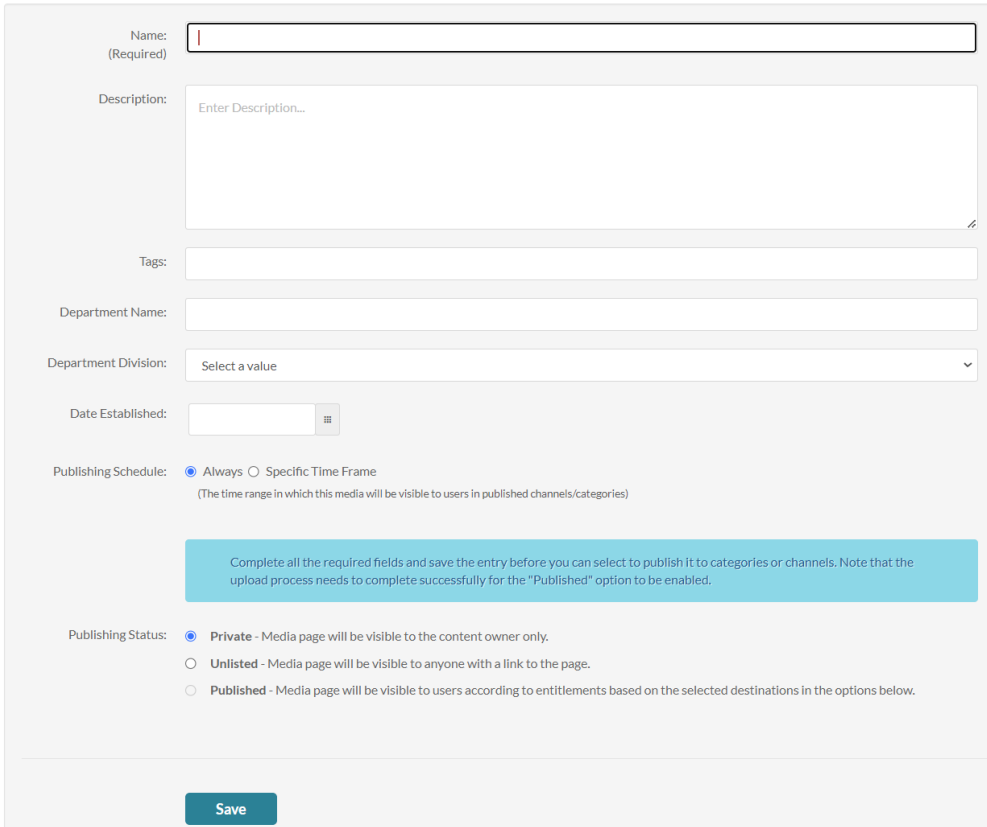

1. Select **Draft Entry** from the **+Create** menu.

The screenshot shows the 'My Media' interface. At the top, there are navigation buttons for 'My Calendar', 'My Dashboard', and 'My recycle bin'. Below that is a search bar and filter options. The main content area displays two media entries. The first entry is 'Rick Astley - Never Gonna Give You Up (Official Video Remaster)', which is published. The second entry is 'Building Your Digital Portfolio', also published. On the right side, the 'Add New' dropdown menu is open, showing various options: Media Upload, Express Capture, YouTube, Interactive Video, Kaltura Capture, Meeting Room, Stitch videos, Live Event, **Draft Entry** (highlighted with a red box), Video Quiz, and Import from OneDrive. A red arrow points to the 'Draft Entry' option.

The **Add New Draft Entry** page displays.

Complete all the required fields and save the entry before you can select to publish it to categories or channels. Note that the upload process needs to complete successfully for the "Published" option to be enabled.

Publishing Status: **Private** - Media page will be visible to the content owner only.
 Unlisted - Media page will be visible to anyone with a link to the page.
 Published - Media page will be visible to users according to entitlements based on the selected destinations in the options below.

2. Enter a name for the new entry (required).
3. Type a description, tags, and any other custom metadata fields as configured for your instance.
4. If desired, set the publishing status from the following options:
 - o **Private** (default) - Media page will be visible to the content owner only.
 - o **Published** - Media page will be visible to users according to entitlements based on the selected destinations in the options that display below, as demonstrated in the image:

The **Publish** option is disabled until you click **Save** at the bottom of the

page. Once saved, you can select Publish.

5. Click **Save**.

Until content is uploaded, the draft entry displays a generic thumbnail or banner.

Edit a draft entry

You have many editing options for draft entries, just like with regular entries. This gives you plenty of ways to customize your draft before adding content.

1. To edit the draft entry, click the **Actions** menu and select **Edit**.
