

Media stitching in Brightspace (legacy)

Last Modified on 05/05/2026 6:30 pm IDT

 This article is designated for faculty members.

About

Would you like to combine multiple videos and images into one video? It's very easy with Kaltura's Media Stitching tool. This tool allows you to easily create new, original videos by stitching together existing content.

Only VOD videos and images can be stitched. The duration of an image is configured by your administrator. Media Stitching is currently unavailable for [multi-stream](#) videos.

This feature requires the [mediastitching module](#) to be enabled.

These instructions apply to the legacy **LMS Video** integration. If you're using LMS Video with Theming, please refer to the [LMS Rich Media Extensions category](#).

Let's stitch

1. Access My Media.
2. Click the **Add New** menu and choose **Stitch videos**.

Media to stitch together

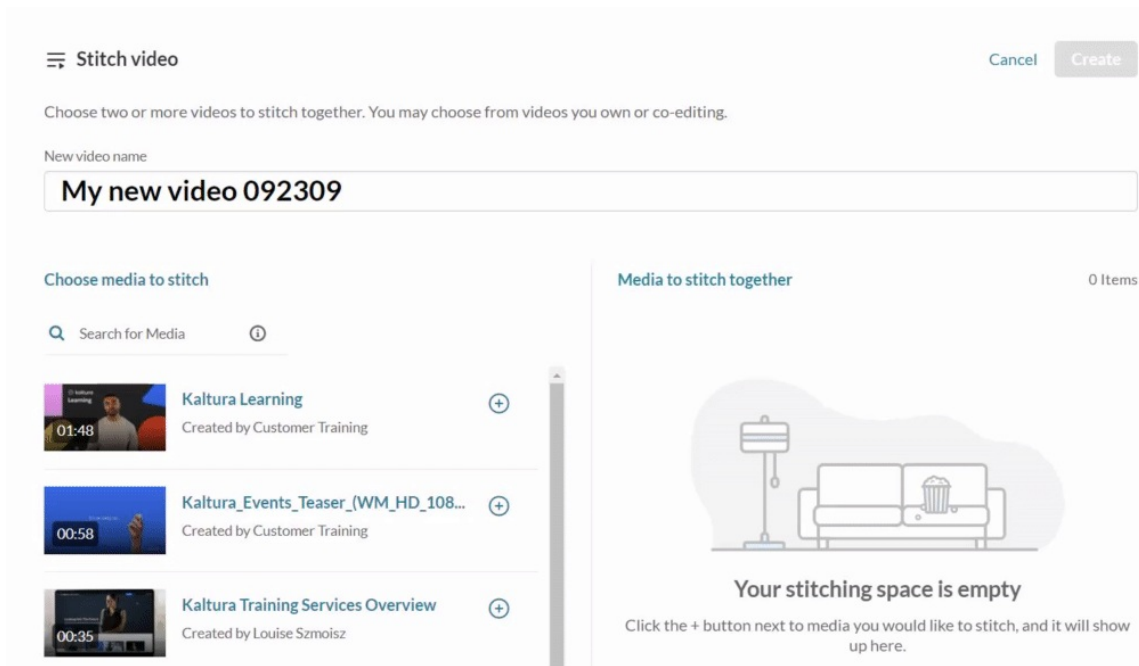

0 Items

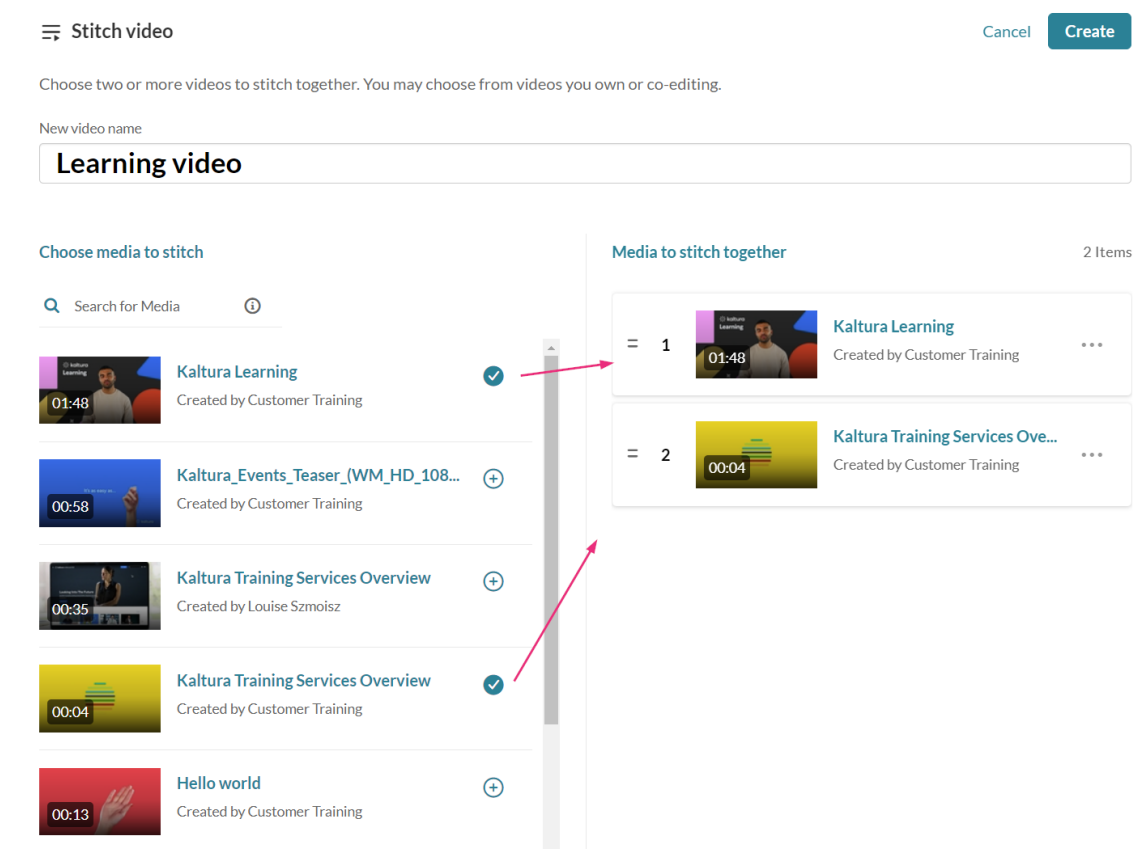

Your stitching space is empty

Click the + button next to media you would like to stitch, and it will show up here.

3. Type a name for your new video in the **New video name** field.

4. In the **Choose media to stitch** section on the left, choose the media that you want to stitch together by clicking the add buttons  next to the items (if you have a long list, you can use the Search option to locate items).

5. The selected items on the left show a check symbol  and move into the **Media to stitch together** section on the right. If you decide you don't want that item, just

click  again to remove it.

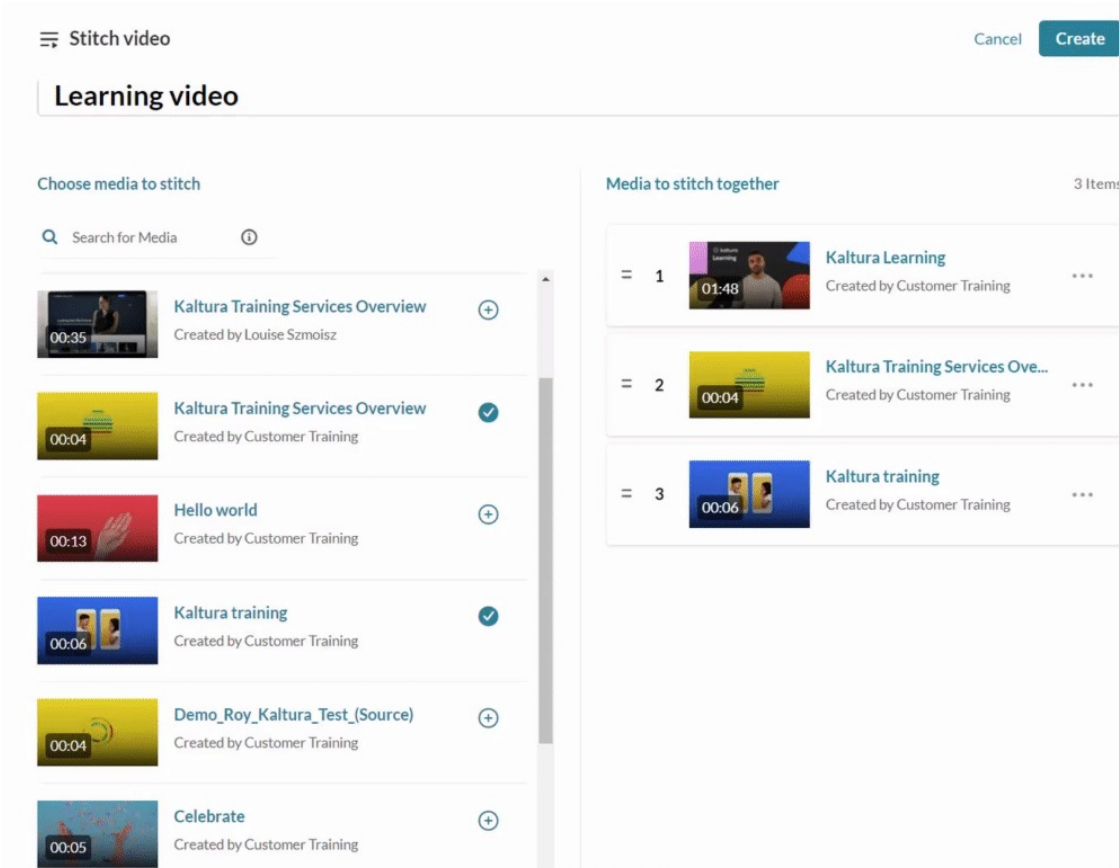

You can stitch media that you are the owner or co-editor of.

You must select at least two items, and no more than five.

- To manually reorder media in the list, grab the two lines to the left of the media and drag to the desired position.

The screenshot shows the 'Stitch video' interface. At the top, there are 'Cancel' and 'Create' buttons. Below is a search bar with the text 'Learning video'. The interface is split into two main sections: 'Choose media to stitch' on the left and 'Media to stitch together' on the right. The 'Choose media to stitch' section has a search bar and a list of media items. The 'Media to stitch together' section shows three items selected and numbered 1, 2, and 3.

The image below shows a stitched video. A timeline break is visible as the player transitions from one segment to the next.

Learning video

From Customer Training September 23, 2024

If you'd like to edit the stitched video, see our article [Kaltura video editing tools](#).

- If you delete an item after it has been added to a stitched video, it will remain in the stitched video.
- It's not possible to go back and change the items in a stitched video once it has been saved.
- Fade transitions will be added in future releases.
