

Embed a playlist in Brightspace - Theming

Last Modified on 06/13/2025 7:19 pm IDT

 This article is designated for faculty members.

About

This guide shows you how to embed a playlist to share a curated selection of media assets on other web pages. The embed feature provides an HTML code snippet that you can easily add to any HTML page, making it simple to share your playlist and media player.

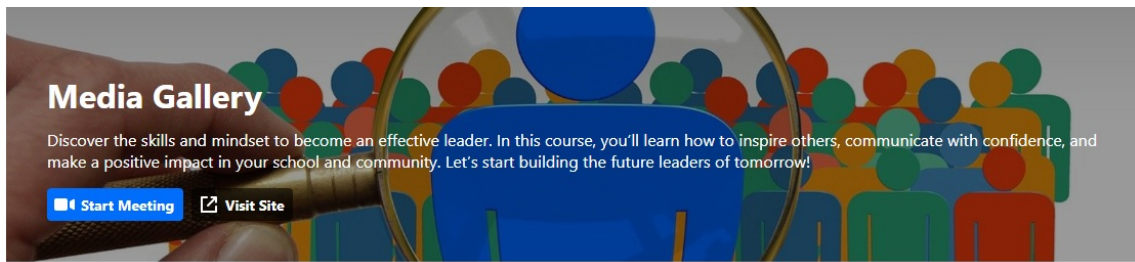

If the playlist is publicly accessible, meaning no login is needed to view the content, and you need to secure your content, make sure to embed the playlist on a page that requires a login.

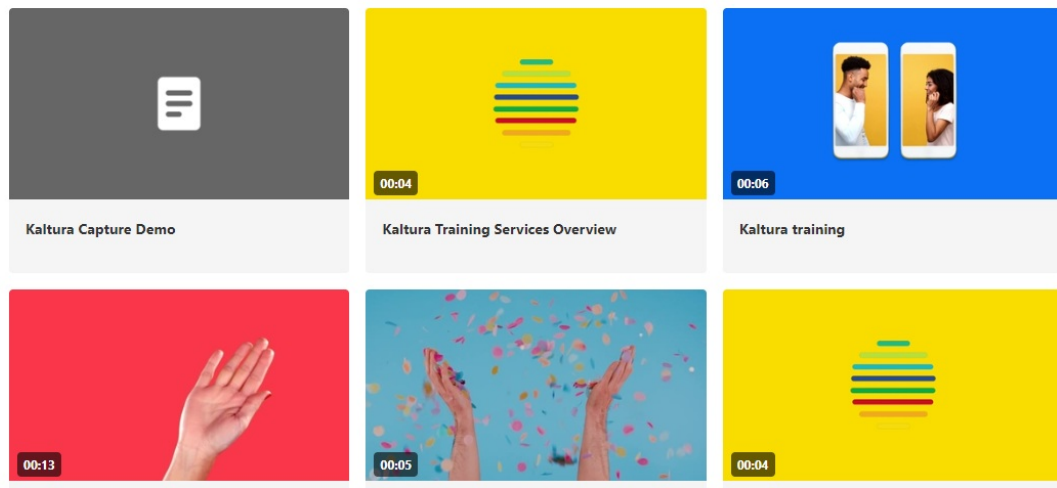

These instructions are for [Theming](#) users. For non-Theming users, please see our article 'Embed a playlist'.

Access the edit playlist page

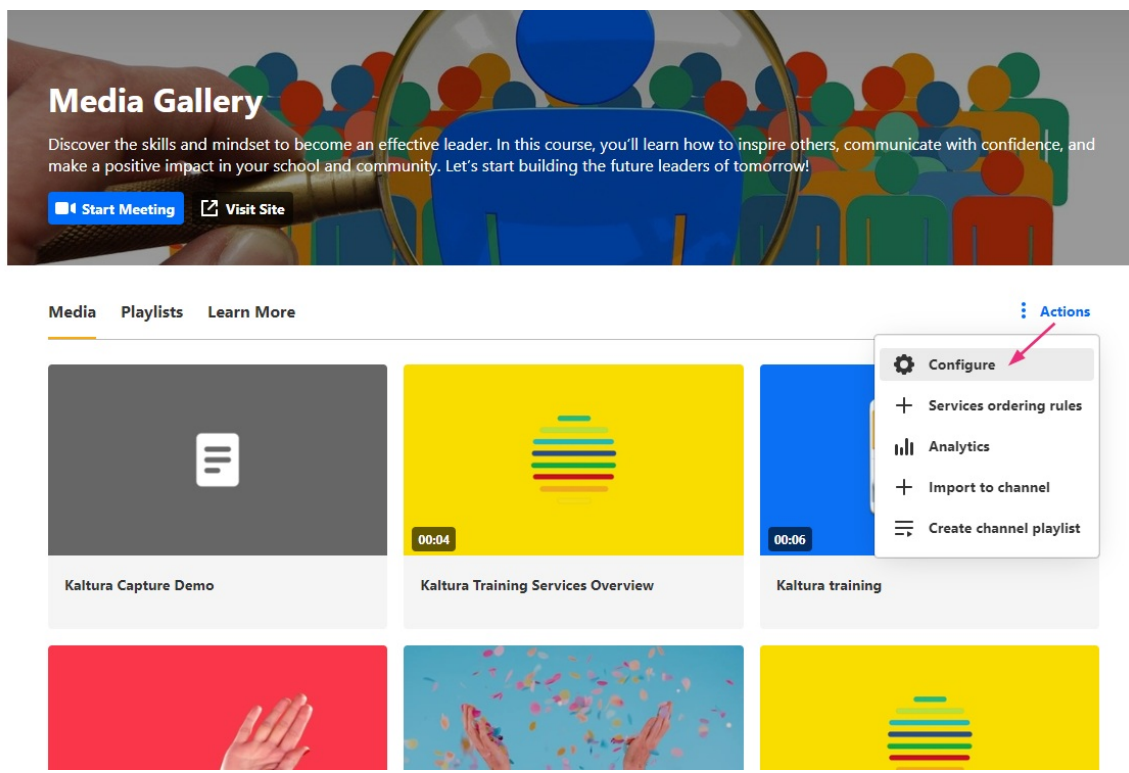

1. Access the Media Gallery.

Media Playlists Learn More ⋮ Actions

2. At the top right of the Media Gallery, click the **Actions** menu and select **Configure**.

The **Edit Media Gallery** page displays.

3. Click the **Playlists** tab.

Edit Media Gallery
