

Supported languages for captions and Content Lab features

Last Modified on 06/21/2025 12:38 pm IDT

2会 This article is designated for all users.

About

Kaltura supports a broad range of languages for captions and Content Lab features making it easier to create accessible and engaging content in the language your audience prefers. Below is the full list of supported languages, including language codes and names, which you may also need when uploading caption files or configuring settings.

If there's a language you'd like to use but don't see in your account, contact your Kaltura Representative to request it be enabled.

Available languages
