Create and publish a poll from the Interactions tab of the Chat and Collaboration widget

1. Click **Poll** to begin creating a poll.

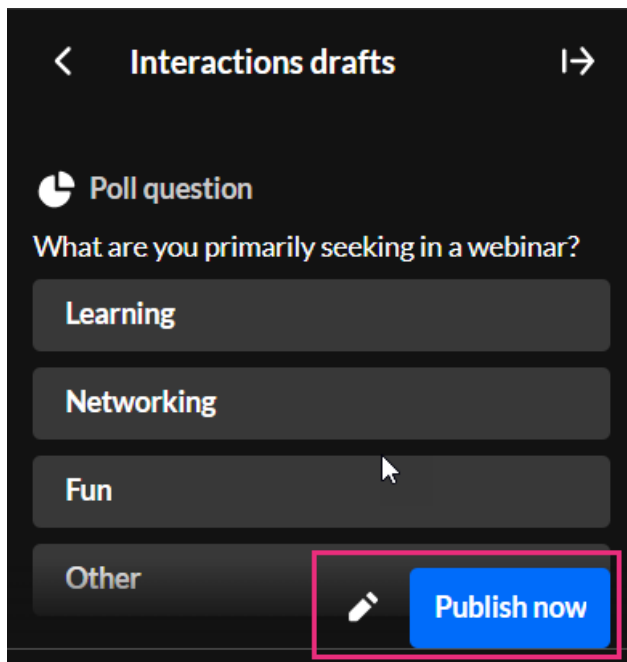

2. Type your question (up to 300 char) and options. Click **+ Add option** to add more options (up to 8 total).

If you want to remove an answer, hover over the answer and click the Delete "trashcan" icon.

3. Decide whether to share results with attendees.
4. You may set up your poll in such a way that your participants can select more than one option. Simply check the box "Enable multiple answers".
5. Decide whether to save as a draft or publish now.

If you choose to *save the poll as a draft*, you may access it through the **Interactions drafts** button on the Interactions tab, hover over the draft and edit it or publish it now.

If you choose to *publish now*, it will be published to your attendees immediately, initially displaying as a small toast popup in the lower left corner of the screen, then displaying in the Feed sub-tab of the Live stage tab.
